LEAVE SOONER, DRIVE SLOWER, LIVE LONGER

It was a quieter than usual Labour Day long weekend at the Plantagenet RoadWise Driver Reviver Stop on Albany Highway at the Cranbrook/Frankland River Roads intersection.

Forty cars stopped to have a break with as many motorists using the services provided.

Most of the traffic flowed through much earlier on Friday 2 March with one driver commenting that 'It makes good sense to travel down here earlier this weekend given that there is so much going on in the Great Southern. We still have to get home, so leave sooner, drive slower and live longer'.

The Shire of Plantagenet RoadWise Committee would like to thank all volunteers who turn up every year to assist at the stop and keep our roads a little bit safer in the process. You are worth your weight in gold.

If you would like to become involved and offer your services at the September 2018 Driver Reviver please call the Shire's Works and Services Administration Officer on (08) 9892 1111.
