MBCC STUDENTS HELP TO KEEP THE SCENE CLEAN

In the final week of term two, year 7, 8 and 9 students from Mount Barker Community College (MBCC) collected rubbish on sections of O'Neill Road and Albany Highway in Mount Barker.

Organised by Mr Barrett from MBCC, the students picked up litter from the roadside verges. A number of large orange bags were filled and in one instance students discovered a site where a number of rubbish bags had been dumped illegally with an attempt made to bury them. The Shire Ranger responds to many littering incidents where instead of depositing rubbish at one of the five waste facilities within the Shire, individuals prefer to dump their rubbish in a reserve or on the side of the road.

Dominic Le Cerf, Manager Works & Services thanked the school and its students for their efforts commenting that, 'This sort of volunteer activity helps to keep Mount Barker a cleaner town for all. It demonstrates initiative and a desire by the students to make the local community a better place to live in.'

A handwritten signature in black ink, appearing to read "Rob Stewart", with a small flourish at the end.

Rob Stewart

Chief Executive Officer
