## **ROAD PROJECTS TO BE CARRIED OVER TO 2017/18**

A number of road projects within the Shire's 2016/17 Road Construction Program are now to be carried over to 2017/18 as follows:

- Moorilup Road – two coat seal; and
- Jutland/Fisher Road, Lake Matilda/Red Gum Pass Roads and the O'Neill Road/Albany Highway intersection – Black Spot projects to realign and improve intersections.

Dominic Le Cerf, Manager Works and Services commented, 'It is disappointing not to be able to complete the upgrades this financial year. Wet weather in late February and early March and land tenure issues with external agencies contributed to the delays.'

Moorilup Road was to receive a two coat seal this year. The Shire will now take the opportunity to allow Moorilup Road to settle to determine if upgrades to drainage and the road are adequate before the seal is laid next year.

The three Black Spot projects are planned to improve and realign each respective intersection and will also be completed in the new financial year.

The Council's 2016/17 Road Construction Program can be found on the Shire website at [www.plantagenet.wa.gov.au](http://www.plantagenet.wa.gov.au). If you require further information please contact Works and Services on (08) 9892 1111.
