### TIP PASSES FOR 2018/19

By now, ratepayers of the Shire of Plantagenet will have received their 2018/19 rates notice. For those rural ratepayers who are entitled to a tip pass, the bright blue 2018/19 pass is attached to the top right hand corner of the rates notice. The number on the tip pass is recorded as being assigned to a specific property.

How do you know if you should receive a tip pass?

Rural rateable properties with a habitable domestic dwelling that do not receive a weekly household waste collection are entitled to one tip pass per house. If you are currently building a new house on a rural property, you are entitled to a tip pass when the house has been completed and a Notice of Completion or BA07 has been presented to the Shire's Planning Department.

Mr David Lynch, Manager Works and Services said it is important that these passes are not lost or damaged. 'The Shire of Plantagenet will only re-issue a tip pass once if it is lost. Damaged tip passes need to be presented to the staff at the Shire Administration Office in exchange for a replacement.'

If you are a rural ratepayer and haven't received a tip pass with your rates, please contact the Works and Services Administration Officer on (08) 9892 1143 for assistance. Further information relating to the Council's Waste Facilities, Fees and Charges and Tip Passes can be obtained by visiting the Shire of Plantagenet website at [www.plantagenet.wa.gov.au](http://www.plantagenet.wa.gov.au).
