

YOUR TIP PASS EXPLAINED

Subsidised tip passes are issued to all rateable properties within the Shire. Three nine-token tip passes are issued for each rateable rural property, and one nine-token tip pass is issued for each rateable property within the kerbside rubbish collection areas.

Additional pre-paid refuse disposal vouchers can be purchased from the Shire Administration Office, or payments can now be made via Eftpos at the O'Neill Road Waste Management Facility.

One token equals up to 1 x 240L mobile garbage bin or the equivalent. When you present to the transfer station with your sorted waste, the attendant will assess what waste categories you have and 'clip' a token in accordance with the fees and charges. Attendants will also assess items suitable for the tip shop and assist with recycling.

If you sell your property, the tip pass must be provided to the new owner upon settlement. If your property is leased, please transfer the tip pass to your tenants. All replacement tip passes will incur the cost outlined in the 2026-27 Fees and Charges available on the Shire's website at:

[www.plantagenet.wa.gov.au

fees-and-charges](http://www.plantagenet.wa.gov.au/documents/1020/202526-fees-and-charges)

DON'T DUMP - DONATE!

Consider donating items which may be given a second lease on life to the O'Neill Road Tip Shop, run by the Mount Barker Lions Club in partnership with the Shire of Plantagenet.

The Tip Shop accepts:

- furniture,
 - household items,
 - sporting equipment,
 - art,
 - tools,
 - garden and outdoor products,
 - books,
 - electrical appliances,
- and much more!

If it's not rubbish, it's too good for landfill.

Please note that the acceptance of items is at staff discretion and dependent on the quality of items as well as supply and demand.

The Shire cannot guarantee the Tip Shop can accept your donations every time. In this case, we suggest you donate to a local op-shop, friends or family or advertise on a local noticeboard or online.

BE A GREAT SORT!

Before your next trip to the tip, consider how you can save yourself time and effort by sorting your load at home.

**Make landfill the last resort.

WHAT CAN I RECYCLE?

Remember: lids off, rinsed and loose!

CARDBOARD & PAPER

✓ Cardboard boxes, newspapers, magazines, envelopes, brochures, catalogues, phone books, milk and juice cartons

✗ Waxed cardboard boxes

BATTERIES

✓ Car and truck batteries, accepted at all transfer stations.

GLASS

✓ Clean bottles and jars (green, brown and clear)

✗ Broken drinking glasses, window glass or crockery

ALUMINIUM

✓ Cans and clean foil trays

PLASTICS

✓ Clean milk bottles, soft drink bottles, cordial bottles, detergent bottles, juice bottles, ice cream, margarine, takeaway and yogurt containers

✗ Plastic bags or polystyrene. Don't put your recyclables in bags, and remove lids as well

drumMUSTER

✓ Triple rinsed, empty chemical drums (both plastic and steel) are accepted

! There must be no trace of chemical residue

TAKE
YOUR
E-WASTE
TO A
BETTER
PLACE

E-waste: anything with a plug, cord or battery cannot be disposed of in kerbside collections. E-waste is accepted at Kendenup Transfer Station and O'Neill Road Waste Management Facility.

SCRAP METAL

✓ Car bodies, iron, steel, wire, whitegoods

TIMBER

✓ Posts, doors, frames.

✗ Arsenic-treated treated pine and painted timbers

GREEN WASTE

✓ This includes your lawn clippings, branches, garden prunings

! Please don't contaminate your green waste with plastic, metal or concrete. Green waste also makes great compost!

STEEL

✓ Empty and rinsed steel cans are accepted

CONCRETE, BRICKS AND RUBBLE

✓ Clean concrete and bricks and rubble can be disposed of

✗ anything that may have asbestos is prohibited at transfer stations

WASTE OIL

✓ Clean used or unwanted motor oil can be disposed of into the collection tanks at O'Neill Road Waste Management Facility and Kendenup Transfer Station.

SORT & COVER YOUR LOAD

THE RIGHT WAY TO LOAD

Keep the same materials together. Neat piles of green waste, timber, bricks and scrap metal at the front and any leftover rubbish at the rear of your load will ensure you can move from bay to bay and recycle your load first then drop off your rubbish last. Securing your load with a net or tie down straps or ropes is essential.

THE WRONG WAY TO LOAD

If you throw everything into your trailer or ute together, it will be harder to separate your recyclable items from your rubbish. You will be tempted to simply throw everything into landfill.

SECURE YOUR LOAD

Unsecured loads pose a serious risk and is an offense under the Road Safety Act (1986). You can be fined for littering if rubbish from your load is blown onto the road or roadside area. Large unsecured items may cause a serious accident if they fall onto the road. Always secure your load.
