2011/2012 Adopted Budget

INTRODUCTION

The 2011/2012 Annual Adopted Budget for the Shire of Plantagenet is presented for information and comment by the public. The Adopted budget totals \$17.7 million representing operating expenditure of \$10.8 million and capital expenditure of \$6.9 million.

This year's budget has been influenced by an improvement in the Shire's financial position due to the 2010 State Government announcement that it would provide \$2.3 million to the Shire to clear debt from its saleyards and provide a solid business basis for the yard's future. In addition, a significant amount of rates owed by timber plantation companies at the end of the 2009/2010 financial year has now been received.

Nevertheless, the budget deliberations this year have once again been a difficult balance between the cost of providing new facilities, maintaining operating service levels and allocating sufficient moneys to the Council's reserve funds. In addition, the Council is attempting to 'catch up' on previous years that saw reduced service levels and delayed infrastructure / plant purchases.

The Council considers that an effective rate increase of 6% is appropriate given a variety of factors, including previous reports regarding the Shire's financial sustainability which have indicated that the Shire is under-rating.

Note: Due to changes in the Waste Avoidance and Resource Recovery Act and the Health Act, waste services are to be made based on a rate in the dollar. The Shire is therefore proposing to remove its General Waste Levy (currently \$110.00) and raise the equivalent amount of lost revenue in rates. This would be far simpler than trying to maintain the charge based on a rate in the dollar. This would result in a 14.4% rate increase, but it still represents an effective 6% rate increase. The other impact is an increase in the minimum rate to \$695.00. These measures will as far as practicable, replicate the current rating burden.

In terms of ongoing savings, approximately \$280,000.00 per year will be saved in principal and interest repayments on the three saleyards loans. The Council considered a number of options and has decided that this money should be allocated to other projects and services.

The Council's Long Term Financial Plan (LTFP) includes the following key goals:

- Goal 1 – Reduce Gross Debt To Revenue Ratio to 40%.
- Goal 2 – Increase cash reserves to \$1 million in 10 years.
- Goal 3 – Break even on waste management costs.
- Goal 4 – Reduce infrastructure maintenance gap to zero.
- Goal 5 – Achieve a balanced budget.

2011/2012 Adopted Budget

Goals 1, 2, 3 and 5 either have been achieved or are on track to be achieved. Goal 4 is the one which the Council has decided to focus on with the money saved on loan repayments.

The LTFP noted that the Council is predicted to spend only 70% to 80% of its minimum road maintenance requirements. It was also noted that the Council's roads management database (Roman) and road hierarchy need to be reviewed and that the Council also needs to improve the maintenance work currently being done on the roads. If we lift the standards we will save money in the long term.

This forthcoming budget therefore includes an additional \$100,000 for road maintenance, in particular for improvements to gravel roads. A sum of \$70,000 (grant funded) has also been allocated for a consultant to assist in developing asset management plans, including a five year gravel re-sheeting program.

In terms of operating service levels, the Council proposes to allocate an additional \$80,000 for parks and gardens maintenance and also intends to re-employ a telephonist, due to the complaints received about the difficulty in contacting Shire office staff.

Projected income from year two of the Royalties for Regions (Country Local Government Fund) is included in this budget and has been allocated to the implementation of the Shire Recreation Plan at Sounness Park. The commencement of work will be dependent on acquitting the 2009/2009 CLGF allocation and receipt of this additional money.

It measures the extent to which assets are being renewed compared to the amount being consumed (depreciation). A ratio above 1.2 is desirable and less than 1.1 is an indication of insufficient investment into the renewal of assets. The ratio for 2011/2012 is shown to the right.</p>							

INFORMATION NOTES

INFORMATION NOTES

Note 1 – Significant Accounting Policies

The significant accounting policies which have been adopted in the preparation of this budget are:

(a) Basis of Preparation

The budget has been prepared in accordance with applicable Australian Accounting Standards (as they apply to local government and not-for-profit entities), Australian Accounting Interpretations, other authoritative pronouncements of the Australian Accounting Standards Board, the Local Government Act 1995 and accompanying regulations.

The budget has also been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

(b) The Local Government Reporting Entity

All funds through which the Council controls resources to carry on its functions have been included in the financial statements forming part of this budget.

In the process of reporting on the local government as a single unit, all transactions and balances between those funds (eg: loans and transfers between funds) have been eliminated.

All moneys held in the Trust Fund are excluded from the financial statements but a separate statement of those moneys appears at Note 13 of this budget document.

(c) 2010 - 2011 Actual Balances

Balances shown in this budget as 'Est. Actual 30 June 2011' are as forecast at the time of budget preparation and are subject to final adjustments.

(d) Rounding Off Figures

All figures shown in this budget, other than a rate in the dollar, are rounded to the nearest dollar.

(e) Rates, Grants, Donations and Other Contributions

Rates, grants, donations and other contributions are recognised as revenues when the Council obtains control over the assets comprising the contributions. Control over assets acquired from rates is obtained at the commencement of the rating period or, where earlier, upon receipt of the rates.

(f) Goods and Services Tax (GST)

In accordance with recommended practice, revenues, expenses and assets capitalised are stated net of any GST recoverable. Receivables and payables in the 'Statement of Financial Position' are stated inclusive of applicable GST.

(g) Superannuation

The Council contributes to a number of superannuation funds on behalf of employees.

(h) Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, cash at bank, deposits held at call with banks, other short term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts.

Bank overdrafts are shown as short term borrowings in current liabilities on the statement of financial position.

(i) Trade and Other Receivables

Collectability of trade and other receivables is reviewed on an ongoing basis. Debts that are known to be uncollectible are written off when identified. An allowance for doubtful debts is raised when there is objective evidence that they will not be collectible.

Note 1 – Significant Accounting Policies

(j) Inventories

General

Inventories are measured at the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Land Held for Resale

Land purchased for development and/or resale is valued at the lower of cost and net realisable value. Cost includes the cost of acquisition, development, borrowing costs and holding costs until completion of development. Finance costs and holding charges incurred after development is complete are expensed.

Revenue arising from the sale of property is recognised in the statement of comprehensive income as at the time of signing an unconditional contract of sale.

Land held for resale is classified as current except where it is held as non-current based on the Council's intentions to release for sale.

(k) Fixed Assets

Initial Recognition

All assets are initially recognised at cost. Cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at no cost or for nominal consideration, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the Council includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overhead.

Revaluation

Certain asset classes may be revalued on a regular basis such that the carrying values are not materially different from fair value. For infrastructure and other asset classes where no active market exists, fair value is determined to be the current replacement cost of an asset less, where applicable, accumulated depreciation calculated on a basis of such cost to reflect the already consumed or expired future economic benefits of the asset.

Increases in the carrying amount arising on revaluation of assets are credited to a revaluation surplus in equity. Decreases that offset previous increases in the same asset are charged against fair value reserves directly in equity; all other decreases are charged to the statement of comprehensive income.

Any accumulated depreciation at the date of revaluation is eliminated against the gross carrying amount of the asset and the net amount is restated to the revalued amount of the asset.

Those assets carried at a revalued amount, being their fair value at the date of revaluation less any subsequent accumulated depreciation and accumulated impairment losses, are to be revalued with sufficient regularity to ensure the carrying amount does not differ materially from that determined using fair value at reporting date.

Land Under Roads

In Western Australia, all land under roads is Crown Land, the responsibility for managing which, is vested in the local government.

Effective as at 1 July 2008, the Council elected not to recognise any value for land under roads acquired on or before 30 June 2008. This accords with the treatment available in Australian Accounting Standard AASB 1051 Land Under Roads and the fact Local Government (Financial Management) Regulation 16(a)(i) prohibits local governments from recognising such land as an asset.

In respect of land under roads acquired on or after 1 July 2008, as detailed above, Local Government (Financial Management) Regulation 16(a)(i) prohibits local governments from recognising such land as an asset.

Note 1 – Significant Accounting Policies

(k) Fixed Assets (Continued)

Land Under Roads (Continued)

Whilst this treatment is inconsistent with the requirements of AASB 1051, Local Government (Financial Management) Regulation 4(2) provides, in the event of such an inconsistency, the Local Government (Financial Management) Regulations prevail.

Consequently, any land under roads acquired on or after 1 July 2008 is not included as an asset of the Council.

Depreciation of Non-Current Assets

All non-current assets having a limited useful life are separately and systematically depreciated over their useful lives in a manner which reflects the consumption of the future economic benefits embodied in those assets. Assets are depreciated from the date of acquisition or, in respect of internally constructed assets, from the time the asset is completed and held ready for use.

Depreciation is recognised on a straight-line basis, using rates which are reviewed each reporting period. Major depreciation periods are:

Buildings	30 to 50 Years
Plant and Equipment	4-10 Years
Furniture and Equipment	4-10 Years

Sealed Roads & Streets

- Formation	Not Depreciated
- Pavement (Original Surfacing and Major Re-Surfacing)	50 Years
- Bituminous Seals	20 Years
- Asphalt Surfaces	25 Years

Gravel Roads

- Clearing and Earthworks	Not Depreciated
- Pavement	50 Years
- Gravel Sheet	12 Years

Formed Roads (Unsealed)

- Formation	Not Depreciated
- Pavement	50 Years
Footpaths - Slab	20 Years
Sewerage Piping	N / A
Water Supply Piping & Drainage Systems	75 Years

The assets residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in the statement of comprehensive income. When revalued assets are sold, amounts included in the revaluation surplus relating to that asset are transferred to retained earnings.

Capitalisation Threshold

Expenditure on items of equipment under \$2,000 is not capitalised. Rather, it is recorded on an asset inventory listing.

Note 1 – Significant Accounting Policies

(I) Financial Instruments

Initial Recognition and Measurement

Financial assets and financial liabilities are recognised when the Council becomes a party to the contractual provisions to the instrument. For financial assets, this is equivalent to the date that the Council commits itself to either the purchase or sale of the asset (ie trade date accounting is adopted).

Financial instruments are initially measured at fair value plus transaction costs, except where the instrument is classified 'at fair value through profit or loss', in which case transaction costs are expensed to profit or loss immediately.

Classification and Subsequent Measurement

Financial instruments are subsequently measured at fair value, amortised cost using the effective interest rate method or at cost.

Fair value represents the amount for which an asset could be exchanged or a liability settled, between knowledgeable, willing parties. Where available, quoted prices in an active market are used to determine fair value. In other circumstances, valuation techniques are adopted.

Amortised cost is calculated as:

- (a) the amount in which the financial asset or financial liability is measured at initial recognition;
- (b) less principal repayments;
- (c) plus or minus the cumulative amortisation of the difference, if any, between the amount initially recognised and the maturity amount calculated using the effective interest rate method; and
- (d) less any reduction for impairment.

The effective interest rate method is used to allocate interest income or interest expense over the relevant period and is equivalent to the rate that exactly discounts estimated future cash payments or receipts (including fees, transaction costs and other premiums or discounts) through the expected life (or when this cannot be reliably predicted, the contractual term) of the financial instrument to the net carrying amount of the financial asset or financial liability. Revisions to expected future net cash flows will necessitate an adjustment to the carrying value with a consequential recognition of an income or expense in profit or loss.

(i) Financial assets at fair value through profit and loss

Financial assets at fair value through profit or loss are financial assets held for trading. A financial asset is classified in this category if acquired principally for the purpose of selling in the short term. Derivatives are classified as held for trading unless they are designated as hedges. Assets in this category are classified as current assets.

(ii) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are subsequently measured at amortised cost.

Loans and receivables are included in current assets, except for those which are not expected to mature within 12 months after the end of the reporting period (classified as non-current assets).

(iii) Held-to-maturity investments

Held-to-maturity investments are non-derivative financial assets with fixed maturities and fixed or determinable payments that the Council's management has the positive intention and ability to hold to maturity.

Held-to-maturity financial assets are included in non-current assets, except for those which are expected to mature within 12 months after the end of the reporting period, which are classified as current assets.

Note 1 – Significant Accounting Policies

If the Council were to sell other than an insignificant amount of held-to-maturity financial assets, the whole category would be tainted and reclassified as available-for-sale.

(l) Financial Instruments (Continued)

Initial Recognition and Measurement (Continued)

(iv) Available-for-sale financial assets

Available-for-sale financial assets are non-derivative financial assets that are either not suitable to be classified into other categories of financial assets due to their nature, or they are designated as such by management. They comprise investments in the equity of other entities where there is neither a fixed maturity nor fixed or determinable payments.

Available-for-sale financial assets are included in non-current assets, except for those which are expected to mature within 12 months of the end of the reporting period (classified as current assets).

(v) Financial liabilities

Non-derivative financial liabilities (excluding financial guarantees) are subsequently measured at amortised cost.

Impairment

At the end of each reporting period, the Council assesses whether there is objective evidence that a financial instrument has been impaired. In the case of available-for-sale financial instruments, a prolonged decline in the value of the instrument is considered to determine whether impairment has arisen. Impairment losses are recognised in the statement of comprehensive income.

(m) Estimation of Fair Value

The fair value of financial assets and financial liabilities must be estimated for recognition and measurement or for disclosure purposes.

The fair value of financial instruments traded in active markets is based on quoted market prices at the reporting date.

The fair value of financial instruments that are not traded in an active market is determined using valuation techniques. The Council uses a variety of methods and makes assumptions that are based on market conditions existing at each balance date. These include the use of recent arm's length transactions, reference to other instruments that are substantially the same, discounted cash flow analysis, and option pricing models making maximum use of market inputs and relying as little as possible on entity-specific inputs.

Quoted market prices or dealer quotes for similar instruments are used for long-term debt instruments held. Other techniques, such as estimated discounted cash flows, are used to determine fair value for the remaining financial instruments.

The nominal value less estimated credit adjustments of trade receivables and payables are assumed to approximate their fair values. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Council for similar financial instruments.

(n) Impairment

In accordance with Australian Accounting Standards the Council's assets, other than inventories, are assessed at each reporting date to determine whether there is any indication they may be impaired.

Where such an indication exists, an estimate of the recoverable amount of the asset is made in accordance with AASB 136 "Impairment of Assets" and appropriate adjustments made.

An impairment loss is recognised whenever the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. Impairment losses are recognised in the statement of comprehensive income.

Note 1 – Significant Accounting Policies

(n) Impairment (Continued)

For non-cash generating assets such as roads, drains, public buildings and the like, value in use is represented by the depreciated replacement cost of the asset.

At the time of adopting the budget, it is not possible to estimate the amount of impairment losses (if any) as at 30 June 2012. In any event, an impairment loss is a non-cash transaction and consequently, has no impact on this budget document.

(o) Trade and Other Payables

Trade and other payables represent liabilities for goods and services provided to the Council prior to the end of the financial year that are unpaid and arise when the Council becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured and are usually paid within 30 days of recognition.

(p) Employee Benefits

The provisions for employee benefits relates to amounts expected to be paid for long service leave, annual leave, wages and salaries and are calculated as follows:

(i) Wages, Salaries, Annual Leave and Long Service Leave (Short-term Benefits)

The provision for employees' benefits to wages, salaries, annual leave and long service leave expected to be settled within 12 months represents the amount the Council has a present obligation to pay resulting from employees' services provided to reporting date. The provision has been calculated at nominal amounts based on remuneration rates the Council expects to pay and includes related on-costs..

(ii) Annual Leave and Long Service Leave (Long-term Benefits)

The liability for long service leave is recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the projected unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on national government bonds with terms to maturity and currency that match as closely as possible, the estimated future cash outflows. Where the Council does not have the unconditional right to defer settlement beyond 12 months, the liability is recognised as a current liability.

(q) Borrowings

Borrowing costs are recognised as an expense when incurred except where they are directly attributable to the acquisition, construction or production of a qualifying asset. Where this is the case, they are capitalised as part of the cost of the particular asset.

(r) Provisions

Provisions are recognised when:

- (a) the Council has a present legal or constructive obligation as a result of past events;
- (b) for which it is probable that an outflow of economic benefits will result to settle the obligation; and
- (c) that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

Provisions are not recognised for future operating losses.

Note 1 – Significant Accounting Policies

(s) Current and Non-Current Classification

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the Council's operational cycle. In the case of liabilities where the Council does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current even if not expected to be realised in the next 12 months except for land held for resale where it is held as non-current based on the Council's intentions to release for sale.

(t) Comparative Figures

Where required, comparative figures have been adjusted to conform with changes in presentation of the current budget year.

(u) Budget Comparative Figures

Unless otherwise stated, the budget comparative figures shown in this budget document relate to the original budget estimate for the relevant item of disclosure.

All debenture repayments are to be financed by general purpose revenue, except the self supporting loans, which will be met by the respective clubs.

Loan No. 89 raised \$1.3 million for the cattle saleyards, however not all of this has been allocated. A sum of \$143,000 was used as a contribution towards the new Plantagenet Medical Centre in 2008/2009. Therefore 11% of the costs of that loan are listed under Health - Preventive Services Other.

In December 2010, the State Government announced that it would deliver on a major election commitment and invest \$21.5 million towards developing and modernising three key regional saleyards. The State provided \$2.3 million to the Shire to clear debt from its saleyards and provide a solid business basis for the yard's future. As a result of this, loans 83, 84 and 89 were paid off.

(b) New Debentures

The Council has no plans to take out new debentures in 2011/2012.

(c) Unspent Debentures

The Council had the following unspent debentures as at 30 June 2011, which is budgeted to be transferred to Municipal Funds in 2011/2012.

- Great Southern Regional Cattle Saleyards - Loan No. 89 \$ 28,415

(d) Overdraft

The Council has a \$500,000 overdraft facility with the Bendigo Bank. The Council will continue its existing overdraft arrangement and it will be utilised if and when required. The Council has not utilised the facility in 2010/2011.

All land except exempt land in the Shire of Plantagenet is rated according to its Gross Rental Value (GRV) or Unimproved Value (UV). No rate discounts are offered.

The general rates detailed above for the 2011/12 financial year have been determined by the Council on the basis of raising the revenue required to meet the deficiency between the total estimated expenditure proposed in the budget and the estimated revenue to be received from all sources other than rates and also considering the extent of any increase in rating over the level adopted in the previous year.

The minimum rates have been determined by the Council on the basis that all ratepayers must make a reasonable contribution to the cost of Shire services and facilities.

The Council will not charge any specified area rates or service charges.

RATES SUPPORTING INFORMATION

The following procedures have been adopted by the Council for the direction of staff in regard to rates administration & collection:

RATES INSTALMENT OPTIONS

All rates and charges are due and payable 35 days from the date of issue of the original rates notice, unless an election to pay by instalments is made. Ratepayers can choose between a two or four instalment plan. Any arrears from previous financial years are included in the first instalment and must be paid in full to be accepted into an instalment plan.

When payment is elected to be made by instalments, the first rates instalment is due and payable 35 days from the date of issue of the original notice. It is anticipated that due dates for 2011/2012 will be as follows:

TWO INSTALMENT OPTION

Original Rates Notice Issued	13 July 2011
First Instalment Due	17 August 2011
Second Instalment Due	4 January 2012

FOUR INSTALMENT OPTION

Original Rates Notice Issued	13 July 2011
First Instalment Due	17 August 2011
Second Instalment Due	19 October 2011
Third Instalment Due	4 January 2012
Fourth Instalment Due	7 March 2012

An administration fee of \$7.50 per instalment reminder notice (ie: second, third and fourth instalment) is payable when electing to pay by instalments to cover administration expenses & it is estimated that \$13,500 will be raised via this charge in the 2011/2012 year. The instalment interest component charge under Section 6.45 (3) of the Local Government Act 1995 is set at 5.5% and it is estimated that \$16,000 will be raised via the instalment interest component in 2011/2012.

11% per annum simple interest is charged on all outstanding rates (including General Waste Levy, rubbish collection charges, ESL & legal expenses) that remain unpaid after the due date of the respective instalment reminder.

DISCOUNT

No discount will be offered for the timely payment of rate accounts in the 2011/2012 financial year.

INCENTIVE SCHEME

As an incentive to pay the total rate account in full on or before the due date, three separate prizes will be offered.

- First Prize will be a \$500 savings account with the Mount Barker Bendigo Community Bank.
- Second Prize will be overnight accommodation with breakfast at Esplanade River Suites in Perth.
- Third Prize will be a selection of a dozen mixed wines from the Porongurup Wine Producers.

LATE PAYMENT PENALTY INTEREST

Simple interest (charged daily) will be charged on all outstanding property rates which remain unpaid after 35 days from the date of issue of the rates notice & will continue to accrue until the day before payment is made. The rate of interest for the 2011/2012 financial will be 11% and it is estimated that \$55,000 will be raised from the imposition of penalty interest. Pensioners are excluded from this penalty interest charge. Late payment penalty interest also applies to outstanding General Waste Levy charges, Rubbish Collection Charges, ESL and legal expenses.

SERVICE CHARGES

The Shire of Plantagenet does not raise any service charges in accordance with Local Government (Financial Management) Regulation 54.

PAYMENT METHODS

Payment can be made at Council Offices during normal working hours (9.00am to 4.15pm) Monday to Friday, by mailing a cheque or money order to the Council or by BPAY. Payments via credit card are limited to a maximum of \$10,000 per assessment. Payment can also be made over the internet by BPoint (www.plantagenet.wa.gov.au) or over the telephone by phoning 1300 276 468.

9 SCHEME AMENDMENTS AND STRUCTURE PLANS

The fees, charges & costs associated with processing & considering scheme amendments & structure plans will be determined using the Town Planning (Local Government Planning Fees) Regulations fees structure guidelines. In general terms, the fees will be determined after making allowance for officer's time, direct costs involved & a percentage allowance to recover operating overhead costs. GST will be charged where applicable. (Further details can be obtained from the Manager Development Services.)

Emergency Services Levy Administration - 'Option B'

Agreement

Meeting Date: 5 July 2011

Number of Pages : 8

THIS AGREEMENT is made the 1st day of July 2011

BETWEEN

The Fire and Emergency Services Authority of Western Australia, a body corporate established by the Fire and Emergency Services Authority of Western Australia Act 1998 of 480 Hay Street Perth ("**FESA**")

AND

the local government whose name and address appear in Item 1 of the Schedule hereto ("**LG**")

WHEREAS

- (A) Under section 36ZJ of the Fire and Emergency Services Authority of Western Australia Act 1998 ("**the FESA Act**") FESA may, with the approval of the Minister, enter into a written agreement with a local government that provides for the local government to pay to FESA an amount equal to the total amount of levy payable for a levy year on all leviable land in the local government's district.
- (B) The LG is a local government incorporated under the Local Government Act 1995 and has agreed to enter into this ESL agreement with FESA.
- (C) The Minister for Police; Emergency Services; Road Safety has approved FESA entering into this ESL agreement.

NOW THE PARTIES HERETO AGREE AND DECLARE as follows:-

- 1. Words and expressions specifically defined in the FESA Act whenever used in this ESL agreement shall have the same meaning as in the FESA Act unless expressly defined herein or the context otherwise requires.
- 2. This ESL agreement is made subject to the provisions of the FESA Act and the parties hereto shall observe, perform and comply with all applicable provisions of the FESA Act and the Regulations thereunder and any Ministerial guidelines for the time being issued by the Minister under section 36Y of the FESA Act ("**the Guidelines**") as if fully set forth herein as agreements by the parties.
- 3. This ESL agreement shall commence on the date mentioned in Item 2 of the Schedule ("**the Commencement Date**") and shall endure until one of the parties gives to the other at least 3 months written notice that this ESL agreement is to terminate ("**Term**") whereupon after the said period of notice this ESL agreement is to end.
- 4. The LG shall calculate the total amount of levy payable for each separate levy year the subject of this ESL agreement on all leviable land, excluding land owned by the LG, for the time being in the LG's district ("**the Total ESL**") at the time or times and in the manner specified in the FESA Act and Regulations thereunder and the Guidelines.

5. (a) The LG shall pay to FESA the Total ESL for the current levy year without abatement or deduction whatsoever EITHER:
- (i) by four instalments on the twenty-first day of the months of September, December, March and June respectively of that levy year; OR
 - (ii) with the prior written consent of FESA, by one single instalment on the twenty-first day of September in the levy year.

The payment option to apply will be specified in Item 3 of the Schedule ("**Elected Payment Option**").

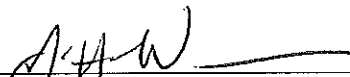

- (b) The September, December and March instalments under clause 5(a)(i) shall each be for an amount equal to thirty per cent (30%) of the Total ESL for that levy year.
 - (c) The June instalment under clause 5(a)(i) shall be for an amount equal to ten per cent (10%) of the Total ESL for that levy year.
 - (d) The LG must ensure that each instalment under clause 5(a)(i) or 5(a)(ii) (as the case may be) is received by FESA no later than 5.00 p.m. on the date hereinbefore fixed for payment of that instalment, and in this respect time shall be of the essence of this agreement PROVIDED that if the date fixed for payment of an instalment is a Saturday, a Sunday or a gazetted public holiday in Western Australia, the LG must ensure that the instalment is received by FESA prior to that date on a day which is not a Saturday, Sunday or gazetted public holiday.
6. (a) Within fourteen (14) days after the date of issue by the LG of its levy assessment notices in each levy year, the LG must duly complete and deliver to FESA an Emergency Services Levy Assessment Profile Return Form in accordance with Schedule 4 of FESA's Emergency Services Levy Manual of Operating Procedures issued for the leviable year concerned.
- (b) In the event that an Emergency Services Levy Assessment Profile Return Form is not delivered by 1 September of the leviable year concerned, **FESA will estimate** the ESL payable for land that is located within the LG area concerned. This ESL billing estimate will determine quarterly instalment amounts under clause 5(a)(i) or the single payment amount under clause 5(a)(ii) and any variation between the LG assessment and the FESA estimate will be adjusted in the next instalment for a LG paying quarterly instalments under clause 5(a)(i) or as a special adjustment (invoice for increase or refund for reduction, as the case may be) for a LG making a single payment under clause 5(a)(ii).

- (c) Following the completion of each and every levy year to which this Agreement relates, and prior to 31 July next, the LG must duly complete and provide to FESA an ADVICE OF EMERGENCY SERVICES LEVY ADJUSTMENT ("ADVICE"), in the form of Annexure "A" hereto, containing full written details of any adjustments made or required to be made to any of the figures previously supplied to FESA by the LG, under the provisions of this ESL agreement, to ensure that payments due under this Agreement can be accurately calculated in accordance with clauses 5(d) and 5(e).
 - (d) Where any adjustments have been made to any of the figures previously supplied to FESA by the LG under the provisions of this ESL agreement and full written details of those adjustments have been supplied to FESA under clause 6(c), by a LG making payments in accordance with clause 5(a)(i):
 - (i) on or before 31 May, then, if requested by the LG, the June instalment of that levy year will be increased or reduced (as may be appropriate) by the full nett amount of any adjustments referred to in the ADVICE provided by the LG under clause 6(c); or
 - (ii) on or before 31 July, then the September instalment of the next levy year will be increased or reduced (as may be appropriate) by the full nett amount of any adjustments referred to in the ADVICE provided by the LG under clause 6(c); or
 - (iii) after 31 July, the next available levy instalment will be increased or reduced (as may be appropriate) by the full nett amount of any adjustments referred to in the ADVICE provided by the LG under clause 6(c).
 - (e) Where the LG with the prior written consent of FESA pays to FESA the Total ESL for the current levy year by one single instalment under clause 5(a)(ii), the provisions of clauses 5(b), 5(c), and 6(d)(i) shall not apply. If 6(d)(iii) applies the LG must pay to FESA the full amount of any adjustment due and owing to FESA contemporaneously with its provision of the ADVICE, or FESA must refund to LG the full amount of any overpayment by LG within 21 days of receipt of the ADVICE.
7. FESA shall pay to the LG the fees determined by the Minister from time to time under section 36W of the FESA Act for the LG's assessment, collection and recovery of the levy and levy interest in each levy year, not later than 31 October in the levy year.

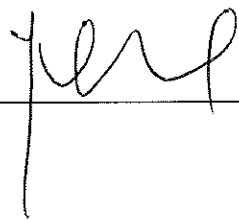

8. (a) EXCEPT as expressly provided in this ESL agreement, FESA shall not be liable or obliged to pay or reimburse the LG for any loss, costs, fees, charges, duties, expenses or liabilities whatsoever in respect of or arising out of or related to the assessment, collection and recovery of the levy or levy interest or the performance of the LG's obligations under this ESL agreement or the FESA Act.
- (b) The LG must pay to FESA in full all monies payable by the LG to FESA under this ESL agreement on the due dates for payment thereof notwithstanding that the LG has failed or been unable to collect, recover or receive any of those monies from the person or persons liable for payment thereof for whatever reason or cause.
9. (a) If the LG commits a breach or default of any provision of this ESL agreement or the FESA Act which is capable of being remedied by subsequent performance, FESA may, without prejudice to any right of action or remedy which has accrued or may accrue in favour of either party, by notice in writing to the LG specify the breach or default and require the LG within a reasonable time specified in the notice to remedy the breach or default.
- (b) FESA may, by notice in writing to the LG, immediately terminate this ESL agreement in whole or in part, but without prejudice to any right of action or remedy which has accrued or may accrue in favour of either party where the:-
 - (i) LG is in breach or default of a material or essential term of this ESL agreement, whether or not FESA has given notice under paragraph (a) herein in relation to that breach or default;
 - (ii) LG has failed to comply with a notice under paragraph (a) of this clause;
 - (iii) LG commits a breach or default under this ESL agreement or the FESA Act which is not capable of being remedied, whether or not FESA has given notice under paragraph (a) in relation to that breach or default; or
 - (iv) Council of the LG is suspended or dismissed under Part 8 of the Local Government Act 1995.
10. The provisions of this Agreement may only be changed by written agreement between the parties.
11. FESA and the LG shall also observe, perform and comply with the Additional Clauses (if any) contained in Item 4 of the Schedule hereto.

In witness whereof the parties have executed this ESL agreement on the day and year first hereinbefore written.
