

Shire of
Plantagenet

Mount Barker • Kendenup • Narrikup
Porongurup • Rocky Gully

ORDINARY MINUTES

**An Ordinary Meeting of Council was held at the
Shire of Plantagenet Council Chambers, Mount Barker
at 5:00pm on Tuesday 17 December 2024**

Julian Murphy
CHIEF EXECUTIVE OFFICER

Resolution numbers: 0114/24 to 124/24

Please Note: Council Meetings are recorded for accuracy of minute taking.

13	CLOSURE OF MEETING	39

1 DECLARATION OF OPENING / ANNOUNCEMENT OF VISITORS

5.00pm The Presiding Member declared the meeting open.

The Presiding Member acknowledged the traditional custodians of our area and their continuing connection to the land and community. We pay our respects to all members of the Menang Noongar community and their culture; and to Elders past, present and emerging.

2 RECORD OF ATTENDANCE / APOLOGIES / LEAVE OF ABSENCE (PREVIOUSLY APPROVED)

Members Present:

Cr L Handasyde	President (Presiding Member)
Cr K Clements	Deputy President
Cr B Bell	Councillor
Cr R Brown	Councillor
Cr S Etherington	Councillor
Cr A Fraser	Councillor
Cr J Liebeck	Councillor
Cr J Oldfield	Councillor
Cr W Sheard	Councillor

In Attendance:

Mr Julian Murphy	Chief Executive Officer
Mr Kevin Hemmings	Executive Manager Infrastructure and Assets
Mr André Pinto	Acting Manager Development Services
Ms Nicole Selesnew	Manager Community and Recreation Services
Ms Kylie Caley	Manager Finance
Ms Nolene Wake	Executive Officer
Ms Helen Purves	Executive Officer – Governance
Mr Vince Partridge	ICT Officer

Apologies:

Nil

Members of the Public Present:

There were 12 members of the public present at the meeting.

Previously Approved Leave of Absence:

Nil

Disclaimer:

No responsibility whatsoever is implied or accepted by the Shire of Plantagenet for any act, omission or statement or intimation occurring during Council / Committee meetings or during formal / informal conversations with staff.

The Shire of Plantagenet disclaims any liability for any loss whatsoever and howsoever caused arising out of reliance by any person or legal entity on any such act, omission, or statement of intimation occurring during Council / Committee meetings or discussions. Any person or legal entity who acts or fails to act in reliance upon any statement does so at that person's or legal entity's own risk.

In particular and without derogating in any way from the broad disclaimer above, in any discussion regarding any planning application or application for a licence, any statement or limitation or approval made by a member or officer of the Shire of Plantagenet during the course of any meeting is not intended to be and is not taken as notice of approval from the Shire of Plantagenet. The Shire of Plantagenet warns that anyone who has an application with the Shire of Plantagenet must obtain and should only rely on WRITTEN CONFIRMATION of the outcome of the application, and any conditions attaching to the decision made by the Shire of Plantagenet in respect of the application.'

Please Note: Council Meetings are recorded for accuracy of minute taking.

3 PUBLIC QUESTION TIME

3.1 RESPONSE TO PREVIOUS PUBLIC QUESTIONS TAKEN ON NOTICE

3.1.1 MR MICHAEL THORN REPRESENTING THE FOREST OF THE FALLEN, ASKED THE FOLLOWING QUESTIONS OF COUNCIL.

1. In the Shire's response to questions asked at the last council meeting, it is clear the Shire is relying solely on the TGA as the only authority they refer to in the matters raised. How can the Shire use the TGA as its sole source of information when doubt about its integrity is created by an ongoing 96% funding by the industry it is supposed to be regulating? This imbalance raises concerns about the TGA's independence and ability to prioritise public health over industry interests.

Response

The Shire of Plantagenet will rely on information and advice provided by both the State and Federal Government health authorities including the Australian Government Department of Health and Aged Care including the Therapeutic Goods Administration and the WA Government Department of Health. These Government organisations are the definitive authorities on public health matters in Western Australia.

2. Can the Shire truly and solely rely on the TGA and its press release of the 18 November when evidence from worldwide analysis in independent research proves excessive DNA contamination in the mRNA vaccines in excess of 145 times the TGA legal limit? Where in fact is the misinformation in their claim yet they provide no evidence to back up their claim.

Response

The Shire of Plantagenet will not enter into debate regarding the validity of advice from Government health authorities regarding public health matters.

3. Will the Shire accept that the precautionary principle must apply in matters of public health and therefore support the suspension of the covid vaccine program until the scientific evidence is resolved?

Response

The Shire of Plantagenet will not enter into debate regarding the validity of advice from Government health authorities regarding public health matters.

4. We plead to the Shire requesting they seek their own evidence within the population of the Shire to inform them?

Response

The Shire of Plantagenet recognises the State and Federal Government health authorities including the Australian Government Department of Health and Aged Care including the Therapeutic Goods Administration and the WA Government Department of Health as the definitive authorities on public health matters in Western Australia.

3.1.2 MS SOBRANE SIMCOCK ASKED THE FOLLOWING QUESTIONS OF COUNCIL IN RELATION TO COVID VACCINES.

1. What legal or public health mandate supports the Shire's involvement in promoting Covid 19 vaccination?

Response

The Shire of Plantagenet is committed to working with the WA Department of Health to support public health initiatives when engaged to do so.

2. How does this align with the Shire's core responsibilities to its residents under the Local Government Act?

Response

Local Government Act 1995 is the legislation that governs local governments in Western Australia as determined by the Parliament of Western Australia. Local Governments work with the laws of Western Australia and any suggestion that the Shire of Plantagenet would not comply with directives from the Government of Western Australia, or the rule of law is unrealistic and unreasonable.

3.2 PUBLIC QUESTION TIME - SECTION 5.24 LOCAL GOVERNMENT ACT 1995

3.2.1 MS TINA JOHNSON ASKED THE FOLLOWING QUESTIONS OF COUNCIL IN RELATION TO ITEM 9.1.1 LOT &01 (33) WARBURTON ROAD, MOUNT BARKER – CHILD CARE PREMISES.

1. Can the Shire President or CEO please explain why several sitting councillors may not have been aware until very recently of Gowrie's development application and the list of conditions enforced after what seems to be the undertaking of extensive assessments, when the matter of Gowrie establishing a reputable child care centre in Mount Barker has been known to the Shire since 2021, and more recently since 2023? The state of childcare in Australia has been described by all levels of Government as being at crisis point and this has been felt in Plantagenet for many years. The Shire President or the CEO may want to expand on why council hasn't been asked to address the matter by the Shire CEO with some urgency considering the significant investment Gowrie has already made, and is expecting to continue to make, in our community based on previous in-principal approvals.
2. It is clear to many members of the public, that the Shire and CEO are placing expensive, excessive and onerous conditions on Gowrie WA's application to open a much-needed child care centre in our town, with those conditions and expectations not being applied fairly and equitably to other similar businesses that attract vehicles and pedestrians.

Can the Shire President or CEO please provide the rationale to ensure pedestrian safety by instructing Gowrie WA to install a traffic calming device in a driveway of only 40m in total length (before the 90 degree turn in to a very wide carpark), when the Shire's own CRC building, which houses a similar business to Gowrie's has over 210m of driveway, with two straight sections of 77m, with no such devices fitted?

This is similar to the IGA carpark where the 150m long driveway has its first calming device at 88.9m, some 60 m past the busy entry to the IGA.

3. Can the Shire President or CEO please provide evidence that the same conditions that are being applied to Gowrie WA were applied to the Child Care Centre that was opened in the Shire building containing the CRC and Library at the beginning of 2024? Several months after the Local Planning Policy No. 4 – Child Care Premises & Family Day Care was introduced by the Shire in November 2023.

3.2.2 MS MADDISON PATERSON ASKED THE FOLLOWING QUESTIONS OF COUNCIL IN RELATION TO ITEM 9.1.1 LOT &01 (33) Warburton Road, Mount Barker – Child Care Premises.

1. Can the Shire President or CEO please provide the evidence that states a Shire condition (number 17) of a maximum of 15 staff are to be onsite at any one time supersedes the requirements set by the Education and Care Regulatory Unit (ECRU) on the number of staff required to meet regulated child to staff ratios?
2. It seems that a lot of conditions are to the satisfaction of the Shire and although Gowrie WA has undertaken extensive assessments as part of their development approval, the conditions ask for identifying all receivers of noise, calculations and maps, and noise contouring. Can the Shire President or CEO please explain whether the same conditions have been applied to all other establishments in town where noise is generated, and what happens if the results of any mapping and calculations are not to the satisfaction of the Shire, and why is there a need to a noise management plan if the environment acoustic assessment is approved as compliant?
3. Can the Shire President or CEO please provide the rationale of instructing Gowrie WA to upgrade the waste treatment system considering that 71 of the maximum 86 persons (as stated in the proposal) will be children, of which a large portion will be in nappies. It would be accurate to calculate that the waste produced by 71 children is considerably less than the 83 person capacity that was approved for the previous owner as per the Shire Minutes dated 6 November 2011.

4 PETITIONS / DEPUTATIONS / PRESENTATIONS

Nil

5 DISCLOSURE OF INTEREST

Part 5 Division 6 Local Government Act 1995

Cr S Etherington

Item: 9.1.1.

Type: Impartiality pursuant to Schedule 1, Clause 22 of the Local Government (Model Code of Conduct) Regulations 2021.

Nature: President of Not for Profit – Empowering Plantagenet Seniors (EPS)

Extent: Gowrie made a donation of chairs to EPS.
Will be staying / voting.

Cr J Oldfield

Item: 9.1.1.

Type: Proximity pursuant to Section 5.60B of the Local Government Act 1995.

Nature: Owner of property at 462 Mitchell Street which adjoins the property in the Agenda item.

Extent: Will be leaving the meeting.

Cr J Oldfield

Item: 9.3.1.

Type: Financial pursuant to Section 5.60A of the Local Government Act 1995.

Nature: My business Oldfield Contracting has received a payment for gravel in the November List of accounts.

Extent: Will be leaving the meeting.

6 APPLICATIONS FOR LEAVE OF ABSENCE

Section 5.25 Local Government Act 1995

7 CONFIRMATION OF MINUTES

7.1 ORDINARY MINUTES OF COUNCIL HELD 26 NOVEMBER 2024

Moved Cr J Oldfield, seconded Cr J Liebeck:

That the Minutes of the Ordinary Meeting of the Shire of Plantagenet, held on 26 November 2024 as circulated, be taken as read and adopted as a correct record.

CARRIED (9/0)

NO. 114/24

**For: Crs Handasyde, Clements, Bell, Brown, Etherington,
Fraser, Liebeck, Oldfield and Sheard
Against: Nil**

8 ANNOUNCEMENTS BY PRESIDING MEMBER WITHOUT DISCUSSION

The Presiding Member noted his best wishes for a Merry Christmas and great 2025 to the community of Plantagenet.

9 REPORTS OF COMMITTEES AND OFFICERS

9.1 DEVELOPMENT AND REGULATORY SERVICES REPORTS

Cr S Etherington

Item: 9.1.1.

Type: Impartiality pursuant to Schedule 1, Clause 22 of the Local Government (Model Code of Conduct) Regulations 2021.

Nature: President of Not for Profit – Empowering Plantagenet Seniors (EPS)

Extent: Gowrie made a donation of chairs to EPS.
Will be staying / voting.

Cr J Oldfield

Item: 9.1.1.

Type: Proximity pursuant to Section 5.60B of the Local Government Act 1995.

Nature: Owner of property at 462 Mitchell Street which adjoins the property in the Agenda item.

Extent: Will be leaving the meeting.

5.12pm Cr Oldfield left the meeting.

9.1.1 LOT 701 (33) Warburton Road, Mount Barker – Child Care Premises

File Ref: N65082

Attachment: [Applicant's Development Application Report](#)
[Marked Up Site Plan](#)
[Schedule of Submissions & Responses](#)
[Gowrie Early Learning Floorplan](#)

Responsible Officer: Andre Pinto – Executive Manager Development and Regulatory Services

Author: Jayden Pope – Senior Town Planner (Altus Planning)

Proprietor/Applicant: The Gowrie (WA) Inc / Harley Dykstra

Proposed Meeting Date: 17 December 2024

This report was withdrawn by the CEO.

5.13pm Cr Oldfield returned to the meeting.

9.2 INFRASTRUCTURE AND ASSETS REPORTS

9.2.1 PARKING RESTRICTIONS – MEAD STREET

File Ref:	N65099
Attachment:	<u>Site Map Showing Parking Restrictions</u>
Responsible Officer:	Kevin Hemmings Executive Manager Infrastructure and Assets
Author:	Amy Chadbourne Senior Administration Infrastructure and Assets
Proposed Meeting Date:	17 December 2024

PURPOSE

The purpose of this report is to assign parking restrictions to the roadside and verge on the south side of Mead Street.

BACKGROUND

During the start of the 2023/2024 swimming pool season, No Parking on Verge signs were installed along the south side of Mead Street as a deterrent to cars parking on the verge and roadside opposite to the entry. The signs were installed in response to concern from stakeholders for children running across the road to the pool entrance.

Following a Forum report in January 2024, a report was presented to Council on 27 February 2024 where parking time restrictions were approved for the Mead Street pull-in parking bay adjacent to the entrance of the pool. Signs were installed shortly after. See diagram below.

A report was presented to the Council Forum held on 10 December 2024. The report highlighted the lack of success of the No Parking on Verge signs on the south side of Mead Street. Pool users ignore the signs and continue to park on the verge and the roadside and then cross the road to access the pool.

EXTERNAL CONSULTATION

Consultation has taken place with swimming pool staff.

STATUTORY ENVIRONMENT

Local Government Act 1995

Shire of Plantagenet Parking and Parking Facilities Local Law 2008, Part 2 Clause 2.6 Powers of Local Government

'The local government may, by resolution, prohibit or regulate by signs or otherwise, the stopping or parking of any vehicle or any class of vehicles in any part of the parking region but must do so consistently within the provisions of this local law.'

POLICY IMPLICATIONS

Policy implications do not apply for this report and it is the opinion of the author that policy development is not required.

FINANCIAL IMPLICATIONS

The costs associated with removing existing signs and installing new ones will come from the relevant road maintenance budget.

ASSET MANAGEMENT IMPLICATIONS

There are no asset management implications as no assets are being created or acquired.

STRATEGIC IMPLICATIONS

The Shire of Plantagenet Corporate Business Plan 2022/23 – 2025/26 provides:

At Outcome 2 Environment (natural and built) the following:

Strategy 2.1.1:

'Maintain and further develop Shire roads, drainage and pathways at appropriate standards.'

Accordingly, the recommended outcome for this report aligns with the Corporate Business Plan.

RISK MITIGATION IMPLICATIONS

Risk	Likelihood	Consequence	Risk Analysis	Mitigation
Service interruption, financial and reputational	Possible	Moderate	Moderate	Council approve No Parking signs for Mead Street roadside and verge

STRATEGIC RISK IMPLICATIONS

The Shire's Strategic Risk Register (Asset Sustainability Practices) incorporates a key control for a routine maintenance schedule. The control for both these items is labelled 'adequate' and the Executive Manager Infrastructure and Assets is listed as being responsible.

REGIONAL IMPLICATIONS

There are no regional implications for this report.

OFFICER COMMENT

As highlighted in the report to Council of 27 February 2024, concern has been expressed by pool staff and pool users for the safety of pedestrians crossing from parked cars on the south side of Mead Street to the pool entry gate.

To ensure there will be sufficient parking for all pool users in busy times, a gravel-based overflow car park will be installed at Apex Park on the north side of the pool. This will be a makeshift installation until funding is acquired for the full redevelopment of the pool site which will incorporate formalisation of the car park.

The No Parking on Verge signs will be installed following the completion of the overflow car park. See Attachment One for the sign placement on the south side of Mead Street.

VOTING REQUIREMENTS

Simple Majority

OFFICER RECOMMENDATION/COUNCIL DECISION

Moved Cr B Bell, seconded Cr K Clements:

That Council approves:

- 1. In accordance with Part 2, Clause 2.6 of the Shire of Plantagenet Parking and Parking Facilities Local Law 2008, parking restrictions on Mead Street as shown on the proposed plan; and**
- 2. The new parking restrictions to be advertised locally and at the site to notify users of the Mount Barker Memorial Swimming Pool.**

CARRIED (9/0)

NO. 115/24

**For: Crs Handasyde, Clements, Bell, Brown, Etherington,
Fraser, Liebeck, Oldfield and Sheard
Against: Nil**

9.3 CORPORATE AND COMMUNITY SERVICES REPORTS

Cr J Oldfield

Item: 9.3.1.

Type: Financial pursuant to Section 5.60A of the Local Government Act 1995.

Nature: My business Oldfield Contracting has received a payment for gravel in the November List of accounts.

Extent: Will be leaving the meeting.

5.15pm Cr Oldfield left the meeting.

9.3.1 LIST OF ACCOUNTS – NOVEMBER 2024

File Ref: N65108

Attachment: List of Accounts – November 2024

Responsible Officer: Anthony Middleton
Executive Manager – Corporate & Community

Author: Kylie Caley
Manager of Finance

Proposed Meeting Date: 17 December 2024

PURPOSE

The purpose of this report is to present the list of payments that were made during the month of November 2024.

EXTERNAL CONSULTATION

No external consultation has occurred in relation to this report.

STATUTORY ENVIRONMENT

This information is provided to Council monthly in accordance with provisions of the *Local Government Act 1995* and *Local Government (Financial Management) Regulations 1996*.

Regulation 12(1)(a) of the *Local Government (Financial Management) Regulations 1996* provides that payment may only be made from the municipal fund or trust fund if the Local Government has delegated the function to the Chief Executive Officer.

Regulation 13 of the *Local Government (Financial Management) Regulations 1996* provides that if the function of authorising payments is delegated to the Chief Executive Officer, then a list of payments is to be presented to the Council at the next ordinary meeting and recorded in the minutes.

Regulation 13A of the *Local Government (Financial Management) Regulations 1996* provides that a list of payments must be prepared and presented to Council each month for all credit, debit, or purchasing cards utilised by authorised employees during the month.

POLICY IMPLICATIONS

Council Policy F/FM/17 – Purchasing Policy

Council Policy F/FM/18 – Corporate Credit Card Policy

FINANCIAL IMPLICATIONS

Expenditure is in accordance with the 2024/2025 Annual Budget.

BUDGET IMPLICATIONS

There are no budget implications for this report.

LEGAL IMPLICATIONS

There are no legal implications for this report.

ASSET MANAGEMENT IMPLICATIONS

There are no asset management implications as no assets are being created or acquired.

STRATEGIC IMPLICATIONS

There are no strategic implications for this report.

RISK MITIGATION IMPLICATIONS

Risk	Likelihood	Consequence	Risk Analysis	Mitigation
Reputational That Council does not receive the list of payments	Rare	Insignificant	Low	That Council receives the list of payments as required by legislation.

STRATEGIC RISK IMPLICATIONS

There are no strategic risk implications for this report.

REGIONAL IMPLICATIONS

There are no regional implications for this report.

OFFICER COMMENT

Accountability in local government encompasses various dimensions, as councils strive to fulfill a range of social, political, and financial objectives for the community's benefit.

These accountability principles are rooted in strong financial integrity, adherence to conflict of interest standards, and the expectation that local governments are fully responsible for community resources.

Council has delegated authority to the Chief Executive Officer to make payments from the Shire's Municipal and Trust funds as required.

All payments are independently evaluated by the Manager of Finance to verify that expenditures are for the Shire of Plantagenet and comply with Council policies, procedures, the *Local Government Act 1995*, and relevant regulations. The review also ensures there is no misuse of corporate credit or fuel purchase cards.

VOTING REQUIREMENTS

Simple Majority

OFFICER RECOMMENDATION/COUNCIL DECISION

Moved Cr B Bell, seconded Cr J Liebeck:

That Council receives the list of accounts paid during the month of November 2024 as per the attached Schedule of Payments, and as summarised below:

Municipal Account (inclusive of credit card and fuel card purchases

EFT Payments	EFT6805 – EFT6971	\$786,847.55
Direct Debit Payments		\$137,377.63
EFT Payroll Payments		\$390,680.06
Total Municipal Account Payments		\$1,314,905.24

CARRIED (8/0)

NO. 116/24

**For: Crs Handasyde, Clements, Bell, Brown, Etherington,
Fraser, Liebeck and Sheard
Against: Nil**

5.16pm Cr Oldfield returned to the meeting.

9.3.2 MONTHLY FINANCIAL REPORT – NOVEMBER 2024

File Ref:	N65112
Responsible Officer:	Anthony Middleton Executive Manager – Corporate & Community
Author:	Kylie Caley Manager of Finance
Proposed Meeting Date:	17 December 2024

PURPOSE

The purpose of this report is to provide Council with the monthly financial report for the month ending 30 November 2024.

BACKGROUND

The *Local Government (Financial Management) Regulations 1996*, regulation 34 states that a local government must prepare each month a statement of financial activity reporting on the revenue and expenditure, as set out in the annual budget.

Variances between budgeted and actual expenditure including the required material variances (10% with a minimum value of \$20,000) are included in the variance report.

EXTERNAL CONSULTATION

Nil

STATUTORY ENVIRONMENT

s.6.4 Local Government Act 1995, Part 6 - Financial Management
r. 34 Local Government (Financial Management) Regulations 1996
r. 35 Local Government (Financial Management) Regulations 1996

POLICY IMPLICATIONS

There are no policy implications for this report.

FINANCIAL IMPLICATIONS

This item reports on the current financial position of the Shire. The recommendation does not in itself have a financial implication.

BUDGET IMPLICATIONS

There are no budget implications for this report.

LEGAL IMPLICATIONS

There are no legal implications for this report.

ASSET MANAGEMENT IMPLICATIONS

There are no asset management implications as no assets are being created or acquired.

STRATEGIC IMPLICATIONS

The Shire of Plantagenet Corporate Business Plan 2022/23 – 2025/26 provides:

At *Outcome 4 Performance & Leadership* the following Strategies:

Strategy 4.1.3:

‘A Shire that is open and transparent with its community.’

Accordingly, the recommended outcome for this report aligns with the Corporate Business Plan.

STRATEGIC RISK IMPLICATIONS

Risk	Likelihood	Consequence	Risk Analysis	Mitigation
<i>Reputational</i> That Council does not receive the financial activity statements as required by S6.4 of the LG Act 1995	<i>Rare</i>	<i>Insignificant</i>	<i>Low</i>	That Council receives the financial activity statements as required by legislation.

REGIONAL IMPLICATIONS

There are no regional implications for this report.

OFFICER COMMENT

The attached Statement of Financial Activity for the period 1 July 2023 to 30 November 2024 represent five (5) months, or 42% of the year. The following items are worthy of noting:

- Closing surplus position of \$9.5m;
- Operating results:
 - 85% of budgeted operating revenue has been received; and
 - 16% of budgeted operating expenditure spent (no depreciation has been raised until after the prior year's audit is finalised);
- Capital expenditure achieved 7% of budgeted projects.
- Cash holdings of \$14.8m of which \$6.9m is held in cash backed reserve accounts;
- Rates debtors outstanding equate to 23.83% of total rates raised for 2024/2025; and

- Page 10 of the statements detail major variations from year to date (amended) budgets.

VOTING REQUIREMENTS

Simple Majority

OFFICER RECOMMENDATION/COUNCIL DECISION

Moved Cr B Bell, seconded Cr J Liebeck:

That Council accepts the Statement of Financial Activity for the month ending 30 November 2024 as proposed, along with notes of any material variances.

CARRIED (9/0)

NO. 117/24

**For: Crs Handasyde, Clements, Bell, Brown, Etherington,
Fraser, Liebeck, Oldfield and Sheard
Against: Nil**

**9.3.3 MOUNT BARKER SWIMMING POOL REDEVELOPMENT – REVISED
MASTER PLAN FOR STAGE 1B AND STAGE 2**

File Ref:	N65069
Attachment:	<u>Mount Barker Swimming Pool – Revised Master Plan & Preliminary Design 2024</u>
Responsible Officer:	Anthony Middleton Executive Manager Corporate and Community Services
Author:	Nicole Selesnew Manager Community and Recreation Services
Proposed Meeting Date:	17 December 2024

PURPOSE

The purpose of this report is to seek the Council's endorsement of a revised Master Plan for Stage 1B and Stage 2 – Mount Barker Swimming Pool redevelopment.

BACKGROUND

The Council endorsed a concept plan for Stage 1B of the Mount Barker Swimming Pool redevelopment at its ordinary meeting held on 19 December 2023. The plan comprised a new Splash Pool, Learn to Swim Pool, plant and filtration system and heating.

At that meeting, the Council also resolved to progress to the detailed design plan phase for Stage 1B, including any refurbishment work required for the 50m pool. Engineers advised that further investigation was required to determine the condition of the 50m pool bowl before a refurbishment plan could be prepared.

The 'Mount Barker Pool – Forensic Investigation of 50m Outdoor Pool' report, providing a detailed condition assessment of the pool bowl, was received by the Council at its ordinary meeting held on 24 September 2024. The report states that the pool floor is in poor condition and has approximately seven years of serviceable life, if left in its current condition.

The report detailed several options to progress which the Council reviewed. The Council resolved to plan for the replacement of the 50m pool and to initiate the detailed design process for Stage 1B and Stage 2, with Stage 2 comprising a new 50m pool.

A revised Master Plan and Preliminary Design Plan have been prepared for Stage 1B and Stage 2 (attached). These documents will guide the preparation of detailed design plans, once endorsed.

EXTERNAL CONSULTATION

Consultation has occurred with an aquatic and civil engineer representing Built Environment Collective Pty Ltd (BEC). BEC subcontracted an architect to prepare the attached Master Plan.

STATUTORY ENVIRONMENT

The Health (Aquatic Facilities) Regulations 2007 and Code of Practice for the Design, Construction, Operation, Management and Maintenance of Aquatic Facilities 2020 apply.

The Department of Health administers the Regulations and Code. As the pool development plans move from concept status to detailed design status, the Department becomes involved to ensure the design will meet requirements for public safety and water quality.

POLICY IMPLICATIONS

Policy implications do not apply for this report and it is the opinion of the author that policy development is not required.

FINANCIAL IMPLICATIONS

The detailed design planning process includes a review of the plans by a Quantity Surveyor to provide an accurate cost for construction. This will give the Council a clear indication of the total redevelopment cost, along with a breakdown of costs for different options for the redevelopment.

The potential to stage the redevelopment has been discussed with an Aquatic Engineering and Design firm. Preliminary advice is that separating Stage 1B and Stage 2 will add an estimated 25 – 30% to construction costs and create construction challenges, specifically:

- Temporary filtration and chemical dosing systems will be required for the 50m pool while the demolition of the existing Plant Room and construction of the new Plant Room is underway;
- A temporary balance tank for the 50m pool, along with temporary pipework to the Plant Room, will be required until the redevelopment is complete;
- Access to Stage 2 for demolition and construction activities (if Stage 1B is complete) will likely require a temporary road through Apex Park, cross-over to Albany Highway and traffic management on Albany Highway during busy construction times such as demolition and concreting;
- A risk of damage to existing pool infrastructure while constructing new components; and
- Safety considerations with the public located in close proximity to a construction site.

If the project is staged, there is a likelihood that the pool will be closed to the public over multiple swimming seasons.

The recommendation from pool designers and builders is to progress as one construction project. If this occurs, the timeframe for the redevelopment will be heavily dependent on the Shire's ability to raise \$8 - \$10million to build Stage 1B and Stage 2.

BUDGET IMPLICATIONS

There are no budget implications for this report.

LEGAL IMPLICATIONS

There are no legal implications for this report.

ASSET MANAGEMENT IMPLICATIONS

The remaining serviceable life of the 50m pool shell is predicted to be seven years if no preventative measures are taken.

During the next five years the cost of maintaining the pool will increase due to water leakage and increased chemical costs, caused by diminishing water quality. The pool does not meet the requirements detailed in the Code and non-compliance will continue to decline.

Delayed action may lead to catastrophic failure and / or complete closure of the 50m pool.

A Plant Room Condition Report completed by Shenton Aquatics approximately seven years ago identified several critical items of plant that had reached the age and level of condition where they are beyond repair and require replacement. The report concluded that an upgrade of the entire plant system is required, including the building that houses the plant room.

Facility assessments by Shenton Aquatics, GHD, Norman Disney Young and BEC have all identified that the pool does not meet the Department of Health standards and both water bodies are non-compliant.

Substantial capital works are required to address the ageing pool infrastructure. In order to progress a redevelopment, detailed design plans and costings will be required.

The attached Master Plan and Preliminary Design Plan is based on maximising the use of all aquatic spaces, streamlining construction costs where possible and providing the appropriate infrastructure to meet community needs for the next 60+ year lifespan of the facility.

STRATEGIC IMPLICATIONS

The Shire of Plantagenet Corporate Business Plan 2022/23 – 2025/26 provides:

At Outcome 1.3 Health and Wellbeing the following strategy:

Strategy 1.3.2:

'A healthy and active community'

At Outcome 1.4 *Support for community groups and volunteers* the following strategy:

Strategy 1.4.3:

‘Ensure Council buildings, facilities and public amenities are provided and maintained to an appropriate standard’.

At a review of *Major Projects*, recognition of Stage 1B – Mount Barker Swimming Pool is identified as a project for attention.

Accordingly, the recommended outcome for this report aligns with the Corporate Business Plan.

RISK MITIGATION IMPLICATIONS

Risk	Likelihood	Consequence	Risk Analysis	Mitigation
<i>Financial and Operational</i> That the existing pool plant and operating system fails during the pool season	<i>Likely</i>	<i>Major</i>	<i>High</i>	<i>Plan and progress the replacement of the pool plant and operating system, ensuring compliance with Health requirements.</i>
<i>Financial and Operational</i> Failure of the 50m pool bowl structure	<i>Unlikely</i>	<i>Major</i>	<i>Moderate</i>	<i>Plan and progress the replacement of the pool.</i>
Opportunity: <ul style="list-style-type: none"> To undertake a pool refurbishment that will meet the needs of the Plantagenet community for the next 60+ years, maximises patronage, streamlines operating costs and complies with health and safety requirements. 				

STRATEGIC RISK IMPLICATIONS

The condition of the 50m swimming pool and associated infrastructure is aged and failing. Reports identify that items in the plant room are beyond repair and require replacement. The Council has considered options for refurbishing the 50m pool but decided that replacement was the preferred option.

The previously adopted pool concept plan was based on the construction of Stage 1B only. A later Council decision to progress Stage 1B and Stage 2 created an opportunity to re-draft the concept plans, opening up the usable space across the

facility, relocating plant and equipment to streamline construction and operating costs, realign the 50m pool to better suit the site and plan for community needs for the 60+yr lifespan of a new facility.

The attached Master Plan and Preliminary Design Plan capture these opportunities.

Completing the required upgrades in two stages presents significant risks to infrastructure, costs and facility closures as outlined in the Financial Implications section of this report. How the project will progress is dependent on the ability to raise sufficient funding.

REGIONAL IMPLICATIONS

The Mount Barker Memorial Swimming Pool is the only 50m pool in the lower Great Southern area, with Kojonup and Katanning pools the next closest 50m water bodies.

The pool is regularly attended by Albany and Denmark swimmers, with the Denmark Primary School hosting their inter-school carnival at Mount Barker Pool in 2024.

The pool draws regular users from Cranbrook and Frankland.

The attached Master Plan includes features to increase 'all day' visitation of the pool, such as dry recreation and BBQ areas, improved water heating and water features to entertain / service children through to adults.

OFFICER COMMENT

A revised Master Plan and Preliminary Design Plan have been prepared for Stage 1B and Stage 2 (attached).

There are several proposed changes to the Master Plan from the previously adopted concept plan. These are detailed in Table One.

Table One: Mount Barker Swimming Pool – Concept Plan and Master Plan Comparison

Concept Plan – November 2023	Master Plan – November 2024	Reason for Change
	50m pool realigned parallel to the Changeroom / Kiosk building and Mead Street	<ul style="list-style-type: none"> Improves Lifeguard views of the north eastern and south western corners of the pool from the kiosk area; Increases the distance between the 50m pool and Learn to Swim pool to improve safety and people movements through this space; and Enhances the use of space at the western end of the 50m pool.

Concept Plan – November 2023	Master Plan – November 2024	Reason for Change
Splash Pool and Learn to Swim pool orientation east – west	Splash Pool and Learn to Swim Pool orientation north – south	<ul style="list-style-type: none"> Increases the distance between the 50m pool and Learn to Swim pool to improve safety and people movements through this space; Allows for underground Balance Tanks adjacent to the 50m Pool and Learn to Swim Pools, rather than located separately which is currently the case. The new Balance Tank location provides the following advantages: <ul style="list-style-type: none"> cheaper construction as the excavation works are integrated into the pool bowl excavation and the Balance Tank shares a concrete wall with the pool; Balance Tank will have the same lifespan as the pool as it will be constructed from the same materials; underground Balance Tanks retain water heat better than above ground tanks, providing heating cost savings; and minimises the loss of water by evaporation and the amount of impurities (leaves, blossom, rain etc) entering the Balance Tank, reducing the amount of chemical dosage required.
Plant Room located north of the Learn to Swim Pool	Realigned Plant Room and Chemical Store	<ul style="list-style-type: none"> Opens up the space available for the Plant Room and Chemical Storage area; and Retains vehicle access to the area for deliveries.
Utilising Existing Tanks as Backwash Tanks	New Backwash Tank and Splash Pool Balance Tank located underground in the Plant Room (also shown on the Preliminary Design drawing)	<ul style="list-style-type: none"> One Backwash Tank required for all water filters; Aligning both Tanks next to each other will provide cost savings in terms of excavation and concrete; and Splash Pool Balance Tank is better located in the Plant Room as it will require regular topping up due to the high water loss from splashing and evaporation. The water lines will be located in the Plant Room.

Concept Plan – November 2023	Master Plan – November 2024	Reason for Change
Equipment Store located at the northern end of the Pool	Equipment Store located at the south western corner of the site (adjacent to the Changeroom / Kiosk building)	<ul style="list-style-type: none"> Utilises the space in this corner of the property and ensures there's no surveillance issues in this area; Increases the storage area available for the Pool, VacSwim and Swim Club, future proofing storage needs for the 60+yrs of facility life; and Will provide a windbreak from south-westerly winds.
Shade Structures designed to hold solar panels	Shade Structures spread across the site	<ul style="list-style-type: none"> Restrictions around solar panel placement limits the opportunity to install panels on shade structures. Existing buildings have adequate roof area; Reduces the need to 'over-engineer' shade structures to hold solar panels; Increases the amount of shade available to patrons and encourages them to use all areas in the pool site; Shade structures on the western end of the pool will have a dual-use during swimming carnivals, providing a sheltered space for time keepers, marshalls etc (minimising the need for temporary marquees); and Roof area of the Plant Room and Chemical Store will be designed to hold solar panels from the outset, minimising the need to run services and water lines across to shade structures.
Carparking area along the eastern side of the site	<p>Carparking area extended to the north eastern end of the site</p> <p>'One Way Exit Turnstile' to the northern most parking area</p>	<ul style="list-style-type: none"> Additional parking bays to accommodate an increase in patrons; Turnstile to allow for an easy exit from the pool to the north eastern carpark at the end of a pool visit; and Turnstile reduces the movement of people by the Kiosk / Office area, improving visibility for Lifeguards if based in the kiosk.
	500mm deep ledge incorporated into the Learn to Swim Pool design (as shown on the Preliminary Design drawing)	<ul style="list-style-type: none"> Provides an area for people to balance while doing exercises – the ledge is a common feature in hydrotherapy pools; and Provides a seating area for use during lessons avoiding wind-chill when wet

Concept Plan – November 2023	Master Plan – November 2024	Reason for Change
		children sit on the outside edge of the pool during lessons.
	<p>*Option:</p> <p>Swim Wall in the 50m pool</p> <p>*Recommend incorporating into the construction tender documents as an Option, so Council can consider cost / benefit and make a decision</p>	<ul style="list-style-type: none"> • Moveable aquatic wall system that enables a 50m pool to be divided into different segments, such as two 25m pools, to expand the programmable space; • Increased patronage and program flexibility in the 50m pool (ie lap swimmers can use the pool while swimming lessons are occurring, lap swimmers or water walking can occur at the same time as after school casual use etc.); • Expands the options for lap swimmers and Swim Club activities, eg 50m and 25m lap swims offered concurrently; • No electronics or outside mechanics – system is operated by air and water; and • Highly dependent on cost.
	<p>*Optional:</p> <p>Increase 50m pool from 6 to 8 lanes</p> <p>*Recommend incorporating into the construction tender documents as an Option, so Council can consider cost / benefit and make a decision</p>	<ul style="list-style-type: none"> • Caters for pool needs over a 60+yr period; • Enables the pool to host Interschool Carnivals and higher grade swim competitions; and • Highly dependent on cost.
	<p>Future Development:</p> <p>Extending the pool site to the north to increase family areas and create a dry land recreation / play space.</p> <p>Expansion of space to be contained on the existing Pool Lot (the current fence is not the property boundary).</p>	<ul style="list-style-type: none"> • Pool becomes a day destination for users, encouraging people to travel to Mount Barker for extensive stays (ie Cranbrook, Frankland, Tambellup and South Stirlings families); • Allows families to move into a 'dry area' to relax and picnic / host parties and celebrations without the concerns of children in close proximity to water; and • 'Dry play' facilities at the Pool highlighted as a community need in the Pool Community / Stakeholder engagement report (2019).

Concept Plan – November 2023	Master Plan – November 2024	Reason for Change
	Future Development: Reshaping and realigning the tiered seating area at the front of the Changeroom / Kiosk building	<ul style="list-style-type: none"> • Current tiers are steep and people with movement limitations are unable to access them. The height minimises use by families with young children due to trip / fall concerns; • Suggest reshaping the tiers and installing a third step to reduce the height between the tiers, plus increase the depth of the tiers to extend use; and • Improves the alignment of the 50m pool in the site.

Once the Stage 1B and Stage 2 revised Master Plan is adopted, the project will move on to Detailed Design Plans, accurate costings and the production of a Construction Tender document.

VOTING REQUIREMENTS

Simple Majority

OFFICER RECOMMENDATION/COUNCIL DECISION

Moved Cr K Clements, seconded Cr R Brown:

That Council:

1. Endorses the Mount Barker Swimming Pool – Revised Master Plan and Preliminary Design 2024, as proposed.
2. Proceeds to Detailed Design Plans based on the Mount Barker Swimming Pool – Revised Master Plan and Preliminary Design 2024.

9.4 EXECUTIVE SERVICES REPORTS

9.4.1 STRATEGIC COMMUNITY PLAN – MINOR REVIEW

File Ref:	N65077
Attachments:	<u>1. Imagine Plantagenet: Strategic Community Plan 2022/2023 – 2032/2033</u> <u>2. Draft Strategic Community Plan 2025-2035</u>
Responsible Officer:	Julian Murphy Chief Executive Officer
Author:	Anthony Middleton Executive Manager – Corporate & Community Services
Proposed Meeting Date:	17 December 2024

PURPOSE

The purpose of this report is to consider the draft Strategic Community Plan 2025-2035 prior to it being advertised to seek community feedback.

BACKGROUND

The current Shire of Plantagenet Strategic Community Plan, titled 'Imagine Plantagenet' and covering the years 2022/2023 – 2032/2033, was adopted by the Council on 24 May 2022.

A copy of the existing (2022) plan is attached.

EXTERNAL CONSULTATION

This report recommends advertising to invite community feedback on the proposed draft Strategic Community Plan 2025 - 2035.

STATUTORY ENVIRONMENT

Local Government (Administration) Regulations 1996 regulations 19C stipulates the minimum requirements for inclusion in the plan and the process for adoption and modification of a plan.

Whilst relevant legislation only requires a local government to review the current strategic community plan (SCP) for its district at least once every 4 years (due 2026), it is prudent to undertake a minor review in-between times to ensure goals remain relevant and contemporary, particularly in light of a growing population base.

The State Government is currently proposing to amend the legislative requirements for forward planning in local government as part of their Local Government Reform

agenda. The changes to the regulations are currently being developed and the Department's website provides the following information:

'The reforms propose that local governments prepare, adopt and publish a council plan to plan for the future services and facilities that are to be provided by the local government for the district. This is intended to replace the requirement for strategic community plans.'

A summary of this reform proposals are:

- *simplified, short-form council plans that replace strategic community plans and set high-level objectives over an 8-year period*
- *simplified asset management plans to consistently forecast costs of maintaining assets*
- *simplified long-term financial plans that outline long-term financial management and sustainability issues, and any investments and debts.*

Regulations are being developed to ensure the framework meets the needs of the sector and provide for an avenue for local governments to plan for the short, medium and long term.'

POLICY IMPLICATIONS

Policy implications do not apply for this report and it is the opinion of the author that policy development is not required.

FINANCIAL IMPLICATIONS

There are no financial implications for this report.

BUDGET IMPLICATIONS

There are no budget implications for this report.

LEGAL IMPLICATIONS

There are no legal implications for this report.

ASSET MANAGEMENT IMPLICATIONS

There are no asset management implications as no assets are being created or acquired.

STRATEGIC IMPLICATIONS

This item is the first step in establishing a new, albeit minor revision of the existing, strategic direction. The existing Shire of Plantagenet Corporate Business Plan 2022/23 – 2025/26 provides:

At *Outcome 4 Performance & Leadership* the following Strategies:

Strategy 4.1.1:

'A Shire that listens and considers the needs of each community.'

And

Strategy 4.1.3:

‘A Shire that is open and transparent with its community.’

Accordingly, the recommended outcome for this report aligns with the Corporate Business Plan.

REGIONAL IMPLICATIONS

There are no regional implications for this report.

OFFICER COMMENT

Notwithstanding the pending legislative changes in this area, the Strategic Community Plan (SCP) sets the direction for the organisation via the wishes of the community, and subsequently the actions required to achieve these wishes defined in the Corporate Business Plan. As such, it is important that the contents of the plan remain relevant and up to date. Accordingly, this minor review is being undertaken.

A high-level assessment of *Imagine Plantagenet*, the 2022/2023 - 2032/2033 SCP reveals the following framework:

Key Pillar:	Number of Focus Areas	Number of Strategic Priorities
Community	4	13
Environment (Built & Natural)	4	10
Economy	2	5
Performance & Leadership	1	4
Total	11	32

As can be seen above, the SCP is content heavy in the first two key pillars (23 of the 32 strategic priorities) with the third and fourth key pillars being somewhat of an afterthought. The ‘Economy’ key pillar, essential to growth and prosperity, is especially underdone.

The eleven (11) focus areas of *Imagine Plantagenet* are formulated based on “who” a service is for, rather than “why” or “what” service is being delivered. Also, a lot of the terminology used is non-committal. Strategic goals that commence with the words “where possible” need to be amended to be more measurable and actionable.

Lastly, there are some key issues completely missing from the 32 established strategic priorities, for example, housing development and water resource security.

Consequently, a review has been undertaken to fine-tune the intent and structure of *Imagine Plantagenet*. The minor review undertaken has addressed these three

issues identified above to result in a more balanced framework, around which a Corporate Business Plan can be formulated. This will ensure that the next step of preparing the Corporate Business Plan (identifying 4 or 5 actionable tasks to achieve for each strategic priority) is focussed on achieving all of the communities and Council's strategic goals. Numbering has also been added to each key pillar and strategic priority to improve referencing and the allocation of responsible managers.

The review has produced the draft Strategic Community Plan 2025-2035 as attached.

The structure of the attached draft SCP is more balanced and can be summarised as follows:

Key Pillar	Number of Focus Areas	Number of Strategic Priorities
1. Community	3	10
2. Environment	2	8
3. Economy	3	9
4. Leadership	2	7
Totals	10	34

A lot of the changes proposed above are quite subtle yet make an important improvement with a focus on action. For example, terms such as "*where possible...*" have been removed to bolster the intent. Also, rewording a strategic priority from "*Develop and implement policies and initiatives to attract inward migration and investment*" to simply "*Attract inward migration and investment*" has improved the whole document and better demonstrates the commitment to achieve.

Legislation requires that the electors and ratepayers of the district are consulted during the development *or modifications* of a strategic community plan. As such, the following timeline is suggested for this review:

- December Council Meeting - Draft SCP 2025-2035 document 'approve for advertising';
- December 2024 to February 2025 – Draft SCP advertised seeking community feedback; and
- February 2025 Council Meeting - Draft SCP 2025-2035 document and any community feedback considered for final adoption.

A review of the Corporate Business Plan (required to be completed annually) is being undertaken by staff concurrently with SCP review. Also, a Strategic Resource Plan (a single document that incorporates a long-term financial plan, asset management plan and workforce plan) is presently being prepared.

VOTING REQUIREMENTS

Simple Majority

OFFICER RECOMMENDATION/COUNCIL DECISION

Moved Cr K Clements, seconded Cr W Sheard:

That Council approve for advertising, the draft Strategic Community Plan 2025-2035 as proposed.

9.4.2 COUNCIL CHAMBERS AUDIO VISUAL UPGRADE

File Ref:	N65090
Responsible Officer:	Julian Murphy Chief Executive Officer
Author:	Anthony Middleton Executive Manager – Corporate & Community Services
Proposed Meeting Date:	17 December 2024

PURPOSE

The purpose of this report is to consider approving out of budget expenditure for the upgrade of audio-visual capability of the Council Chambers.

BACKGROUND

As of 1 January 2025, band 3 and 4 local government are required to record the audio of its Council meetings and make publicly available on its website for 5 years. The existing microphone system within the Council chambers adequately meets this requirement, however, there is no integration between the microphone system and the very basic video conferencing technology used in the Chamber. In addition to the poor quality currently experienced for video meetings in the Council Chambers, Elected Members attending a meeting electronically may struggle to be picked up by the microphone recording.

To address this disconnect, quotations have been sought for a fully integrated video conferencing system, with appropriate screens for both members of the public and meeting participants.

EXTERNAL CONSULTATION

Quotes have been sourced from external suppliers for appropriate products and system design.

STATUTORY ENVIRONMENT

Local Government (Administration) Regulations 1996 regulations 14I (Local governments to make recordings of council meetings) requires tier 3 and 4 local governments to record the audio of its Council meetings and make publicly available on its web site for a minimum of 5 years.

Section 6.8 of the *Local Government Act 1995* (Expenditure from municipal fund not included in annual budget) states:

- (1) A local government is not to incur expenditure from its municipal fund for an additional purpose except where the expenditure —
 - (a) is incurred in a financial year before the adoption of the annual budget by the local government; or

- (b) is authorised in advance by resolution*; or
- (c) is authorised in advance by the mayor or president in an emergency.

** Absolute majority required.*

POLICY IMPLICATIONS

Policy implications do not apply for this report and it is the opinion of the author that policy development is not required.

FINANCIAL IMPLICATIONS

A fully integrated system, dependant on components chosen, will be a maximum of \$75,000.

BUDGET IMPLICATIONS

There is currently no 2024/2025 budget provision for the purchase of Council Chambers audio-visual equipment upgrade. Whilst the budget can be amended to allow for the purchase during the mid-year budget review, it is also worth noting that the *Computer Software/Hardware Management reserve account* has a balance of \$61,000.

LEGAL IMPLICATIONS

There are no legal implications for this report.

ASSET MANAGEMENT IMPLICATIONS

The purchase of Council Chambers audio-visual equipment upgrade will be added to the asset register and its replacement and upgrade over time will need to be funded. This type of audio/visual equipment would be expected to have a 5–15 year serviceable life.

STRATEGIC IMPLICATIONS

This item is the first step in establishing a new, albeit minor revision of the existing, strategic direction. The existing Shire of Plantagenet Corporate Business Plan 2022/23 – 2025/26 provides:

At *Outcome 4 Performance & Leadership* the following Strategies:

Strategy 4.1.3:

‘A Shire that is open and transparent with its community.’

Accordingly, the recommended outcome for this report aligns with the Corporate Business Plan.

REGIONAL IMPLICATIONS

There are no regional implications for this report.

OFFICER COMMENT

The quotation covers the following major components/features:

- Utilise the existing CCS1000D Discussion system and enhance the operation with a simple to use interface via a Touch Screen;
- Utilise the existing Clock watch timer system;
- Update the audio system for a fully integrated digital signal processor and control systems - with touch screen controller that will control the room, control the existing discussion system and recording;
- Add integrated video conferencing & live streaming with a two-camera system (front and rear);
- 3 input visual systems with systems-controlled switching to vision outputs and live streaming;
- 2 x 75" large screens on the wall (front of the chamber) for display; and
- 15 x 15" screens on the desk for all participants.

As a result of the legislation changes requiring Council meetings to be either video live streamed (band 1 & 2) or audio recorded (band 3 & 4) commencing 1 January 2025, suppliers and installers of audio-visual equipment are very busy and installation timeframes are starting to being delayed by months. As such, it is recommended that this purchase be considered now rather than waiting for the adoption of the mid-year budget review.

VOTING REQUIREMENTS

Absolute Majority

OFFICER RECOMMENDATION/COUNCIL DECISION

Moved Cr B Bell, seconded Cr W Sheard:

That Council approve the Chief Executive Officer to purchase a fully integrated audio-visual system for the Council Chambers, valued at \$75,000, as unbudgeted expenditure in accordance with s6.18 (1)(b) of the Local Government Act 1995.
