

NATIVE FLORA AND VEGETATION COLLECTION

Purpose

To provide clear guidelines for persons seeking to collect native flora and vegetation from roads, other reserves and property under the care, control and management of the Council.

Scope

This policy relates to the commercial and non-commercial collection of native flora and vegetation from all reserves under the care, control and management of the Shire of Plantagenet.

Definitions

Environmentally Sensitive Area is an area that is the subject of a declaration that is in force under section 51B of the Environmental Protection Act 1986.

Flora is any plant (including wildflower, palm, shrub, tree, fern, creeper or vine) which:

- is Native to the State; or
- declared to be flora pursuant to subsection (4) and includes any part of flora and all seeds and spores thereof.

The local government may declare a **Flora Road**; a thoroughfare which has, in the opinion of the local government, high quality roadside vegetation to be a flora road.

Native Vegetation is indigenous aquatic or terrestrial vegetation and includes dead vegetation unless that dead vegetation is of a class declared by regulation to be excluded from this definition but does not include vegetation in a plantation.

The local government may declare a **Special Environmental Area**; a thoroughfare which has protected flora or rare flora, or environmental, aesthetic or cultural significance, to be a special environmental area.

Thoroughfare is a road or other thoroughfare and includes structures or other things appurtenant to the thoroughfare that are within its limits, and nothing is prevented from being a thoroughfare only because it is not open at each end.

Road Reserve is a legally described area within which facilities such as roads, footpaths and associated features may be constructed for public travel.

Reserve is land reserved under the *Land Administration Act 1997* and vested in or placed under the control of a local government.

Council Reserve refers to reserves under the care, control and management of the Shire of Plantagenet.

Policy

1. Collection of Native Flora

Permits for the collection of native flora from Council reserves will only be issued under specific circumstances, outlined in the sections below:

1.1. Non-Commercial Purposes:

The Council may permit the collection of flora for non-commercial purposes (such as research, education, local revegetation or hobby purposes) from Council reserves by operators with a Flora Taking (Other Purposes) Crown Land Licence issued by the Department of Biodiversity, Conservation and Attractions, conditional upon:

- a) the obtaining of a permit from the Council valid for twelve (12) months, expiring 30 June annually; and
- b) the collection of native seeds being only permitted when the seed is to be used for revegetation in another part of the district.

1.2. Commercial Purposes:

The collection of flora (excepting seeds) for commercial purposes is not permitted on Council controlled thoroughfares or road reserves.

The Council may permit the collection of flora for commercial purposes from Council reserves (excluding road reserves) by operators with a Flora Taking (Commercial Purposes) Crown Land Licence issued by the Department of Biodiversity, Conservation and Attractions, conditional upon:

- a) the obtaining of a licence from the Council valid for twelve (12) months, expiring on 30 June annually; and
- b) agreement by the licensed collector that where the Council requires materials collected they will be available for purchase by the Council at an agreed price as a first option.

1.3. General Conditions:

- a) The number of licensed collectors approved by the Council to operate on Council managed reserves is limited to four per reserve. Additional collectors may be approved subject to provision of evidence that the reserve and/or species they wish to collect can be sustainably harvested.
- b) No permits will be issued for gazetted Flora Roads, Environmentally Sensitive Areas or Special Environmental Areas.
- c) Prior to collection of native flora, the permit holder must additionally have the appropriate permit issued by the Department of Biodiversity, Conservation and

Attractions and must comply with that Department's policy. Both permits must be carried by the collector while collecting flora.

2. Collection of Native Vegetation for Firewood

The collection of native vegetation for firewood for commercial or non-commercial purposes is not permitted on reserves under the care, control and management of the Council. Gathering of firewood is only permitted in areas of crown land designated for that purpose by the Department of Biodiversity, Conservation and Attractions.
