1.4 Amendment Record

Suggestions and comments from the community and stakeholders can help improve these arrangements.

Feedback can include:

- What you do and don't like about the arrangements
- Unclear or incorrect expression
- Out of date information or practices
- Errors, omissions or suggested improvements.

To provide feedback, copy the relevant section/s with the proposed changes marked and forward to:

Chief Executive Officer Shire of Plantagenet PO Box 48 Mount Barker WA 6324 Ph: (08) 9892 1111

Email: info@sop.wa.gov.au

The Local Emergency Management Committee (LEMC) will be given any suggestions and/or comments for consideration. The LEMC must approve all amendments and enter them in the Amendment Register below:

1.5 Glossary of Terms and Acronyms

Refer Appendix 1.

1.6 Related Documents & Arrangements

To enable integrated and coordinated delivery of emergency management within the Shire of Plantagenet, these arrangements, support plans and other related documents should be read in conjunction and are consistent with State Emergency Management Policies and State Emergency Management Plans.

1.6.1 State Emergency Management Plans

Copies of relevant <u>State Emergency Management Plans</u> including State Hazard Plans are available on the <u>WA Government Website</u>, including:

- State EM Plans
- State Hazard Plans
- State Support Plans
 - State Health Response Plan
 - Emergency Welfare
 - o Emergency Public Information
 - Animal Welfare in Emergencies
- National EM Plans.

1.6.2 Local Emergency Management Plans

The following emergency management plans support the Shire of Plantagenet Local Emergency Management Arrangements (LEMAs) and should be read in conjunction with each other, these include:

- Local Recovery Plan (LRP) 2025 (Stand-alone SVP Local Recovery Plan)
- Risk Management Plan 2017 (Appendix 3)
- Plantagenet Emergency Relief and Support Plan (DoC)
- Higher Risk Persons and Groups Planning 2025 (Appendix 6)
- Animal Welfare in Emergency Plan (AWEP) 2025 (Appendix 8)

1.7 Local Emergency Management Policies

Policies for emergency management refer to any policies, which are unique to the Shire of Plantagenet being bylaws or operational policies. The Shire of Plantagenet policies relating to emergency management include:

• Emergency Management Policy (Appendix 5).

1.8 Agreements, Understandings and Commitments

1.8.1 Mutual Aid Understanding

The Shire of Plantagenet along with 11 local governments of the Great Southern Zone have an unwritten understanding for the provision of mutual aid during emergencies and post incident recovery

The purpose of this understanding is to:

- Facilitate the provision of mutual aid between neighbouring Local Governments during emergencies and post incident recovery.
- Enhance the capacity of communities to cope in times of difficulty.
- Demonstrate the capacity and willingness of participating Councils to work cooperatively and share resources within the region.

The local governments that are parties of this unwritten understanding include:

City of Albany	Shire of Katanning
Shire of Broomehill-Tambellup	Shire of Gnowangerup
Shire of Cranbrook	Shire of Kent
Shire of Denmark	Shire of Kojonup
Shire of Plantagenet	Shire of Jerramungup
Shire of Esperance	Shire of Ravensthorpe

1.8.2 Response Support

Forestry Industry Federation	Commitment to providing firefighting resources to any fire involving or threatening plantations and support local bushfire response on request.
DBCA	Memorandum of Understanding for the Cooperative Multi Agency Fire Operations Operating Principles.

1.9 Special Considerations

The Shire of Plantagenet has several special considerations, which may contribute to the likelihood or severity of an emergency.

Consideration	Season
Bush Fire Season	October – May
Storm Season	May - October
Flooding Event	Riverine Flooding Downpour Flash Flooding Restricted access
Porongurup National Park Tourist Attraction Granite Skywalk Castle Rock Climb	All Year
 Stirling Ranges Tourist Attraction Sport Enthusiasts (Bushwalking, Overnight hiking, Abseiling, Gliding) DBCA Park Alerts and Information 	All Year
Public Events	
Agricultural Show	November
Mount Barker Annual Camp draft Count County Spatial	Jan/Feb
Great Southern FestivalGrape Escape Wine Festival	May August
Pardelup Prison Farm	
 85 Prisoners operating 6,500-acre farm 	All Year
Seasonal Influx	
 Wildflower Season 	September – October
 School Holidays 	Christmas and Easter
o Grey Nomads	All Year
Farming Seasons	
 Harvesting (Reduced BFB Volunteers) 	November - January
 Sales Yard (Bio Security) 	All Year

2. OVERVIEW

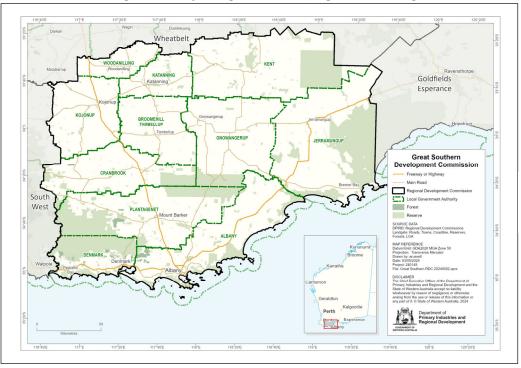

2.1 Area Covered

This Plan covers the Shire of Plantagenet, located in the Great Southern Region of Western Australia, under the Local Government Act (1995). The Shire spans 4,875 square kilometres and is situated 359 km south of Perth and 50 km north of Albany. The Shire encompasses the town of Mount Barker and the settlements of Narrikup, Rocky Gully, Porongurup and Kendenup.

Bordering Local Governments include the City of Albany and the Shire's of Denmark, Manjimup, Cranbrook and Plantagenet.

Figure 1- Shire of Plantagenet Boundaries/ Figure 2- Surrounding Local Govt's

Hgure 2

2.2 History and Culture

The Shire of Plantagenet is part of the traditional lands of the Noongar people, specifically the Goreng people. Porongurup Range is more than 1100 million years old and is a culturally sacred site and it is of significance to the whole Noongar nation.

European settlement in the Shire of Plantagenet began in the 1830s after Dr. Thomas Braidwood Wilson explored the region, attracting British settlers with its fertile land. Early settlers established farms and sheep grazing properties, fostering the growth of agriculture and the timber industry, which ultimately led to the development of Mount Barker, officially gazetted as a township in 1899. In the 1960's viticulture began due to the regions ideal cool climate leading to a thriving wine industry. Today, the Shire of Plantagenet is a vibrant rural region known for its agriculture, viticulture, and natural attractions.

2.3 Population and Demographics

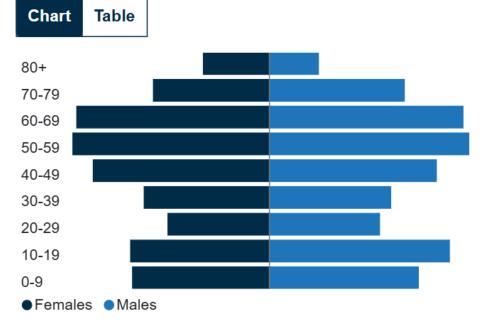

The Shire of Plantagenet's population and demographics information is summarised below. More Census 2021 data for the Shire can be found here.

5,276 Population

0.2% Annual Growth 6 Natural Increase 11 Net Overseas Migration

-4 Net Internal Migration

Age structure by sex for the year ending 30 June 2019

Source: https://population.gov.au/data-and-forecasts/dashboards/population-local-government-areas

2.4 Climate

The Shire of Plantagenet has a Mediterranean climate with warm dry summers and cool, wet winters. Average summer temperatures range from 12°C - 26°C, while winter temperatures average between 6°C - 15°C. The annual rainfall is around 740 mm falling mostly within the months of May to September. The predominant wind directions are from the East/South-East in summer and from the West/North-West in winter.

2.5 Topography

The Shire of Plantagenet is characterised by gently rolling hills, significant mountain ranges, extensive bushlands, and vital waterways that shape its natural environment. The Porongurup Ranges, rising to 670 metres ASL, and the bordering Stirling Ranges, reaching 1,095 metres ASL, provide dramatic landscapes and support diverse ecosystems. Key natural areas include Porongurup National Park, Mount Barker Hill Reserve, and various nature reserves, preserving native flora and fauna. The Shire is also traversed by several important rivers, including the Kalgan, Hay, Denmark, Kent, and Frankland Rivers. These natural assets play a crucial role in conservation, tourism, and local land management planning, ensuring the protection and sustainable use of the region's natural resources.

2.6 Economic Profile

The economy of the Shire of Plantagenet is largely driven by agriculture, with livestock farming (sheep and cattle) and viticulture (cool-climate wines) at its core. The eastern side of the Plantagenet Shire are to be found large crop farming farms. Cattle/stock yards saleyards are located at Mount Barker. The region is also supported by forestry and timber industries, along with a growing tourism sector driven by attractions like Porongurup National Park and local wineries. Mount Barker serves as the commercial hub, with retail and services catering to both the local community and visitors. While agriculture remains dominant, the diversification into wine production and tourism has strengthened the region's economic foundation.

2.7 Critical Infrastructure

Critical infrastructure includes physical facilities, supply chains, systems, assets, information technologies and communication networks which, if destroyed, degraded or rendered unavailable for an extended time, would significantly affect the social or economic wellbeing of the Shire of Plantagenet community.

2.7.1 Electrical Supply

Power to all developments within the Shire is supplied by Western Power. Current supplies are considered adequate however any major increase in demands may impact supply.

Power Sub Station	Off Quangellup Road, Mount Barker
Wind Farm	3 km north of Mount Barker on Albany Hwy

2.7.2 Gas Supply

Gas is supplied to households and businesses in cylinders by a local distributor.

2.7.3 Sewerage System

Properties located in the townsite of Mount Barker are mostly connected to a reticulated sewerage service, residents in surrounding townsites rely on individual septic systems.

2.7.4 Water Supply

Residents in Mount Barker townsite receive water primarily through the state-operated Water Corporation network, which supplies treated potable water sourced from a storage facility. Farms and rural properties rely on rainwater tanks, bores, and dams for agricultural and household needs, with water availability influenced by seasonal rainfall patterns. Rocky Gully water storage is transported in daily.

Mt Barker Water Storage Facility	Mondurup Reserve, Off Marmion Street, Mount Barker
Water Treatment Facility	Bunker Street, Mount Barker
Rocky Gully Water Storage Facility (Currently (2025) delivered by truck)	Albany Highway near Yerriminup Road, Mount Barker

2.7.5 Medical Services

Mount Barker Hospital	66-68 Langton Road, Mount Barker	(08) 9892 1222
Plantagenet Medical	70 Marmion Street, Mount Barker	(08) 9892 1000
City of Albany Hospital (50 km South of Shire)	30 Warden Ave, Spencer Park, Albany	(08) 9892 2222

2.7.6 Transport & Airport Facilities

ROAD: The Shire of Plantagenet is serviced by a number of main arterial roads, these being Albany Highway and Highway. To see updates on current road conditions visit Main Roads Travel Map - Map.

AIRPORT: The Shire of Plantagenet has several small privately owned, unsealed airstrips in Mount Barker area which serves for recreational aviation, and agricultural purposes.

The City of Albany known as the Harry Riggs Albany Regional Airport features a 1,800m sealed runway, capable of accommodating aircraft up to the size of a Boeing 737. Flights to Perth run 3-4 times per day provided by Rex Regional Express that operate Saab 340 aircraft (34 seats).

2.7.7 Communications Infrastructure

The Shire of Plantagenet's mobile phone towers are located in the following locations:

- Mount Barker Hill
- Rocky Gully
- Kendenup (Telstra)
- Narrikup
- Takalarup
- 30138 Albany Hwy

For maps of Telstra mobile coverage click here.

The Shire of Plantagenet's has a number of radio tower sites as listed below.

Location	Description	Owner	Contact
Tower Road Mount Barker	Radio tower site UHF site	WAPT	(08) 9892 9300

3 3. EMERGENCY

MANAGEMENT PLANNING

3.1 Aim and Purpose

Aim of this LEMA is to *minimise* the effects of, ensure a coordinated response to and provide an effective recovery from, an emergency affecting the Shire of Plantagenet.

Purpose of this LEMA is to *maximise* safety and ensure sound recovery of the Shire of Plantagenet's community, preserving lives, livelihoods and environment in the event of an emergency.

3.2 Objectives

Understand the roles and responsibilities of government and non-government agencies/individuals involved in emergency management

Describe the provisions for coordinating emergency operations and activities relating to emergency management performed by persons/agencies within these LEMAs

Describe the emergencies likely to occur within or around the Shire of Plantagenet

Describe strategies and priorities for emergency management within the Shire of Plantagenet

Explain matters pertaining to emergency management within the Shire prescribed by the regulations and within (s.41(2)) of the Emergency Management Act (2005)

Promote a consistent multi-agency approach with community engagement, relating to emergencies within the Shire of Plantagenet

3.3 Scope

This document does not detail procedures for Hazard Management Agencies (HMAs) when dealing with an emergency. These should be detailed in the HMAs' individual plans. These arrangements are to ensure HMAs, Support Agencies and stakeholder parties are ready to deal with the identified emergencies in a coordinated manner should they arise.

This LEMA applies to:

Apply to the area of the Shire of Plantagenet

Cover areas where the Shire of Plantagenet provides support to HMAs at an emergency incident

Detail the Shire's capacity to provide resources to support an emergency, while still maintaining business continuity and responsibilities relating to recovery management

3.4 Roles and Responsibilities

See Appendix 2 for details of specific roles and responsibilities for officers.

3.5 Resources

The HMAs or their Control Agency (CA) are responsible for determining the resources required for their specific hazards and operations.

Refer *Appendix 4* for the Shire of Plantagenet's Contacts and Resources Directory information (confidential) for specific details of resources available.

3.6 Local Mutual Aid

Authority to release resources to assist other agencies will rest with the CEO (or delegate).

3.7 Financial Arrangements

The emergency funding principle is to ensure accountability for the expenditure incurred. The organisation with operational control of any resource shall be responsible for paying all related expenses associated with its operation during emergencies unless other arrangements are established.

<u>State EM Policy Section</u> 5.12, <u>State EM Plan</u> Sections 5.4, 6.10 and <u>State EM Recovery Procedures</u> 1-2 outline the responsibilities for funding during multi-agency emergencies. The Shire of Plantagenet recognises the above and is committed to expending such necessary funds within its current budgetary constraints as required to ensure the safety of its residents and visitors.

3.7.1 Authority to Incur Expense

The CEO, or delegated authority (e.g. Local Recovery Coordinator (LRC)), should be approached immediately when an emergency occurs that requires resourcing by the Shire of Plantagenet, to ensure the desired level of support is achieved. (E.g. Local Recovery Coordinator- Local Liaison Officer- CESM.)

3.7.2 Response

All Shire of Plantagenet resources are registered and identified in the Shire's asset register located in the Contacts and Resource Directory (see *Appendix 4*).

Staff and resources are available for response to emergencies in accordance with Sections 38 and 42 of the <u>Emergency Management Act 2005</u>. Where possible, a single person shall be appointed to the position of Finance Officer during an emergency.

3.7.3 DRFAWA

The <u>Disaster Recovery Funding Arrangements</u> (DRFA) is an arrangement, not an agreement, between the Commonwealth and states and territories. These arrangements identify the relief and recovery assistance that the Commonwealth will contribute financially. The DRFA determines the terms and conditions that must be met if states are to claim financial assistance from the Commonwealth.

ACTION

- SHIRE OF PLANTAGENET TO APPOINT A SINGLE PERSON TO THE POSITION OF FINANCE OFFICER TO ENSURE IN-HOUSE ACCOUNTING AND DOCUMENTATION PROCESSES ARE IN-LINE WITH DRFAWA'S REPORTING AND CLAIM REQUIREMENTS.
- ➤ SHIRE OF PLANTAGENET TO ALLOCATE AN ACCOUNT NUMBER IMMEDIATELY AS AN OPERATION IS MOUNTED TO PROVIDE AND RECORD THE NECESSARY FUNDING REQUIRED.
- ➢ In a declared State of Emergency when the incident meets DRFAWA eligibility requirements the Shire of Plantagenet is to seek recovery funding − see Local Recovery Plan Appendix 1.

4

4. LOCAL EMERGENCY MANAGEMENT COMMITTEE

4.1 Introduction

The Shire of Plantagenet has established a LEMC under Section 38(1) of the <u>Emergency Management Act (2005)</u> to oversee, plan and test the LEMAs.

The LEMC is not an operational committee but a working group, which includes representatives from agencies, organisations and community groups that are relevant to the identified risks and LEMAs for the area. The LEMC will assist in developing LEMAs and coordinate its emergency management partners/stakeholders within its region.

The <u>LEMC Handbook</u> developed by the SEMC, provides local governments with a summary of the actions and best practice principles to assist Local Government in meeting their legislative responsibilities.

4.2 LEMC Role

The LEMC performs a vital role when assisting the Shire of Plantagenet and its community to be prepared for major emergencies by:

Developing, enhancing and testing preparedness planning from a multi-agency perspective having local knowledge of hazards, demographic and geographic issues

Providing advice to HMAs/CAs to develop localised hazard plans

Providing a multi-agency forum to analyse and treat local risk

Providing a forum for multi-agency stakeholders to share issues and learnings to ensure continuous improvement

Investigate community engagement initiatives towards emergency awareness and emergency management information

4.3 **LEMC Procedures**

The LEMC shall meet as determined by the Executive Officer on the first Thursday of every March, June, September and December. The LEMC shall meet quarterly or more frequently as required by Emergency management procedures 3.7.

Each LEMC meeting should consider, but not be restricted to, the following matters:

Confirming local emergency management contact details of key stakeholders

Reviewing any post-incident reports and post exercise reports generated since last meeting

Progressing emergency risk management processes

Progressing treatment strategies arising from emergency risk management process

Progressing development or review of local emergency management arrangements

Progressing and investigation of a range of community engagement initiatives

Other matters determined by the local government and SEMC direction

LEMC will also consider other issues including annual reporting, training, grant funding applications, special projects and other matters as necessary. Also considered will be initiatives to enhance community awareness and resilience in emergency management matters.

4.4 **LEMC Membership**

LEMC membership includes the Shire of Plantagenet representatives and the Local Emergency Coordinator OIC WA Police Force Mount Barker. Relevant government agencies, industries and other statutory authorities will nominate their representatives to be members of the LEMC.

Shire of Plantagenet, in consultation with the parent organisation members, determines the appointment term of LEMC members. Representatives from community and community groups will be invited to attend as required. For details on membership roles and responsibilities see *Appendix 2*.

4.4.1 LEMC Members

Agency	Position	Voting
Shire of Plantagenet	Chair	✓
	Deputy Chair	✓
	Local Recovery Coordinator	✓
	Local Government Liaison Officer	✓
	Executive Officer	✓
	Administration Support Officer	✓
	Shire Managers	✓
	Chief Bush Fire Control Officer (CBFCO)	✓
WA Police	Local Emergency Coordinator (Local OIC)	✓
Dept. of Communities	Regional Coordinator Emergency Relief and Support	✓
DFES	District Emergency Management Advisor	✓
DFES	District Officer Emergency Management	✓
Volunteer Fire & Rescue Service	Representative	✓
Dept. of Health – Mt Barker Hospital	Representative	✓
Dept. of Biodiversity, Conservation and Attractions (DBCA) Albany District	Representative	√
DBCA – Frankland Rocky Gully district	Representative	✓
Dept. of Housing	Representative	✓
Dept. of Education (Local Principles)	Representative	✓
Dept. of Primary Industries & Regional Development (DPIRD)	Representative	✓
Water Corporation	Representative	✓
Western Power	Representative	✓
St. John WA (SJWA) Mount Barker	Representative	✓
St. John WA Regional Paramedic	Representative	✓
Community Members	Representative	✓

The list above is not limited, with members co-opted as and when required.

4.5 LEMC Reporting

4.5.1 Annual Reporting

After the end of every financial year, each LEMC is to prepare an annual report on activities undertaken and submit it to the DEMC for the district (Section 40(1) EM Act). Annual reports must be completed using the templates provided in State Emergency Management Preparedness Procedure 3.17.

4.5.2 Preparedness Reporting

The Annual and Preparedness Report Capability Survey (sent out mid-April to be completed by June) is submitted to the Minister for Emergency Services by 31st October each year. The report enables the State to gain a greater understanding of the requirements to manage large-scale and/or multiple emergency events. (State EM Procedure 3.18.)

4.6 LEMC Special/ Emergency Meetings

A special meeting for LEMC members may be called by the LEMC Chair in consultation with LEMC Executive Officer for situations of impending emergency or special circumstances requiring all LEMC members to be present and updated.

A LEMC Special Agenda can be viewed at Appendix 10 (c).

5 5. MANAGING RISK

5.1 Emergency Risk Management

Emergency Risk Management is defined as 'a systematic process which contributes to the wellbeing of communities and the environment. The process considers the likely effects of hazardous events and the controls by which they can be minimised'.

The Shire of Plantagenet and its LEMC recognise that risk management is a critical component of the emergency management process. This risk management process paves the way for the Shire and its LEMC partner agencies to work together to implement treatments to mitigate risks to the community. The Shire's Emergency Risk Management Assessments meet the requirements as per <u>State Emergency Management Prevention and Mitigation Procedure 2.1</u> – see *Appendix 2*.

5.2 Hazards Identified

The Shire of Plantagenet has undertaken a risk analysis within its district using the National Emergency Risk Assessment Guidelines, the Western Australian Emergency Risk Management Guide, which are aligned with the Australian/New Zealand

International Standard Organisation (AS/NZS ISO 31000:2009) Risk Management – Principles and Guidelines. There are 28 State Hazards in Western Australia under state emergency legislation, that are detailed in State Risk Profile Fact Sheets. As a participant of the State Risk Project and the following hazards were identified as the Shire's top three risks.

Fire

Severe Storm

Biosecurity

The HMAs are responsible for the above hazards and develop, test, and review appropriate emergency planning for these designated risks – See <u>State Plans</u>.

Responsible agencies may require local resources and assistance to manage an emergency. Requests for assistance/support and resources will normally be channelled through the Incident Support Group (ISG) established by the HMA/CA.

5.3 Risk Management Planning

The SEMC is currently in the next phase of assessing state risk, with an intent to leverage emerging tools, technologies and scientific research. This will enable a shift from a long-term static view of risk to a framework that will incorporate systemic risk, as well as dynamic risk assessment.

The Shire of Plantagenet is committed to developing and implementing Local Emergency Risk Management Strategies according to their priority using the resources of the State Risk Toolbox.

For the district risk profile report see <u>The Great Southern Emergency District – Risk Assessment Report.</u>

6

6. RESPONSE & COORDINATION EMERGENCY OPERATIONS

The Emergency Management Act 2005 allows Hazard Management Agency/s (HMA)'s to be established. They are created due to their functions under written law or because they have specialised knowledge, expertise and resources in respect to a particular hazard. HMAs will nearly always be responsible for leading a response to an emergency in relation to the type of hazard relevant to that agency. (See State Emergency Management Plan - Appendix C to view Hazard Management Agencies and Controlling Agencies Responsibility List for WA hazards).

HMAs may require resources and assistance to manage emergencies. The Shire of Plantagenet recognises this and is committed to providing assistance/support if the required resources are available through the ISG when it is formed.

6.1 Activation of Local Arrangements

When an incident is assessed as Level 2 or 3, the HMA/Controlling Agency (CA) Incident Controller (IC) must make an incident declaration to ensure all agencies involved in the response are aware of the conditions and potential for escalation.

Shire will ensure all requested support is available to the HMA/CA

LRC will advise the CEO of the need to convene the Shire's LRG as necessary

LRC will assess need to activate the LRP after becoming aware of, or on advice from the HMAs IC

If the Shire's LRC decides not to convene and activate the appropriate LRG and LRP, due to statutory and/or other agencies adequately addressing the situation, the LRC will continue to monitor the situation and keep the CEO and Council briefed accordingly.

6.2 Incident Support Group

The Incident Support Group (ISG) provides support to the Incident Management Team (IMT) and is made up of people represented by different agencies that may be/are involved in the incident.

The CA appointed IC convenes the ISG to assist with coordinating services and information during a major incident. HMAs and combat agencies may require resources and assistance to manage emergencies and to clearly identify priorities for sharing information and resources. Shire of Plantagenet is committed to providing assistance/support, if required resources are available, through the ISG if, and when, formed.

6.2.1 Triggers for Incident Support Group

The triggers for an ISG are defined in the <u>State EM Policy</u> Statement 5.2.2 and State Emergency Management Plan Section 5.1 being:

6.2.2 Incident Support Group Membership

The ISG is made up of agency representatives that provide support to the CA. Emergency management agencies may be called on to provide liaison officers for the ISG.

The Shire's LRC should be a member of the ISG from the onset, ensuring consistency of information flow, situational awareness and effective transition handover to recovery.

Representation on the ISG may change regularly depending upon the incident, agencies involved, and consequences caused by an emergency.

Agencies supplying staff for the ISG must ensure the representative(s) has/have authority to commit resources and/or direct tasks within their organisation/agency.

6.2.3 Incident Support Group Meeting Location and Frequency

The IC determines the frequency of meetings depending on the nature and complexity of incident. As a minimum, there should be at least one meeting per incident. Clearly identifying priorities and objectives of the agencies sharing information and resources, will ensure good coordination.

The IC is responsible for the location of meetings in consultation with the Shire of Plantagenet. The following table identifies suitable locations where ISG meetings can be held within the Shire.

Venue	Address	Contact	Facilities
Shire of Plantagenet Administration Offices	22 -24 Lowood Road Mount Barker	(08) 9892 1111 CEO	Meeting room, chambers, offices, kitchen, internet, toilets, admin support
Mount Barker Court House	13 Mount Barker Road Mount Barker	(08) 9851 1122 OIC Mt Barker Police	Meeting room, offices, kitchen, internet (starlink), toilets, admin support

6.3 Emergency Coordination Centre

Identified Incident Control Centres (ICC) can serve as central command centres during incidents for the Incident Management Team (IMT) to effectively control/coordinate incident operations. For level 2 and 3 incidents, the Incident Control Centre (ICC) for an educine to the IMA (Incident Centreller)

emergency will be designated by the HMA 'Incident Controller'.

Where the HMA requests an alternate location for the ICC, or where the primary location is non-serviceable, the following facilities are available if deemed appropriate for use:

<u>PRIMARY</u>

Venue	Address	Contact	Facilities
Shire of	22 -24 Lowood	(08) 9892 1111	Meeting room, chambers,
Plantagenet	Road Mount		offices, kitchen, internet,
Administration	Barker		toilets, admin support, back-
Offices			up power source

SECONDARY

Venue	Address	Contact	Facilities
Mount Barker	13 Mount Barker	(08) 9851 1122 OIC Mt	Meeting room, offices,
Police Station	Road Mount	Barker Police	kitchen, internet (starlink),
	Barker		toilets, admin support

REGIONAL OPERATION CENTRES (ROC)

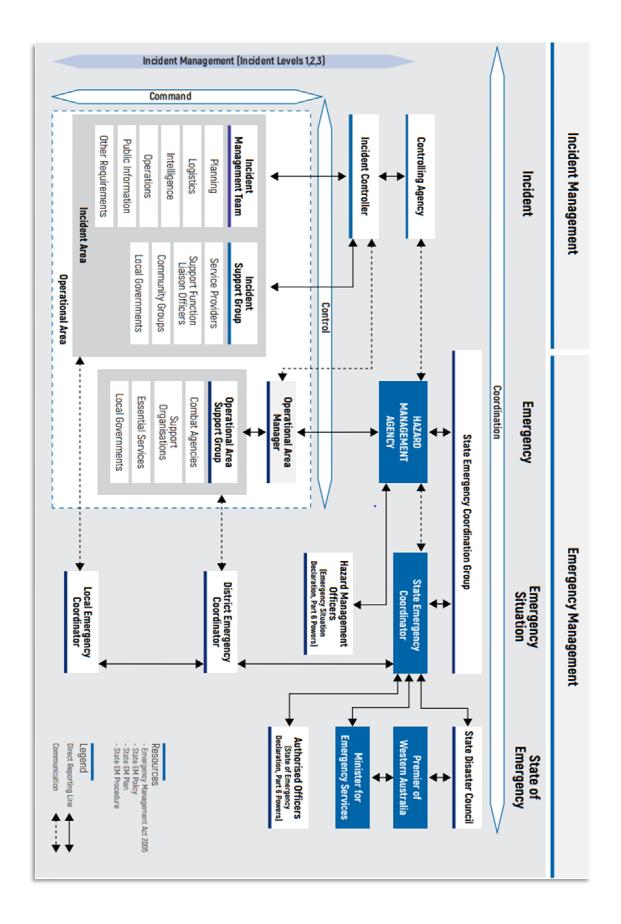

Venue	Address	Contact	Facilities
DFES Regional Headquarters	5 Hercules Cresent, Albany	(08) 9845 5000	Fully equipped Level 3 ICC
DBCA South Coast Region	120 Albany Hwy, Albany	(08) 9842 4500	Fully equipped ICC, portable offices, support trailers, cooking vans, ablutions

6.4 State of Emergency

The Minister may declare a state of emergency (Section 56(1) Emergency Management Act 2005), when extraordinary measures are necessary to respond to an actual or imminent emergency for the protection of life, property and/or the environment. If a state of emergency is declared, the State of Emergency Coordination Group will be established. During a state of emergency or emergency situation, the ability of emergency management agencies to share information is crucial. Section 72 of the Emergency Management Act 2005 allows for relevant information to be shared between Hazard Management Officers (HMOs) or Authorised Officers and HMAs for the purposes of emergency management, despite any law of the State relating to secrecy or confidentiality.

7

7. MEDIA MANAGEMENT & PUBLIC INFORMATION

Communities threatened or affected by emergencies have an urgent and vital need for adequate direction and timely information to help them become aware of the emergency and take appropriate actions to safeguard life and property.

HMAs/CAs are responsible for disseminating information in the response phase of an incident.

The IC/Manager authorises and manages media and public information to reflect multi-agency involvement and the following principles will apply:

HMAs will manage all media releases under State Support Plan - Public Information

The IC/Manager will authorise all media releases and public information alerts for the incident after consultation with the Emergency Coordinator and other CAs

All media releases are to reflect multi-agency incident management, detail all agencies involvement and carry the agencies identification

Must relate to incident only, not to operational protocols, procedures or administration (these issues will be referred to the relevant agency)

Each agency is provided with copies of multi-agency incident media releases as soon as possible before release

All media releases issued by any agency at State level will reflect multi-agency involvement

7.1 Public Communication Systems

7.1.1 Local Government Local Communication
Systems

The Shire of Plantagenet has the ability to support official emergency messaging through local communication systems including:

Shire website/ Facebook	Local newsletters	
Post Office	Community notice boards	
SMS notification system	Community/ local radio stations	

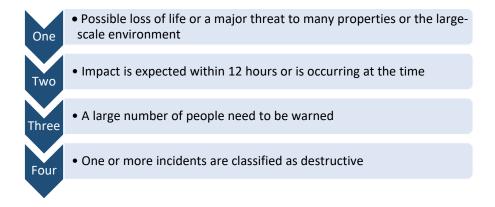

Any information for release to the media or public must be forwarded and approved by the CEO. The CEO and the Shire President are the only persons to make statements to the press on behalf of the Shire. The Shire CEO, or a delegated representative, will be the Media and Public Information Officer.

7.1.2 Standard Emergency Warning Signal

A Standard Emergency Warning Signal (SEWS) is broadcast immediately prior to major emergency announcements on the radio, television, and other communication systems. A SEWS is only used in emerging situations of extreme danger when people need to be warned to take urgent and immediate action to reduce the potential for loss to life or property.

In Western Australia, DFES authorises SEWS broadcasts or the Regional Director of the Bureau of Meteorology (BoM) for weather and flood related events. When deciding to issue SEWS, the authorities will consider the following four factors:

To listen to the SEWS sound click here.

7.1.3 Emergency Alert System

An Emergency Alert automatically delivers warnings direct to an area where lives may be in danger. It does not replace current public information tools or the need for community to remain vigilant and look after its own safety. It is an additional tool used to alert people in a specific location in immediate danger.

All home phones (landlines), including silent numbers, are automatically registered on Emergency Alert. Mobile phones are automatically registered to the billing address. In emergencies, HMAs authorise the broadcast of messages by Emergency Alert.

7.1.4 Australian Warning System

The <u>Australian Warning System</u> is a new national approach to information and warnings during emergencies like bushfire, flood, storm, extreme heat and severe weather. The System uses a nationally consistent set of icons, like those below that are displayed on the Emergency app and <u>website</u>.

7.1.5 DFES Public Information

DFES provides a range of official information sources to help you stay up to date.

DFES recorded information line 1300 657 209 SES assistance 132 500

Emergency WA Website/ App <u>www.emergency.wa.gov.au</u>

DFES website <u>www.dfes.wa.gov.au</u>

<u>Emergency WA</u> is coordinated by the Department of Fire and Emergency Services on behalf of the Government of Western Australia and provides a near-real time feed of incidents reported around the State.

7.1.6 Additional Information Outlets

Local ABC Radio 558/ 630AM BOM information line 1300 659 210

BOM website <u>www.bom.wa.gov.au</u>

- THE SHIRE ACKNOWLEDGES THAT PUBLIC INFORMATION AND MEDIA MANAGEMENT IS CRITICAL IN TIMES OF EMERGENCY.
- ➤ HMAS/CA IC RESPONSIBLE FOR INFORMATION/MEDIA RELEASES IN RESPONSE PHASE OF INCIDENT.
- THE SHIRE MEDIA RELEASES ARE COORDINATED BY THE SHIRE'S DELEGATED OFFICER APPROVED BY CEO.
- > THE CEO, OR DELEGATED PERSON, ONLY TO GIVE PUBLIC STATEMENTS TO MEDIA.
- > Public warning systems shall be used when necessary, under HMAs/CA IC authority.
- THE SHIRE WILL SUPPORT OFFICIAL EMERGENCY INFORMATION BY REITERATING THE MESSAGES VIA THE SHIRE'S COMMUNICATION AVENUES (FACEBOOK, WEBSITE, SMS, ETC.).

8

8. EVACUATION

Evacuation is a risk management strategy that may be used to reduce loss of life or lessen the effects on a community, prior to the onset of, or during, an emergency. People who are threatened by a hazard will be moved to a safer location and, typically, their eventual safe and timely return.

In accordance with State EM Policy s5.7, evacuation planning is covered in five stages.

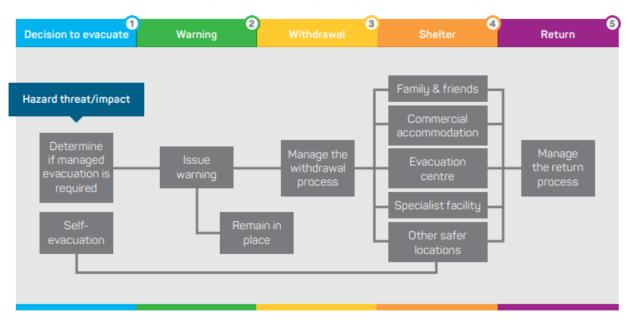

Figure 2: Evacuation 5 Step Process

8.1 Evacuation Management

Evacuating people from an area affected by a hazard is one of the strategies that may be used by emergency management agencies to mitigate the potential loss of, or harm to, life.

Evacuating residents is not always the optimum solution to managing the risk. Alternatives such as shelter in place, quarantine and/or controlling or restricting movement, should also be considered where appropriate.

The <u>WA Community Evacuation in Emergencies Guidelines</u> assist emergency management agencies to plan for and conduct community evacuation for all hazards.

8.1.1 Decision

The IC appointed by designated HMAs/CA or an authorised officer, makes the decision to evacuate when community members at risk do not have the capability to make an informed decision when loss of life or injury is imminent.

8.1.2 Timelines

Alternatives such as, 'shelter in place' or, 'prepare, stay and defend', should be considered.

Deciding to evacuate or recommending evacuation should be made as early as possible. Late evacuation may potentially expose communities to greater levels of risk and escalate the situation.

8.1.3 Combat Agency for Evacuation

The LWAPOL will coordinate the evacuation in a planned and safe manner. Determining risk, need for long or short-term evacuation and immediate or planned evacuation may be necessary.

8.1.4 Evacuation Centres

The Shire of Plantagenet is responsible (in partnership with the HMAs/CA) for ensuring adequate arrangements are in place to support evacuation, including providing evacuation centres (or Welfare Centres) and applicable relief support functions led by Communities – see **Appendix 9.**

PRIMARY EVACUATION CENTRES

Building Name	Site Address	Max	Sleeping	Contact details
Mount Barker Rec	Off Albany Hwy.,	376	376	9851 2122
Centre	Mt Barker			

SECONDARY EVACUATION CENTRES (TBA)

8.2 Higher Risk Persons and Groups

The Shire of Plantagenet depends on agencies responsible for Higher Risk Persons and Groups to ensure suitable planning and response capabilities for supporting people with special needs.

Certain community groups, such as the elderly, tourists, children and individuals with physical disabilities, are considered "Higher Risk Persons." *Appendix 6*, the Higher Risk Persons and Groups Plan, outlines the necessary actions for working with these individuals and for evacuation procedures. The Shire of Plantagenet has a significant senior population, with more than 45% of residents aged 50 or older and 14% being over 70.

8.3 Evacuation Routes

Evacuation routes are principally from evacuation assembly areas to Evacuation Centres. Owing to the varying complexity within different emergencies, the IC HMAs/CA and WAPF will determine strategic course of action at the time, particularly timelines for the evacuation.

Extensive mapping information can be obtained from the Shire of Plantagenet's website and agencies such as Department of Biodiversity Conservation and Attractions.

8.4 Isolation and Quarantine

Directions regarding isolation, quarantine, physical distancing and health requirements are common during human epidemic/pandemic, animal/plant pests or diseases and hazardous material emergencies. These may add to the complexity of community evacuations and should be considered as part of planning to mitigate any risks and

ensure evacuations can be carried out safely.

The inability to comply with any isolation or quarantine requirements and/or restrictions should not stop a person from being evacuated. Managing the immediate threat, protecting and preserving life must be paramount when considering State strategic control priorities that identify roles and actions for the emergency management response, where there are concurrent risks or competing priorities.

Seek advice from the HMAs for a hazard requiring isolation and quarantine when developing an emergency evacuation plan.

8.5 Return

HMAs/CA is responsible for deciding when to return evacuated residents. Their return will be conducted in consultation with affected community and Support Organisations including the Department of Communities, the Department of Health and Shire of Plantagenet.

For Department of Communities Local Emergency Relief and Support Plan- see Appendix 7.

- HMAs/CA IC MAKES DECISIONS TO EVACUATE.
- LEMC and the Shire assist by pre-planning for evacuation.
- ALL ALTERNATIVES TO BE CONSIDERED.
- Decision to evacuate made as soon as possible.
- HIGHER RISK PERSONS AND GROUPS TO BE A SPECIAL CONSIDERATION IN AN EVACUATION.
- ROUTES AND MAPS SOURCED VIA SHIRE INTRAMAPS OR GOOGLE MAPS OR PARTNER AGENCIES.
- ► Ensure evacuation centre protocols and procedures are enacted See Local Emergency Relief and Support Plan Appendix 7.

9

9. EMERGENCY RELIEF & SUPPORT

The Department of Communities (Communities) is the support organisation responsible for providing and coordinating emergency relief and support services (previously welfare) for the 28 prescribed hazards, as specified in the emergency management legislation.

This includes the functional areas of:

Dept. of Communities has developed the Emergency Relief and Support Plan for the Shire of Plantagenet (see *Appendix 7*).

9.1 Communities Local Evacuation Centre Coordinator (LECC)

The Department of Communities appoints the Local Evacuation Centre Coordinator (LECC) – see *Appendix* **2** for description of Roles and Responsibilities – Welfare Emergency Relief and Support.

9.2 Local Government Liaison Officer(LGLO) (Emergency Relief and Support)

The Shire of Plantagenet nominates and appoints the Local Government Liaison Officer (LGLO) assist Communities to provide liaison between Communities and the Local Government in the provision of Emergency Relief and Support. This may include the management of the evacuation centre such as building opening, closing, security and maintenance it also includes supporting Communities with liaison with the local community.

9.3 Register Find Reunite

Department of Communities are responsible for the registration and reunification of displaced persons. Registration and reunification enable people within an emergency affected community to be traced and reunited with family and friends. Inquiries about

individuals can be coordinated, intrastate, interstate or internationally.

Communities will use an appropriate system to facilitate registration and reunification services. Partner agencies such as the Australian Red Cross may be engaged to assist or be delegated this function under the direction of Communities.

The Australian Red Cross may be requested to activate their Register. Find. Reunite. system (RFR) to aid in this service on Communities' behalf.

9.4 Evacuation Centres

The Shire of Plantagenet in conjunction with Communities has identified suitable facilities within different localities. These centres have been assessed and extensive information provided within the Evacuation Centres Register available for activation as

required by the HMAs/IC (see 8.1.4 and Appendix 9 for the Shire's nominated Evacuation Centres).

The respective HMA or Controlling Agency Incident Controller is responsible for the decision to evacuate during an emergency. This includes selecting the evacuation centre(s), in consultation with Communities and the Local Government.

Communities are responsible for coordinating and assessing the provision of temporary accommodation for people displaced by an emergency or evacuating from an emergency. Communities may utilise a range of emergency accommodation options to support people impacted by an emergency.

Local Evacuation Centres have been identified within the Local Emergency Relief and Support Plan Appendix 1.

Two Emergency Kits have been prepared with resources and forms required for the operation of an evacuation centre located at the Shire Administration Office and Recreation Centre.

9.4.1 Animals

Animals except for assistance animals are not permitted within Evacuation Centres.

No pets or animals are allowed in an evacuation centre due to health and safety considerations, except for assistance animals, like guide and hearing dogs.

Owners or caregivers are responsible for their animals and are encouraged to make arrangements to ensure their welfare throughout all stages of an emergency.

The Department of Primary Industries and Regional Development has been assigned the role and responsibility for coordinating animal welfare services in emergencies. This is supported by the Local Government, where possible.

Further details can be found in the <u>State Support Plan – Animal Welfare in Emergencies</u> or the Local Animal Welfare Plan in the LEMA.

The owner or carer of an animal is responsible for its welfare and must decide, where possible, if their animals will be evacuated or remain on location and plan for how this will be achieved.

The Department of Primary Industries and Regional Development (DPIRD) is responsible for coordinating State EM Policy, 5.9.7 and State Support Plan – Animal Welfare in Emergencies.(SSP AWIE)

The Shire of Plantagenet Animal Welfare in Emergencies Plan (AWEP) (see *Appendix 8*) is aligned with the State's plan and provides detailed emergency management arrangements related to the welfare and management of animals including domestic pets, horses, livestock and wildlife.

- COMMUNITIES IS RESPONSIBLE FOR PROVIDING AND COORDINATING EMERGENCY RELIEF AND SUPPORT SERVICES.
- Managing animal welfare is primarily the responsibility for owner with assistance from Shire if it gets beyond the capacity of owner
- DPIRD IS RESPONSIBLE FOR MANAGING SSP AWIE.
- COMMUNITIES DEVELOPS, MAINTAINS AND ENACTS SHIRE OF PLANTAGETET LOCAL EMERGENCY RELIEF & SUPPORT PLAN.
- THE SHIRE DEPUTY CHAIR IS THE LGLO.
- REGISTER FIND UNITE RESPONSIBILITY ACTIONED BY COMMUNITIES SUPPORTED BY AUSTRALIAN RED CROSS.
- Identified Evacuation Centres Refer Emergency Evacuation Centres APPENDIX 9.
- RANGERS TO SUPPORT DBCA, DPIRD IN ANIMAL WELFARE ACTIONS.

10

10. RECOVERY

The recovery process begins during the response phase. It is important to identify community needs as early as possible to begin planning for the transition from response to recovery.

The Local Recovery Plan (LRP) is a separate plan to provide guidance in recovery, and is part of the overall LEMA, which can be viewed and read in conjunction with this Plan.

The Shire of Plantagenet LRP (stand-alone plan) provides clear guidance on effective recovery management, outlining key concepts, principles, and values for Shire staff, partner agencies and the community, following significant impact from any emergency.

11

11. EXERCISING & REVIEW

11.1 Exercising

The aim of conducting an exercise is to:

Test effectiveness of local arrangements and provide a pathway for improvement

Bring together members of emergency management agencies and give them knowledge of, and confidence in, their roles and responsibilities

Help educate community about local arrangements and programs

Allow participating agencies an opportunity to test their operational procedures and skills in simulated emergency conditions

Test the ability of separate agencies to work together on common tasks, and to assess effectiveness of coordination between them

11.1.1 Exercise Frequency

In accordance with State EM Policy, Plans and Procedures that outline arrangements for exercising, the LEMC is required to <u>conduct at least one exercise annually.</u> The September LEMC meeting will combine the LEMC meeting with an exercise.

11.1.2 Exercise Reporting

Exercise schedule and post exercise reports will be forwarded to the District Emergency Management Committee as part of LEMC's annual report.

11.2 Review of LEMA

The LEMA and associated support plans are to be reviewed in accordance with <u>State EM Policy</u> Section 2.5 and amended/replaced whenever the Shire considers appropriate (Section 42 of EM Act).

Timeline to review and amend will be:

Contact lists reviewed and updated quarterly – Contacts and Resource Directory (Appendix 4)

A review is conducted after training that exercises the arrangements or relevant support plans

An entire review of the LEMA and associated support plans will be done every five years, as risks may vary due to climate, environment and population changes

LEMC TERMS OF REFERENCE

Name

The name of the committee shall be the 'The Shire of Plantagenet Local Emergency Management Committee'.

Aim

To promote a safe, sustainable and a resilient community, through practical planning, hazard mitigation and partnership development, on behalf of the Shire of Plantagenet community and stakeholder groups.

Objectives

- a) To develop emergency management arrangements, that has a practical application to all stakeholders, within the community. These arrangements will be posted to the Shire Website, as updated. They will be made available to the Public and member agencies.
- b) To ensure that the Local Emergency Management Arrangements remain contemporary and relevant to the community, reflecting current community risks.
- c) Monitor committee membership, to ensure that it is representative of community and the identified risks that are presented to community.
- d) To comply with requirements of the <u>Emergency Management Act 2005</u> (specifically <u>State Emergency Management Policy</u> 2.5 –Local Arrangements) for Local Governments and Local Emergency Management Committees, as a minimum.
- e) To actively participate in formal inter-local government and agency relations, so to further emergency management objectives and cooperation.
- f) To take an active role in the continuous improvement of local community resilience, through community safety and awareness campaigns and activities.
- g) Take an active role in disaster recovery planning, through the promotion of an informed and engaged committee.
- h) To advocate and encourage inter-agency exercises that test and improve the capabilities of responsible HMA's, including inter-operability.
- To exercise the Shire of Plantagenet LEMA, to test effectiveness in practical applications, actively seeking continuous improvement (in concert with <u>State Emergency Management Policy</u> 4.8.8 -State Emergency Management Framework).
- j) To comply with other emergency management activities, as directed by the State and District Emergency Management Committees, as described in the <u>Emergency Management Act 2005</u> and SEMP 2.5.
- k) Prepare and submit to the DEMC on an annual basis the LEMC Business Plan.
- To prepare and submit to the District Emergency Management Committee, an annual report of LEMC activities each financial year (State Emergency Management Policy 4.2); and,
- m) Provide a community emergency management interface to HMA/CA in response to an incident. May mean ensuring public information processes are effective and Risk Evaluation Criteria is communicated to the HMA/CA for their decision-making appreciations.

Appendix 5b

4. Membership

Membership of the Shire of Plantagenet LEMC is open to Hazard Management Agencies, Controlling Agencies, support agencies and community members who may include but is not limited to:

Agency	Position	Voting
	Chair (Councillor)	✓
	Deputy Chair	✓
	Local Recovery Coordinator	
	Local Government Liaison Officer	\checkmark
Shire of Plantagenet	Executive Officer	✓
	Administration Support Officer	✓
	Chief Bush Fire Control Officer (CBFCO)	\checkmark
	Community Emergency Services Manager (CESM)	\checkmark
	Shire Executive Managers, if required	✓
WA Police	Local Emergency Coordinator (Local OIC)	✓
Dept. of Communities	Local Evacuation Centre Coordinator	✓
DFES	District Emergency Management Advisor	✓
DFES	District Officer Emergency Management	✓
DFES	Superintendent if required	✓
Volunteer Fire & Rescue Service	Representative	✓
Dept. of Health – Plantagenet District Hospital (PDH)	Representative	✓
Dept. of Biodiversity, Conservation and Attractions (DBCA)	Representative – Albany District Representative – Franklin District	✓
Dept. of Education (Local Principles)	Representative – Mount Barker Community College Representative – Kendenup Primary School	✓
Dept. of Primary Industries & Regional Development (DPIRD)	Representative	✓
Water Corporation	Representative	✓
Western Power	Representative	✓
St. John Ambulance	Representative – Chair, Mount Barker Representative – Chair, Rocky Gully Representative – Community Paramedic	✓ ✓ ✓
Community Members	Representative	✓
CALD Community	Representative	✓
Vulnerable Community	Representative	✓

Appendix 5b

Additional members may be invited as determined by LEMC, to offer specialist advice on a range of matters pertaining to emergency management.

Each voting member is encouraged to have a proxy attend, where they are unavailable.

Appendix 5b

5. Management

The Committee shall consist of a Shire appointed Chairperson, Executive Officer and administrative support officer. The Local Emergency Coordinator (Police OIC) shall act as Deputy Chairperson.

The LEMC Chairperson shall direct and coordinate all meetings.

The Executive Officer shall research and manage information, for the committee and provide information and advice when required.

The Administrative Officer shall record minutes and all meeting proceedings including the transfer of information between members.

6. Meetings

Meetings will be held quarterly on a day, at a time and at a location as determined by the LEMC from time to time.

7. Minutes

In consultation with the LEMC Chairperson and Police OIC, the Executive Officer shall be responsible for preparing the agenda for all LEMC meetings, including the agenda for any sub-committees and working groups.

The LEMC Administrative Officer shall be responsible for keeping detailed minutes of all business tabled at any LEMC meetings. This officer shall then forward these minutes, to the LEMC Chairperson for approval, prior to distribution to LEMC members.

Minutes shall be recorded in the Council records management system.

8. Governance Arrangements

LEMC annual meeting procedures and agenda focus.

Every Meeting	 Confirmation of LEMC contact list currency Review of any incidents and analysis, since last meeting Progress on any risk management processes, Progress on any treatment strategies from the risk management process Progress on development or review of any LEMA Other matters, as determined by Shire or the LEMC
1 st Quarter August	 Development and approval of next financial year LEMC exercise schedule Commencement of development of LEMC Annual Business Plan
2 nd Quarter November	 Preparation of LEMC Annual Report (to be forwarded to DEMC) Finalisation and approval of Annual Business Plan
3rd Quarter February	Identify emergency management projects for possible grant funding
4th Quarter May	National and State funding nominations

GLOSSARY OF TERMS & ACRONYMS

Glossary of Terms

Terminology used throughout this document shall have the meaning as prescribed in either Section 3 of the *Emergency Management Act 2005* or as defined in the <u>State EM Glossary</u>.

Term	Meaning	
AIIMS	Australasian Interagency Incident Management System is a nationally adopted structure to formalise a coordinated approach to emergency incident management.	
Combat	To take steps to eliminate or reduce the effects of a hazard on the community.	
Combat Agency	A Combat Agency prescribed under section 6(1) of the <i>Emergency Management Act 2005</i> is to be a public authority or other person who or which, because of the agency's functions under any written law or specialised knowledge, expertise and resources, is responsible for performing an emergency management activity prescribed by the regulations in relation to that agency.	
Command (Vertically within an Organisation)	The direction of members and resources of an organisation in the performance of the organisation's roles and tasks. Authority to command is established in legislation or by agreement with an organisation. Command relates to organisations and operates vertically within an organisation.	
Control	The overall direction of emergency management activities in an emergency situation. Authority for control is established in legislation or in an emergency plan and carries with it the responsibility for tasking and coordinating other organisations in accordance with the needs of the situation. Control relates to situations and operates horizontally across organisations.	
Controlling Agency (CA)	An agency nominated to control the response activities to a specified type of emergency. The responsibility for being a Controlling Agency stems from either: O legislation other than the Emergency Management Act 2005; or by agreement between the relevant Hazard Management Agency and one or more agencies.	

Coordination	Bringing together organisations and elements for effective response, primarily concerned with systematic acquisition and application of resources (organisation, manpower and equipment) IAW requirements imposed by the threat or impact of an emergency. Coordination relates primarily to resources, and operates, vertically, within an organisation, as a function of the authority to command, and horizontally, across organisations, as a function of the authority to control.		
Disaster	see EMERGENCY		
District	Means an area of the State that is declared to be a district under Section 2.1 of the <i>Local Government Act 1995</i> .		
District Emergency Coordinator (Dec)	The person appointed by the State Emergency Coordinator to provide advice and support to their District Emergency Management Committee in the development and maintenance of emergency management arrangements and carry out other emergency management functions under the direction of the State Emergency Coordinator.		
District Emergency Management Committee (DEMC)	A District Emergency Management Committee established under section 31(1) of the <i>Emergency Management Act 2005</i> .		
Emergency	The occurrence or imminent occurrence of a hazard which is of such a nature or magnitude that it requires a significant and coordinated response. The term "emergency" is used on the understanding that it also includes any meaning of the word "disaster".		
Emergency Management (EM)	 The management of the adverse effects of an emergency including: prevention - the mitigation or preventing of the probability of the occurrence of, and the potential adverse effects of, an emergency. preparedness - preparation for response to an emergency. response - the combating of the effects of an emergency, provision of emergency assistance for casualties, reduction of further damage, and help to speed recovery; and recovery - the support of emergency affected communities in the reconstruction and restoration of physical infrastructure, the environment and community, psychosocial and economic wellbeing. 		
Emergency Risk Management	A systematic process which contributes to the wellbeing of communities and the environment (Australian Disaster Resilience Glossary).		

"Function" Support Coordinator	That person appointed by an organisation or committee to be the coordinator of all activities associated with a particular support function, e.g. Coordinator, Medical Coordinator, etc, and includes coordinating the functions of other organisations that support that particular function, e.g. Red Cross in the State Emergency Relief and Support Plan.
Hazard	An event, situation or condition that is capable of causing or resulting in loss of life, prejudice to the safety, or harm to the health of persons or animals; or destruction of, or damage to property or any part of the environment and is defined in the <i>Emergency Management Act 2005</i> or prescribed in the <i>Emergency Management Regulations 2006</i> .
Hazard Management Agency (HMA)	A public authority, or other person, prescribed by the <i>Emergency Management Regulations 2006</i> to be a Hazard Management Agency for emergency management, or an aspect of emergency management, of a hazard.
Incident	The occurrence or imminent occurrence of a hazard.
Incident Area	The area defined by the Incident Controller for which they have responsibility for the overall management and control of an incident.
Incident Controller (IC)	The person designated person designated by the relevant Controlling Agency, to be responsible for the overall management and control of an incident within an incident area and the tasking of agencies in accordance with the needs of the situation [note: agencies may use different terminology, however, the function remains the same].
Incident Management Team (IMT)	A group of incident management personnel comprising the Incident Controller, and the personnel they appoint to be responsible for the functions of operations, planning and logistics. The team headed by the Incident Controller which is responsible for the overall control of the incident.
Incident Support Group (ISG)	A group of agency/organisation liaison officers convened by the Incident Controller to provide agency specific expert advice and support in relation to operational response to the emergency.
Lifelines	Systems or networks that provide for the circulation of people, goods, services and information upon which health, safety, comfort and economic activity depend.

Local Emergency Coordinator	The person appointed by the State Emergency Coordinator to provide advice and support to their Local Emergency Management Committee in the development and maintenance of emergency management arrangements, assist hazard management agencies in the provision of a coordinated response during an emergency in the district to carry out other emergency management functions under the direction of the State Emergency Coordinator.
Local Emergency Management Committee (LEMC)	A Local Emergency Management Committee established under section 38 of the <i>Emergency Management Act 2005</i> .
Municipality	Means the district of the local government.
Operation	An Incident or multiple Incidents which impact, or is likely to impact, beyond a <u>localised</u> community or geographical area.
Operations Area	The area defined by the Operational Area Manager for which they have overall responsibility for the strategic management of an emergency. This area may include one or more incident areas.
Operations Area Manager	The person designated by the relevant HMA, responsible for the overall management of an operation within a defined operational area and the provision of strategic direction and operational coordination to agencies and Incident Controller(s) in accordance with the needs of the situation.
Operations Area Support Group (OASG)	A group of agency/organisation liaison officers convened and Operational Area Manager to provide agency specific expert advice and support in relation to strategic management of the emergency.
Prevention	The mitigation or prevention of the probability of the occurrence of, and the potential adverse effects of, an emergency.
Preparedness	Preparation for response to an emergency.
Response	The combatting of the effects of an emergency, provision of emergency assistance for casualties, reduction of further damage, and help to speed recovery.
Recovery	The support of emergency affected communities in the reconstruction and restoration of physical infrastructure, the environment and community, and the psychological and economic wellbeing.

Risk	A concept used to describe the likelihood of harmful consequences arising from the interaction of hazards, communities and the environment: o the chance of something happening that will have an impact upon objectives. It is measured in terms of consequence and likelihood; o a measure of harm, taking into account the consequences of an event and its likelihood. For example, it may be expressed as the likelihood of death to an exposed individual over a given period; and o expected losses (of lives, persons injured, property damaged, and economic activity disrupted) due to a particular hazard for a given area and reference period. Based on mathematical calculations, risk is the product of hazard and vulnerability.		
Risk Management	Coordinated activities of an organisation or a government to direct and control risk.		
Risk Register	A register of the risks within the local government, identified through the Community Emergency Risk Management process.		
Risk Statement	A statement identifying the hazard, element at risk and source of risk.		
State Emergency Management Committee (SEMC)	Committee established under section 13 of the <i>Emergency Management Act 2005</i> .		
Support Organisation	A public authority or other person who or which, because of the agency's functions under any written law or specialized knowledge, expertise and resources is responsible for providing support functions in relation to that agency.		
Telecommunications	The transmission of information by electrical or electromagnetic means including, but not restricted to, fixed telephones, mobile phones, satellite phones, e-mail and radio.		
Treatment Options	A range of options identified through the emergency risk management process, to select appropriate strategies' which minimize the potential harm to the community.		
Vulnerability The characteristics and circumstances of a community, system or as make it susceptible to the damaging effects of a hazard. There are aspects of vulnerability, arising from various physical, social, econor environmental factors that vary within a community and over time

ROLES & RESPONSIBILITIES

Various officers, agencies and organisations undertake activities in relation to emergency management in Western Australia. Below is summary of key roles and responsibilities, for more specific details see State EM Plan – Appendix E. For a full list of Management Agencies and Controlling Agencies for Western Australian Hazards see State EM Plan – Appendix C.

Hazard Management and Controlling Agencies

Type of Hazard	Hazard Management Agency	Controlling Agency
AIR CRASH	Commissioner of Police	WA Police Force
ANIMAL OR PLANT, PESTS OR DISEASES	Agriculture Director General	Department of Primary Industries and Regional Development
Injury or threat to life of persons trapped by the COLLAPSE OF A STRUCTURE OR LANDFORM (collapse)	Fire and Emergency Services Commissioner	DFES
CYCLONE	Fire and Emergency Services Commissioner	DFES
EARTHQUAKE	Fire and Emergency Services Commissioner	DFES
LOSS OF OR INTERRUPTION TO THE SUPPLY OF ELECTRICITY that is capable of causing or resulting in loss of life, prejudice to the safety, or harm to the health, of a person (Electricity supply disruption)	Coordinator of Energy	Energy Policy WA
FIRE	Fire and Emergency Services Commissioner	 DFES within gazetted fire districts or where DFES brigade or unit established. DBCA on land it manages outside gazetted fire districts. Shire of Plantagenet in Shire of Plantagenet districts outside of gazetted fire districts and DBCA land.

FLOOD	Fire and Emergency Services Commissioner	DFES
LOSS OF OR INTERRUPTION TO THE SUPPLY OF NATURAL GAS, that is capable of causing or resulting in loss of life, prejudice to the safety, or harm to the health, of a person (gas supply disruption)	Coordinator of Energy	Energy Policy WA
Actual or impending SPILLAGE, RELEASE OR ESCAPE OF A BIOLOGICAL, SUBSTANCE that is capable of causing loss of life, injury to a person or damage to the health of a person, property or the environment	Chief Executive Officer, Department of Health	Department of Health
Actual or impending SPILLAGE, RELEASE OR ESCAPE OF A CHEMICAL, RADIOLOGICAL or other substance that is capable of causing loss of life, injury to a person or damage to the health of a person, property or the environment	Fire and Emergency Services Commissioner	DFES
HEATWAVE	Chief Executive Officer, Department of Health	Department of Health
HOSTILE ACT	Commissioner of Police	WA Police Force
HUMAN EPIDEMIC	Chief Executive Office, Department of Health	Department of Health
LAND SEARCH – for persons lost or in distress, that requires a significant coordination of search operations	Commissioner of Police	WA Police Force
LOSS OF OR INTERRUPTION TO THE SUPPLY OF LIQUID FUEL as defined in the Liquid Fuel Emergency Act 1984 (Commonwealth) section 3(1), that is capable of causing or resulting in loss of life, prejudice to the safety, or harm to the health, of a person (liquid fuel supply disruption)	Coordinator of Energy	Energy Policy WA

Shire of Plantagenet Roles & Responsibilities

Local role	Description of Responsibilities
Shire of Plantagenet	 Responsibilities of the Shire of Plantagenet (the Shire) as a Local Government are defined in Section 36, EM Act: Ensure that effective local emergency management arrangements are prepared and maintained for its district Manage recovery following an emergency affecting the community in its district Perform other functions given to the Shire under the Act The Shire also accepts responsibility for management of its resources The responsibility for co-ordination of community support to counter effects of an emergency during both response to and recovery from emergencies
Local Emergency Coordinator (LEC)	 Development and testing of LEMA The responsibilities of LEC are defined in Section 36 of the EM Act For 'the Shire' the position of Local Emergency Coordinator is held by the WA Police, and represented by the Shire of Plantagenet's local Police Station OIC's having the following functions: To provide advice and support to the LEMC for the district in development and maintenance of emergency management arrangements for the district To assist Hazard Management Agencies in the provision of a coordinated response during an emergency in the district To carry out other emergency management activities in accordance with directions of State Emergency Coordinator
LG Liaison Officer (Emergency Relief & Support)	 During an evacuation where a Shire facility is utilised by Department of Communities provide advice, information and resources regarding the operation of facility.
LG Liaison Officer (to the ISG/IMT)	 During a major emergency, the liaison officer attends ISG meetings to represent Shire of Plantagenet, provides local knowledge input and provides details contained in the LEMA.

Local role	Description of Responsibilities
Shire of Plantagenet – Incident Management	 Where an identified evacuation centre is a building owned and operated by the Shire, provide a liaison officer to support Communities. Ensure planning and preparation for emergencies is undertaken Implement procedures that assist community and emergency services deal with incidents Ensure all personnel with emergency planning and preparation, response and recovery responsibilities are properly trained in role Keep appropriate records of incidents that have occurred to ensure continual improvement of Shire's emergency response capability Liaise with the incident controller (provide liaison officer) Participate in ISG and provide local support
Other Shire of Plantagenet Officers	As determined by the Incident, the following Officers are members of the committee: Shire Chief Executive Officer Shire Local Recovery Coordinator Shire Council Representatives Shire Environmental Health Shire Senior Ranger/ EM Officer Shire Chief Bush Fire Control Officer Local Unit Manager State Emergency Services

Emergency and Support Agencies

Agency	Description Of Responsibilities
Controlling Agency	An agency nominated to control the response activities to a specified type of emergency
	Function:
	Undertake all responsibilities as prescribed in Agency specific
	legislation for Prevention and Preparedness
	Control all aspects of the response to an incident
	During Recovery ensures effective transition to Recovery to LG

Hazard Management Agency	 HMA is a public authority or other person which, because of that agency's functions under any written law or specialised knowledge, expertise and resources, is responsible for EM, or the prescribed EM aspect, in the area prescribed of the hazard for which it is prescribed. [s. 4(3) of the Act] Function: Undertake responsibilities where prescribed for these aspects [EM Regs] Appointment of Hazard Management Officers [s. 55 of the Act] Declare / Revoke Emergency Situation [s. 50 & 53 of the Act] Coordinate the development of the State Hazard Plans for that hazard [SEMP 2.2] Ensure effective transition to recovery by Shire of Plantagenet
Combat Agency	A Combat Agency is to be a public authority or other person who or which, because of the agency's functions under any written law or specialised knowledge, expertise and resources, is responsible for performing an EM activity prescribed by the regulations in relation to that agency
Support Organisation	 A public authority or other person who or which, because of the agency's functions under any written law or specialised knowledge, expertise and resources is responsible for providing support functions in relation to that agency Functions: Restoring essential services affected by the emergency Providing "function" support as part of the tactical plan, e.g. Dept of Communities to provide emergency relief and support services Managing their resources and those given to them in support of their specific function Providing progress reports to the designated Incident Manager or Operations Area Manager Provide an Agency Liaison Officer to participate as part of the Incident Management Group upon request of the HMA/CA Attend post incident debriefs Contributing a post operation report or post incident analysis

Emergency Relief and Support

Agency	Description Of Responsibilities
Department of Communities (Communities)	In alignment with the EM Act and the Emergency Management Regulations 2006 (EM Regulations), the Department of Communities (Communities) is the support organisation responsible for providing and coordinating emergency relief and support services for the 28 prescribed hazards. • Establish, chair and manage the activities of the State Emergency Relief and Support Committee and Emergency Relief and Support Coordination Group, where determined appropriate by Communities District Director • Prepare, circulate, test and maintain the Local Emergency Relief and Support Plans • Represent Communities and the emergency relief and support services function on the LEMC and Local Recovery Group • Establish and maintain the Local Evacuation Centre • Ensure personnel and organisations are trained and exercised in their emergency relief and support responsibilities • Coordinate provision of emergency relief and support services during response and recovery of emergency • Represent Communities on the Incident Support Group when required
Shire Local Government Liaison Officer (Emergency Relief and Support)	 Provide liaison between Communities and the Local Government in the provision of Emergency Relief and Support. (Note: the Liaison Officer role applies even if the facility isn't owned by the Local Government for example if the community were evacuated to a neighbouring Local Government facility the Local Govt. of the evacuated community should still provide a Liaison Officer). Coordinate initial arrangements in lieu of Communities Local Evacuation Coordinator attendance. Provide assistance to the Local Evacuation Centre/s including. Local liaison with the community Maintenance of establishments Opening and closing establishments
Australian Red Cross	 Undertake process recording displaced persons for National Register In partnership with the Shire and Communities undertake Outreach in affected areas

Shire Rangers

• Assist with Animal Management in effected areas and at Evacuation Centres

SHIRE OF PLANTAGENET

BUSH FIRE RESPONSE PLAN

Adopted: 10 November 2008

Revised: 30 September 2024

RECORD OF AMENDMENTS

Suggestions and comments from the bush fire community and stakeholders can help improve this plan and later reviews.

To send feedback, copy the relevant section, mark the proposed changes and forward to:

Chairperson

Bush Fire Advisory Committee

Shire of Plantagenet

PO Box 48

Mount Barker WA 6324

The Chairperson will refer to any correspondence to the BFAC executive for consideration and/or advice to the Shire Council.

Amendments promulgated are to be certified in the following table, when updated.

Number	Date	Amendment summary	Author
1	4 February 2009	Version 1.0	David Burcham
2	30 September 2024	Major review Draft	Mike Barnes
3	30 April 2025	Review amendments after one season	Mike Barnes

PART ONE - Response

1.1 Requests for Out Of Area Assistance to Plantagenet

Requests for resources outside of the Great Southern must be made through the Department of Fire and Emergency Service (DFES) Great Southern Regional Offices, via the Regional Duty Coordinator (RDC) on 1800 314 644. These requests must be authorised refer to section 1.1.1, 1.1.2 and 1.1.3

1.1.1 Requests for Assistance from Neighbouring Local Governments

These must be made by one of the following persons: Incident Controller (IC), Chief Bush Fire Control Officer (CBFCO), Deputy Chief Bush Fire Control Officer (DCBFCO) or the Community Emergency Services Manager (CESM). Requests must be authorised by the Shire of Plantagenet (CBFCO, DCBFCO, or CESM).

1.1.2 Requests to the Great Southern Region

Requests must come from DFES. These requests, to assist other incidents outside of the Plantagenet Shire, must be in consultation between the Plantagenet CBFCO, DCBFCO and CESM.

DFES will assume responsibility for all costs and insurance.

1.1.3 Outside of the Great Southern Region, including interstate

Requests must come from DFES. These requests, to assist incidents outside of the Plantagenet Shire, must be in consultation between the Shire of Plantagenet Chief Executive Officer (CEO), CBFCO, DCBFCO and CESM.

DFES will assume responsibility for all costs and insurance. Requests must be authorised by the CEO.

As part of the request, the following information should be provided:

- What type of resources are required.
- How many resources are required.
- What duties will these resources be doing.
- Specific duties / positions fire fighters may need to perform and any minimum training levels; and
- Length of time required.

1.2 Incident Levels

The decision of which level an incident should be classified <u>must</u> be based on its <u>potential</u> under the current and predicted fire weather, resource status and other commitments. The early declaration of the incident level enables decision makers to respond in a timely manner with an appropriately weighted response.

1.3 Response Guidelines

Bushfire response will be based on the Grassland Fire Danger Rating issued by BOM.

Fire Danger - Index 0-23 Initial Mobilisation

IC to ensure a log is maintained of the incident for reporting purposes.

Turn out via SMS message and BART.

The local Volunteer Bush Fire Brigade (VBFB) will turn out to the incident and identify the Incident Controller to 6TN Base / network.

The CESM will acknowledge the call and gather any additional information from the Communications Centre (ComCen). This information is to then be passed on to the IC. The CESM will then proceed to the incident.

A radio base station is to stand by and monitor the incident, maintain a log and pass on any critical information.

Depending on the jurisdiction this can be a 6TN base radio operator or depending upon the scale of the incident an Incident Control Vehicle (ICV) with crew is to be requested.

The most senior experienced fire officer arriving at the incident will become the IC. This will usually be either the captain or an FCO.

The IC will determine a Control Point (CP) where incoming and outgoing crews will be briefed in the incident.

This could be part of a Forward Control Point (FCP).

The first arriving appliance must provide information, in the form of a PAFTACS format to the IC. The CBFCO, DCBFCO and CESM are to monitor the fire radio traffic.

The IC will then decide on scaling up or down as the PAFTACS information dictates.

Consideration should be given to the use of Water bombers. A Ground Controller (GC) will need to be identified prior to contacting DFES for the water bombers.

Contact DFES Regional Duty Officer Ph: 1800 314 644 with at least one of the following pieces of Information.

- Public Safety at Risk
- Fire Crews in Imminent Danger
- Assets at Imminent Risk
- Known high fuel loads and likelihood of excessive Rate Of Spread (ROS) and or extreme fire danger.
- Prescribed burn.

If the fire occurs in or near to jurisdictional boundaries (other LGs, DBCA or plantations), then respective agencies or plantation companies will need to be notified.

PF Olsen - $1800\,054\,659$, APEC - $9845\,3800$, APFL - $9845\,3777$, ENTS - $0429\,920\,288$, ABP - $9842\,8581$, DBCA Southcoast $9842\,4500$ or Walpole $0417\,939\,607$ or the local government.

The information must be provided to the agency/plantation company following PAFTACS format. Attachment 4

Sector situation reports should be provided by the sector commanders every hour or as required to the IC. Blank sector report forms are in the attachments.

The information must be provided to the agency/plantation company following PAFTACS format. Attachment 4

Consideration should be given to implementing a Harvest and/or Vehicle Movement Ban.

Note 1: Where it is likely that the fire will be contained to a small area (e.g. small fire within a backyard in an urban area or a low intensity fire at night) the IC can immediately scale down the predetermined mobilisation.

Note 2: Where it is likely that the fire will escalate rapidly, additional resources should be activated and/or placed on standby.

Note 3: It is the responsibility of the Incident Controller to ensure a log of their actions, decisions and safety messages are kept.

Fire Danger 24-30 – Initial Mobilisation

IC to ensure a log is maintained of the incident for reporting purposes.

A minimum turn out of two appliances are to respond.

A decision must be made by the IC, once a PAFTACS report is received from the first arriving appliance, whether the initial response should be scaled up or down.

This decision must be based on expected fire behaviour, spread, difficulty in containing the fire and values at risk.

Turn out via SMS message & BART.

The local Volunteer Bush Fire Brigade (VBFB) will turn out to the incident with two appliances and identify the Incident Controller to 6TN Base/ network

If the brigade only has one appliance, then the captain is required to turn out a second brigade to assist.

The CESM will acknowledge the call and gather any additional information from the Communications Centre (ComCen). This information is to then be passed on to the IC. The CESM will then proceed to the incident.

A radio base station is to stand by and monitor the incident, maintain a log and pass on any critical information.

Depending on the jurisdiction this can be a 6TN base radio operator or depending upon the scale of the incident an Incident Control Vehicle (ICV) with crew is to be requested.

The most senior experienced fire officer arriving at the incident will become the IC. This will usually be either the captain or an FCO.

The IC will determine a Control Point (CP) where incoming and outgoing crews will be briefed in the incident.

This could be part of a Forward Control Point (FCP).

The IC will then decide on scaling up or down as the PAFTACS information dictates.

The first arriving appliance must provide information, in the form of a PAFTACS format to the IC. The CBFCO, DCBFCO and CESM are to monitor the fire radio traffic.

Other brigades will be placed on standby or turned out immediately, depending on expected fire behaviour, spread, forecast weather conditions and values at risk.

Consideration should be given to the use of Water bombers. A Ground Controller (GC) will need to be identified prior to contacting DFES for the water bombers.

Contact DFES Regional Duty Officer Ph: 1800 314 644 with at least one of the following pieces of Information.

- Public Safety at Risk
- ♣ Fire Crews in Imminent Danger
- Assets at Imminent Risk
- Known high fuel loads and likelihood of excessive Rate Of Spread (ROS) and or extreme fire danger.
- Prescribed burn.

The Operations Officer in consultation with the Public Information Officer are to advise DFES media of all public warning areas including the action statements. Authorised by the IC.

If the fire occurs in or near to jurisdictional boundaries (other LGs, DBCA or plantations), then respective agencies or plantation companies will need to be notified.

PF Olsen - 1800 054 659, APEC - 9845 3800, APFL - 9845 3777, ENTS - 0429 920 288, ABP - 9842 8581, DBCA Southcoast 9842 4500 or Walpole 0417 939 607 or the local government.

The information must be provided to the agency/plantation company following PAFTACS format.

The CBFCO or DCBFCO are to monitor the operation and turnout to the incident if requested by the IC.

Consult with the IC and provide advice if requested on scaling of fire control and incident management operations.

Sector situation reports should be provided by the sector commanders every hour or as required to the IC. Blank sector report forms are in the attachments.

The IC is responsible for scaling the fire operations and incident management team as required. Consultation may be sort through the CBFCO, DCBFCO or CESM.

A Harvest and/or Vehicle Movement Ban should be implemented.

Note1: Where the fire cannot be readily contained or controlled, consideration should be given to activating an IMT to manage the fire.

Note2: Where it is likely that the fire will not be contained and controlled and will continue to burn when the fire danger increases to Extreme or Catastrophic an IMT must be activated.

Note 3: It is the responsibility of the Incident Controller to ensure a log of their actions, decisions and safety messages is kept.

Fire Danger Index of 30 - 50 - Initial Mobilisation

IC to ensure a log is maintained of the incident for reporting purposes.

A minimum turn out of four appliances are to respond.

A decision must be made by the IC, once a PAFTACS report is received from the first arriving appliance, whether the initial response should be scaled up or down.

This decision must be based on expected fire behaviour, spread, difficulty in containing the fire and values at risk.

Turn out via SMS message & BART.

The local Volunteer Bush Fire Brigade (VBFB) will turn out to the incident with four appliances and identify the Incident Controller to 6TN Base/ network

If the brigade has less than four appliances, then the captain is required to turn out a second and/or third brigade to assist. Adjoining brigades may need to be placed on standby.

The CESM will acknowledge the call and gather any additional information from the Communications Centre (ComCen). This information is to then be passed on to the IC. The CESM will then proceed to the incident.

A radio base station is to stand by and monitor the incident, maintain a log and pass on any critical information.

Depending on the jurisdiction this can be a 6TN base radio operator or depending upon the scale of the incident an Incident Control Vehicle (ICV) with crew is to be requested.

The most senior experienced fire officer arriving at the incident will become the IC. This will usually be either the captain or an FCO.

The IC will determine a Control Point (CP) where incoming and outgoing crews will be briefed in the incident.

This could be part of a Forward Control Point (FCP).

The first arriving appliance must provide information, in the form of a PAFTACS format to the IC. The CBFCO, DCBFCO and CESM are to monitor the fire radio traffic.

The IC will then decide on scaling up or down as the PAFTACS information dictates.

Consideration should be given to the use of Water bombers. A Ground Controller (GC) will need to be identified prior to contacting DFES.

Contact DFES Regional Duty Officer Ph: 1800 314 644 with at least one of the following pieces of Information.

- Public Safety at Risk
- Fire Crews in Imminent Danger

- Assets at Imminent Risk
- Known high fuel loads and likelihood of excessive Rate Of Spread (ROS) and or extreme fire danger.
- Prescribed burn.

The CBFCO, Deputy or CESM are to be notified and obtain an incident weather forecast from BOM.

If the fire occurs in or near to jurisdictional boundaries (other LGs, DBCA or plantations), then respective agencies or plantation companies will need to be notified.

PF Olsen - 1800 054 659, APEC - 9845 3800, APFL - 9845 3777, ENTS - 0429 920 288, ABP - 9842 8581, DBCA Southcoast 9842 4500 or Walpole 0417 939 607 or the local government.

The information must be provided to the agency/plantation company following PAFTACS format.

The CBFCO or DCBFCO are to monitor the operation and turn out to the incident if requested.

Consult with the IC and provide advice if requested on scaling of fire control and incident management operations.

A Harvest and/or Vehicle Movement Ban will be implemented if not already in place. A total fire ban may be in place.

An IMT may be activated. The IC assumes control of the IMT and appoints an Operations Officer (OO) for the control of all physical and human resources required to fight the fire.

The IC determines the incident control structure choosing as a minimum from the following – Operations Officer, Planning Officer, Logistics Officer and Public Information Officer, these should be considered as a minimum.

The location of the Forward Control Point (FCP) and Staging Points should be in consultation with the OO.

A FCP for operations should be established this may be part of a predetermined response plan for an area or on a request from the IC.

Consideration should be given to activating one of the Shire's Incident Control Centres (ICC)

Consideration on requesting the Incident Control Vehicle (with crew) should be given.

Support personnel to assist with the management of the incident are to be requested from the Shire staff and/or through DFES RDC.

Mount Barker Police to be notified of the fire, ph: 9851 1122

Additional resources are placed on standby or activated (as determined by the IC/OO). i.e. State Emergency Service.

The IC provides information on the fire to the relevant agencies, the police and where appropriate plantation companies other LGs and the Department of Biodiversity, Conservations and Attractions. (ISG)

Arrange public warnings through DFES Australian Warning System, the Shire Bushfire Information Line and ABC Radio.

Public information to be timely and accurate.

The Operations Officer in consultation with the Public Information Officer are to advise DFES media of all public warning areas including the action statements. Authorised by the IC.

Sector situation reports should be provided by sector commanders every hour or as required by the IMT. Blank sector report forms are in the attachments

The IC scales fire control operations and incident management as required.

Consider placing St John Ambulance on standby.

If 50 or more personnel are on the fire ground, then St John Ambulance must be on standby at the staging point.

Consider handing over to DFES under Section13 or to DBCA under section 45 of the Bush Fires Act 1954, if the incident is protracted or all available local resources are used.

Note 1: It is the responsibility of the Incident Controller to ensure a log of their actions, decisions and safety messages is kept.

Fire Danger Index 50 and above – Initial Mobilisation

IC to ensure a log is maintained of the incident for reporting purposes

All available appliances to the adjoining primary brigade are to turn out.

A decision must be made by the IC, once a PAFTACS report is received from the first arriving appliance, whether the initial response should be scaled up or down.

This decision must be based on expected fire behaviour, rate of spread, difficulty in containing the fire and values at risk.

A preformed Incident management team needs to be identified and communicated

As a minimum:

- Incident Controller CBFCO or DCBFCO.
- Operations Officer experienced FCO/Sector commander
- Public information Officer Shire's public information officer (can be requested from DFES as soon as the incident starts).
- Support personnel Brigade auxiliary and or Shire staff

Turn out via SMS message & BART.

The local Volunteer Bush Fire Brigade/s (VBFB) will turn out to the incident with all appliances and turn out all adjoining brigades and identify the Incident Controller to 6TN Base/ network.

The CESM will acknowledge the call and gather any additional information from the Communications Centre (ComCen). This information is to then be passed on to the IC. The CESM will then proceed to the incident.

A radio base station is to stand by and monitor the incident, maintain a log and pass on any critical information.

Depending on the jurisdiction this can be a 6TN base radio operator or depending upon the scale of the incident an Incident Control Vehicle (ICV) with crew is to be requested.

The IC will determine a Control Point (CP) where incoming and outgoing crews will be briefed in the incident.

This could be part of a Forward Control Point (FCP).

The first arriving appliance must provide information, in the form of a PAFTACS format, to the IC. The CBFCO, DCBFCO and CESM are to monitor the fire radio traffic.

The IC will then decide on scaling up or down as the PAFTACS information dictates.

Water-bombing aircraft and the air attack supervisor are to be requested through the DFES Regional Duty Coordinator on 1800 314 644.

Contact DFES Regional Duty Officer Ph: 1800 314 644 with at least one of the following pieces of Information.

- Public Safety at Risk
- ♣ Fire Crews in Imminent Danger
- Assets at Imminent Risk
- Known high fuel loads and likelihood of excessive Rate Of Spread (ROS) and or extreme fire danger.
- Prescribed burn.

The IC is to notify the CBFCO (if not the IC) and obtain an incident weather forecast from BOM.

If the fire occurs in or near to jurisdictional boundaries (other LGs, DBCA or plantations), then respective agencies or plantation companies will need to be notified.

PF Olsen - 1800 054 659, APEC - 9845 3800, APFL - 9845 3777, ENTS - 0429 920 288, ABP - 9842 8581, DBCA Southcoast 9842 4500 or Walpole 0417 939 607 or the local government.

The information must be provided to the agency/plantation company following PAFTACS format.

The CBFCO or DCBFCO (if not the IC) are to monitor the operation and turn out to the incident and provide support to the IC.

Consult with the IC and provide advice if requested on scaling of fire, control and incident management operations. Consideration shall be given to handing the incident over to either DFES or DBCA should the conditions show that the incident will be protracted and of a level 2 nature or above.

An IMT shall be activated.

The IC assumes control of the IMT and appoints an Operations Officer for the control of all physical and human resources required to fight the fire including briefing incoming and outgoing crews.

The IC determines the incident control structure choosing from the following – Operations Officer, Planning Officer, Logistics Officer and Public Information Officer should be considered as a minimum.

The location of the Forward Control Point (FCP) and Staging Point should be in consultation with the OO.

A FCP for operations should be established (this may be part of a predetermined response plan for an area or on a request from the IC).

Consideration should be given to activating the Shire's Incident Control Centre (ICC), either the Shire Chambers or Frost Park. (more information on ICCs may be found in the Local Emergency Management Arrangements)

Establish a staging post for incoming and outgoing crews.

Request the Incident Control Vehicle from DFES (comes with crew).

Support personnel to assist with the management of the incident are to be dispatched.

Mount Barker Police to be notified of the fire. ph: 9851 1122

Additional resources are placed on standby or activated (as determined by the OO).

The IC provides information on the fire to the Incident Support Group (ISG) which are the relevant agencies.

Public information to be timely and accurate.

The Operations Officer in consultation with the Public Information Officer are to advise DFES media of all public warning areas including the action statements. Authorised by the IC.

Sector situation reports should be provided by sector commanders every hour or as required by the Operations Officer.

If the fire occurs in or near to jurisdictional boundaries (other LGs, DBCA or plantations), then respective agencies or plantation companies will be notified on 1800 054 659 (PF Olsen for Plantations), DBCA Southcoast 9842 4500 or Walpole 0417 939 607 or the local government.

The information must be provided to the agency/plantation company following PAFTACS format.

Consider St John Ambulance on Standby.

If 50 or more personnel are on the fire ground, then St John Ambulance <u>must</u> be on standby at the staging point.

IMT Meetings to be conducted at 10.00am, 4.00pm, 10.00pm and 4.00am daily.

The IC scales fire control operations and incident management up and down as required.

Consider handing over to DFES under Section13 or to DBCA under section 45 of the Bush Fires Act 1954, if the incident is protracted or all available local resources are used, the incident will be protracted or has become a multi-agency fire.

Note 1: It is the responsibility of the Incident Controller to ensure a log of their actions, decisions and safety messages is kept

PART TWO - Communications

2.0.1 High Band VHF Repeater Channels

Plantagenet High Band VHF Repeater Brigade Channels are 268 (East) and 312 (West). The channels are linked and can be unlinked if required.

DFES Command Channels are 267 (East) and 311 (West) which are also linked. These are also the backup channels for the Shire should 268 or 312 fail.

Mt Barker Volunteer Fire and Rescue Service utilise the simplex channel 365.

2.0.2 UHF Citizen Band Channels

Channel 15 is the primary emergency initial response channel for fire in all parts of the Shire. It is NOT a repeater channel. Sector channels are available for sectors at larger incidents. See 2.5 and Communication plans attachment 2 & 3.

2.1 General Operational Procedures

2.1.1 Initial Response

Each high band VHF radio operator will choose the brigade repeater channel applicable that gives the best reception (East or West). If unable to contact the IC, the DFES Command Channel (East or West) should be tried in case the brigade repeaters have failed.

Each UHF CB radio operator on arrival at a fire will use Channel 15 to establish contact with the IC, convey their call sign and wait to receive instructions. When first arriving at a fire, operators should use Channel 15 to notify the IC or OO.

2.1.2 Major and Minor Bushfire Incidents

Follow the initial response procedures. Arriving resources will be assigned to a task or a sector.

The IC will determine a UHF channel from the communications plan (attached) to communicate with either the Incident Controller or the relevant Sector Commander.

2.2 Communications Structure

The Incident Controller will use Channels 268 or 312 depending on location. Dual Band receive mode will be used with UHF Channel 15. This will enable contact to be made with all incoming resources and Sector Commanders.

Sector Commanders will use their allocated UHF Channel as their primary channel and channel 268 or 312 (command channel) will be monitored secondarily in dual band receive mode.

All other general fire fighting resources will use their allocated UHF sector channel for fire ground traffic and communications with their Sector Commander. Channel 268 or 312 should not be monitored in dual band receive mode for these fire fighting resources.

If two sectors are established, then two CB channel radios will need to be monitored.

If more than two sectors are established, then consider activating the Incident Control Vehicle (ICV) with crew from Albany.

It is important when a resource is moving from one sector to another that the outgoing and incoming sector commanders have been informed of the change of sector and the known approximate time of when to expect the resource. Then wait for further instructions.

If the correct radio operating procedures are used, it will greatly assist Fire Control Officers to manage fire fighting resources more effectively and to make safer and timely decisions in dangerous fire situations.

2.5 WAERN Guide for the Shire of Plantagenet

VHF	BFB & VFRS	UHF BFB	DBCA	DFES
Location	Channel	Initial Channel	Channel	DFES Command

PART THREE - Weather Information

Incident weather reports are available 24/7 from the Bureau of Meteorology (BoM).

All weather information can be accessed through the BoM home page on the internet:

www.bom.gov.au

The incident weather reports can be found in the registered users page. http://reg.bom.gov.au/reguser/by_user/bomw0336/

Follow the Registered Users link to General User.

Access in by using:

Username: bomw0336

Password: hat99tEr

(Note that the password is case sensitive)

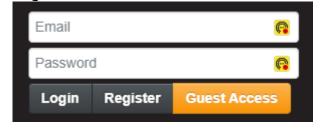

For additional weather information, and Incident Weather forecasts, the following contacts are available:

Requests for an incident weather forecast must go through.

- 1. CESM
- 2. DFES Regional Duty Officer

To access the Satellite Remote Sensing Service (Firewatch), log on to https://firewatch-pro.landgate.wa.gov.au/home.php

Login as Guest Access

PART FOUR – Shire of Plantagenet Contact Details

PART SIX – External Resources

Shire of Plantagenet Resources

The Shire has the following plant available in the event of an emergency:

- Graders x 3
- Skid steer x 3
- Water Truck x 1
- Loaders x 2
- Backhoe x 1
- Low Loader x 1
- Plant Trailer x 1
- Semi x 1
- 2 x 6-wheeler trucks (which can be fitted with water tanks)
- 2 x 8t trucks and
- 2 x 4t trucks.
- Fuel Trailer x 2

If these resources are required, then the request can be forwarded to any of the senior members of staff in order:

•	1	CESM –	0447 091 159	Mike Barnes
•	2	EMDR –	0419 697 824	André Pinto
•	3	EMIA –	0472 714 786	Kevin Hemmings
•	4	EMCC -	0473 812 316	Anthony Middleton
•	5	CEO –	0417 916 400	Julian Murphy

If you are unable to raise any of the senior staff, then contact should be made with the Shire President see contact directory.

PART SEVEN - Incident Control Centres (ICC)

Incident Control Centres (ICCs) are the focus for the coordination and control of activities in an emergency.

Pre-planning requires that the location of ICCs be clearly identified. The facilities to accommodate the requirements and functions of the IMT, Incident Management Group (ISG) or Operation Area Management Group (OAMG) ideally will meet the following minimum set of standards:

- 1 mobile telephone.
- email facility and computer facilities.
- mobile telephone reception.
- separate meeting facility.
- VHF radio network facilities; and
- suitable ablution facilities.

7.1 Primary Incident Control Centre

Shire of Plantagenet, Lowood Road, Mt Barker.

Telephone 08 9892 1111.

Facilities include alternate power source (generator), three independent telephone lines, internet access, dual band VHF radio, white boards, maps, separate meeting rooms, computer facilities, kitchen and ablutions.

For more information consult the Local Emergency Management Arrangements (LEMA)

7.2 Regional Operation Centres

DFES Regional Headquarters	DBCA South Coast Region
5 Hercules Crs, ALBANY	120 Albany Hwy, ALBANY
Ph: 9845 5000	Ph: 9842 4500

7.3 Operation Points/Forward Bases:

Shire of Plantagenet Office Αll facilities available including independent power source Kendenup Bush Fire Brigade Shed All communications, ablutions but no computer access. Perillup Bush Fire Brigade Shed Mobile phone signal, ablutions but no computer access. Does have Cel-Fi. Porongurup Bush Fire Brigade Shed Mobile phone signal, ablutions but no computer access. Narrikup Bush Fire Brigade Shed Mobile phone signal, ablutions but no computer access, Narrikup Hall next door. Rocky Gully Bush Fire Brigade Shed Mobile phone signal, ablutions next to the shed, but no computer access. Woogenellup Bush Fire Brigade Shed Mobile phone signal, ablutions but no computer access, Woogenellup Hall next door. Suitable for communications and internet Incident Control Vehicle (DFES) including Star Link Mt Barker Police Station All facilities available. No independent power source, Starlink available.

SHIRE OF PLANTAGENET POLICY: EMERGENCY MANAGEMENT

1. Overview

The purpose of the Emergency Management Policy (the policy) is to provide a framework for the mitigation and management of emergency incidents within the Shire of Plantagenet. Emergencies are those which endanger or threaten to endanger lives, property or the environment, and which require a significant and coordinated response, and cannot be addressed through normal operational procedures.

Effective emergency management arrangements enhance the community's resilience against emergencies through strategies that apply prevention, preparedness, response and recovery (PPRR) activities.

The Shire of Plantagenet has been designated as a specified area under Part 3 Section 35 of the <u>Emergency</u> <u>Management Act 2005</u>. For the purposes of managing emergencies in the Shire of Plantagenet, this designation places the responsibilities for emergency management upon the Shire.

2. Objectives

The key objectives of the policy are to:

Minimise impact from emergencies within the Shire of Plantagenet on community, staff and property

Coordination of successful disaster recovery for community using the Local Recovery Plan and Shire Business Continuity Plan

Reduce the consequences of emergencies by providing and supporting the Shire of Plantagenet Local Emergency Management Committee who utilise sound emergency management and risk management principles

3. Scope

This policy applies to all emergency incidents in the areas encompassed by the Shire of Plantagenet, as defined in the *Local Government Act* (1995).

These arrangements serve as a guide to emergency management at the local level. An emergency may escalate and require management at a district or state level. 2

Appendix 5a

4. Definitions

Designated Shire Officer

Shire staff member or contractor designated as a representative of the Shire in regard to performance of duties related to emergency management / response as required.

Emergency

The occurrence or imminent occurrence of a hazard which is of such a nature or magnitude that it requires a significant and coordinated response.

Emergency Management

The management of the adverse effects of an emergency including prevention, preparedness, response and recovery (PPRR).

Hazard Management Agency (HMA)

A public authority, or other person, prescribed by the *Emergency Management Regulations 2006* to be a hazard management agency for emergency management, or an aspect of emergency management, of a hazard.

Hazard

An event, situation or condition that is capable of causing or resulting in loss of life, prejudice to the safety, or harm to the health of persons or animals; or destruction of, or damage to property or any part of the environment and is defined in the *Emergency Management Act 2005* or prescribed in the *Emergency Management Regulations 2006*.

Incident Controller

The person designated by the relevant Controlling Agency, to be responsible for the overall management and control of an incident within an incident area and the tasking of agencies in accordance with the needs of the situation.

Local Emergency Management Committee (LEMC)

A local emergency management committee established under Section 38 of the *Emergency Management Act* 2005.

Local Emergency Coordinator

The person appointed by the State Emergency Coordinator (WA Commissioner of Police) to provide advice and support to their local emergency management committee in the development and maintenance of emergency management arrangements, assist hazard management agencies in the provision of a coordinated response during an emergency in the district and carry out other emergency management functions under the direction of the State Emergency Coordinator.

5. Policy Statement/s

It is the policy of the Shire that:

Effective Local Emergency Management Arrangements (LEMA), inclusive of specific local emergency plans, will be prepared and maintained for the Shire Plantagenet, consistent with the State Emergency Management Policy, State Emergency Management Plan, and relevant State Hazard Plans, State Support Plans and National Plans.

Advice and support will be provided to the Shire of Plantagenet LEMC in the development of the Shire LEMA.

Emergency management activities will be undertaken in accordance with the Shire of Plantagenet LEMA.

Potential risks within the Shire of Plantagenet will be assessed and strategies developed to eliminate or reduce the likelihood of emergencies occurring in accordance with the ISO 31000:2018 Risk Management – Guidelines.

Designated Shire officers will assist hazard management agencies in the provision of a coordinated response during an emergency incident in Shire of Plantagenet.

Measures will be maintained wherever possible, ensuring that should an emergency occur, resources and services are capable of coping with the effects of the incident.

Following an emergency, appropriate action will be taken to return the site and / or infrastructure to normal operational conditions, and to develop and implement strategies to identify and manage the ongoing social and psychological needs of those affected by the emergency (i.e. Recovery phase).

Other emergency management activities e.g. evacuation, emergency relief and support provision etc. will be undertaken in accordance with the advice of LEMC partnering agencies.

6. Roles and Responsibilities

The Shire Chief Executive Officer is responsible for developing and implementing the procedures to ensure compliance with this policy.

All Shire staff have a responsibility to comply with the policy and to provide support as requested by the Incident Controller / Local Emergency Coordinator during an emergency incident.

7. Statutory Compliance

The policy reflects the requirements of:

- Emergency Management Act 2005
- > Emergency Management Regulations 2006
- State Emergency Management Policy (2024) and State Emergency Management Plan (2024)
- Shire of Plantagenet Local Emergency Management Arrangements (LEMA 2025)
- Shire of Plantagenet Local Recovery Plan (2025)

8. Effective Date

This policy is effective from June 2025.

9. Review Date

This policy will be reviewed every two (2) years.

10. Custodian

The Shire Chief Executive Officer is responsible for the development and management of the Emergency Management Policy.

11. Policy Authorisation

This policy details the Shire of Plantagenet policy for emergency management in the Shire.

DEFINING - HIGHER RISK PERSONS & GROUPS (HRPG)

Higher Risk Persons and Groups (HRPG) within the overall population have a higher risk degree of demographic or socioeconomic vulnerability, rendering them more likely to be adversely affected by disaster. They can be defined by the characteristics of a person or group that affect their capacity to anticipate, cope with, resist, and recover from the impact of a disaster (natural or non-natural).

A definition that could be considered for "Higher Risk" persons and groups is:

Having concerns with Communication, Medical, Independence, Supervision, and Transportation services and homelessness.

2.1 Influencing Factors: HRPG

2.1.1 Socioeconomic Status

Includes employment, income, housing (e.g. homelessness) and education level. People with lower socioeconomic status are more likely to lack resources needed to follow instructions on emergency preparedness. They might be unable to stockpile food, for example, or not have the ability to evacuate.

2.1.2 Age

The old and the young are particularly vulnerable during emergencies. Older adults are more likely to have medical problems that put them at an increased risk during a disaster. They might have limited sight, hearing, cognitive ability and physical strength.

Young children are also more at risk. They have yet to develop the resources, knowledge, or understanding to effectively cope with disaster, and they are more susceptible to injury and disease. Young children are also more vulnerable when they are separated from their parents or guardians, for example, at school or in day-care.

2.1.3 Visitors

Tourists or people visiting the area may be unaware of possible hazards and potentially be unprepared if an emergency occurs. Majority of travellers will be unfamiliar with the local area.

2.1.4 Culturally and Linguistically Diverse (CaLD)

People with limited English proficiency have a limited ability to read, speak, or write in English. These groups might/may have trouble understanding emergency directives if language barriers are not addressed when developing emergency alert messages. Race and ethnicity contribute to social vulnerabilities and are tied to issues of socioeconomic status. Social and economic marginalisation contributes to the vulnerability of these groups.

2.2 Medical Issues and Disability

Persons with a disability include those with a cognitive, physical, or sensory impairment that limits a major life activity. People with physical impairments might include those with limited sight, hearing, or mobility or those who are dependent on electric power to operate medical equipment. For many people with medical conditions and disabilities, their ability to hear, understand, or respond to a warning is impaired. This category also includes individuals with access and functional needs.

2.3 Shire Plantagenet Higher Risk Persons & Groups (HRPG):

2.3.1 Childcare Facilities and Schools

Plantagenet engage and work with Childcare facilities and school groups and their networks how?

2.3.2 Living with Disabilities

Plantagenet engage and work with Disability services groups and their networks how?

2.3.3 Residential Aged Care (RAC) and Independent Living (IL) facilities

Plantagenet community engagement and work with these groups and their networks how?

2.3.4 Culturally and Linguistically Diverse (CALD) groups

Plantagenet engage and work with CALD groups and their networks how?

3. INTRODUCTION

3.1 Aim

To define emergency management arrangements relating to the evacuation, emergency relief and support and care of Higher Risk Persons and Groups (HRPG) and related support networks, before, during and after emergencies throughout the Shire of Plantagenet (hereby referred to as 'the Shire).

3.2 Objectives

(1) - Detail actions, roles and responsibilities for prevention, preparedness, response and recovery arrangements within the Shire of Plantagenet for higher risk communities.

(2) - Identify emergency management arrangements between all stakeholders and networks in response and recovery from an emergency within the Shire of Plantagenet for higher risk communities.

(3) - Provide an interface to enable integration with other emergency plans within the Shire of Plantagenet and State.

(4) - Provide a reference for all higher risk communities and their networks required to respond and recover from emergencies within the Shire of Plantagenet.

3.3 Scope

This Plan covers the Shire of Plantagenet Local Emergency Management Arrangements that apply to responders and Higher Risk Persons and Groups (HRPG) and their networks that may become involved with managing and responding and recovering from emergencies within the Shire of Plantagenet.

3.4 Related Documents

This Plan forms part of the Shire of Plantagenet Local Emergency Management Arrangements (LEMAs) and should be read in conjunction with these plans and their related support documents. They also interface with other hazard specific, emergency management and recovery plans at local, district and state levels.

3.5 Plan Responsibilities

The Shire is responsible for developing, implementing and revising this Plan in consultation with key stakeholders, combat agencies and other support organisations in accordance with the related Emergency Management and other related Legislation.

4. EMERGENCY MANAGEMENT FOR HIGHER RISK PERSONS & GROUPS (HRPG)

4.1 Planning

In accordance with the Western Australian Community Evacuation in Emergencies Guideline, Local Emergency Management Plans are to include information which will assist the Controlling Agency in the operational planning process. This includes having specific arrangements in place for Higher Risk Persons and Groups, such as unaccompanied children, schools, aged care facilities, caravan and holiday parks, persons with disabilities, and culturally and linguistically diverse communities (CALD), disadvantaged (e.g. homelessness).

4.2 Higher Risk

Higher Risk (social vulnerability) is defined by the characteristics of a person or group that affect their capacity to anticipate, cope with, resist and recover from the effects of disasters and emergencies.

Commonly accepted categories include:

Socioeconomic status	Race and ethnicity
Age	Medical issues
English language proficiency	Disabilities
The disadvantaged (homeless)	

4.3 Higher Risk Persons & Groups in Emergency Management Cycle

4.3.1 Prevention

✓ Developing specialised HRPG Plan for community members.

4.3.2 Preparedness

- ✓ Create evacuation contingencies for higher risk community members.
- ✓ Conduct outreach and engagement.
- ✓ Determine additional resource requirements.
- ✓ Consider evacuation facilities, transport and special requirements.

4.3.3 Response

✓ Consider resource allocations in emergencies.

✓ Provide target data for Incident Management Team use.

✓ Prioritise response efforts for higher risk communities.

✓ Customise communication efforts.

4.3.4 Recovery

✓ Determine resource allocation.

✓ Identify higher risk sub populations that are least resilient.

✓ Track recovery and any on-going problems.

4.4 Organisational Roles and Responsibilities

Organisations with responsibilities identified under this Plan are listed in the following table. Participating organisations will be required to provide assistance under this Plan in the event of an emergency, which will, or may, affect higher risk persons and groups, directly or indirectly.

Agency / The Shire	Roles / Responsibility
Department of Fire and Emergency Services (DFES)	Hazard ManagementEvacuation decisions and coordinationSupport Agency
Department of Communities	 Evacuation centres Emergency Relief and Support Plan Financial assistance to affected persons Displaced persons
Western Australia Police Force (WAPF)	 Hazard Management Traffic Management Investigation and enforcement Alerts and evacuation execution
Disability Services	Client contact databaseIdentification of specialist requirements
Shire of Plantagenet	Support AgencyInformation TechnologyFacilities resources

5. **COMMUNICATIONS**

The communications plan must accommodate the needs of HRPG to provide concise instructions before, during, and after a disaster.

5.1 Considerations and Strategies – Higher Risk Persons & Groups (HRPG)

- ✓ Use short sentences and plain language to allow for easy translation of materials. Consider using a sixth-grade reading level or lower.
- ✓ Provide written materials in bilingual or multi-lingual format.
- ✓ Include visual aids such as pictures and maps to reinforce key messages.
- ✓ Repeat key information.
- ✓ Include directions and phone numbers.
- ✓ Use large fonts.
- ✓ Identify preferred communication methods (face-to-face, phone, word-of-mouth), and develop messages accordingly.
- ✓ Identify preferred media through which messages are delivered. Is it the local newspaper, radio station, or local clubs and religious organisations?
- ✓ Consider working with media and communications specialists.

6. RESPONSE

6.1 Responsibility in Response

The Hazard Management Agency/ Control Agency Incident Controller is responsible for activating this Plan and to determine the extent of the response and the requirement to evacuate HRPG.

The Shire of Plantagenet will advise the Incident Controller (IC) of this Plan and suggest appointing a Higher Risk Persons & Groups Coordinator (HRPGC) to oversee the plan.

6.2 Notification and Communications

The Incident Management Team (IMT) and the HRPGC will determine and activate the notification of the response and an appropriate communications plan.

6.3 Levels of Response

The IMT and HRPGC will determine the level of response and implement the response action plan.

7. EVACUATION

7.1 General Considerations

- ✓ Deciding which HRPG's may need to be moved, where they will be taken and how they will be transported are important considerations when preparing for any evacuation.
- ✓ A plan should detail arrangements and establish procedures for moving people to safe and secure facilities away from danger zones during a threat.
- ✓ If HRPG do not possess their own transport, they should make prior alternative arrangements with neighbours, their organisation and other network organisations.
- ✓ Identification is important in the case of aged and infirm or children during an evacuation. Carers and those with responsibility must ensure they can list, account for, and identify all persons in their care.
- ✓ Records should be kept verifying persons and physical status. Methods may involve identification tags, photographs, and documentation.
- ✓ Establish a procedure to assist any persons requiring specialised medical attention and mobility assistance, i.e., those most at risk, during emergency.

7.2 HRPG: Evacuation Planning Considerations

Availability of safe evacuation routes, considering:		
surrounding vegetation	fire fuel loadings	topography
watercourses	possibility of road closures	
Proximity of and anticipated response times by local emergency agencies		
Time required to vacate the property, including time to transport		
Owners need for backup power supply should the mains power fail, especially night evacuation		
Owners requirements for effective internal and external emergency communications		
Any need for additional assistance for care and attention in an emergency		

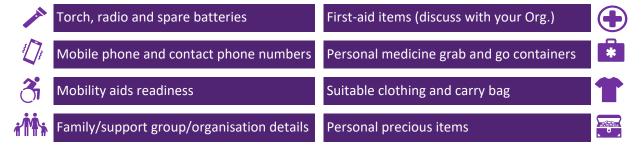

7.3 Arrangements for Assistance

Arrangements and requests for assistance will be made to the IMT and coordinated through the HRPGC.

7.3.1 Evacuation and Relocation Readiness

Suggestions for readiness actions for HRPG for emergency use:

7.3.2 Assistance to Evacuate

Carers and responsible organisations need to notify emergency agencies early with following details:

Location of HRPG's	Contact details of HRPG's
Understand and relay needs for physical assistance	Alternative contact information

7.4 Incident Management Team Responsibilities

The IMT's roles and responsibilities are to determine the need for evacuation taking into consideration:

The threats, hazards and risks	Assess and determine transport routes
The predicted path of the threat	Determine the evacuation points
Determine what is at risk	Communicate the HRPG Plan and intentions at earliest possible time to persons and groups identified in this Plan
Assess practicality of a large-scale evacuation during a response	Ensure accurate records are kept of persons relocated in an emergency

7.4.1 HRPG Responsibilities

Higher risk persons and their carer organisations are responsible for:

Making the decision to stay or evacuate early, before the property is directly affected by the incident Implementing the required aspects of the personal and organisational evacuation plan Ensuring that all higher risk persons are identifiable

7.5 Shire of Plantagenet Responsibilities

The Shire of Plantagenet is responsible for preparing, planning for and to determine and document evacuation considerations:

- ✓ The threats, hazards and risks
- ✓ The predicted threat or hazard behaviour
- ✓ Determine what is at risk
- ✓ Assess and assist the practicality of a large-scale evacuation during a response
- ✓ Assess and assist determine transport routes
- ✓ Determine and document the evacuation points
- ✓ Identify and document safe havens, locations, and facilities
- ✓ Identify and document required and available resources, needed to enable structured and safe evacuation of HRPG's from areas under threat

7.6 Financial Arrangements for Response

The IMT will coordinate all financial arrangements at the Emergency Coordination Centre. Record and document all matters relating to the financial management and arrangements relating to HRPG.

8 RECOVERY

8.1 Responsibility for Recovery

The IC will determine the 'recovery phase' on completion of the 'response phase' and complete the Impact Assessment ready for handover to the Shire CEO and Local Recovery Coordinator (LRC).

The Shire of Plantagenet LRC and the Plantagenet Local Recovery Group are responsible for implementing the 'recovery phase' of an incident (the recovery starts at the commencement of the response phase and is in full swing once the Impact Assessment Statement is received).

8.2 Transition to Recovery

The IC needs to declare the area safe prior to approving or supporting the movement of affected people back to an incident affected property.

Local Emergency Relief and Support Plan - Shire of Plantagenet

Appendix 12 – Security Companies:	42
Appendix 13 – Distribution List:	42

1. Introduction

1.1 Outline

The Local Emergency Relief and Support Plan is to be read in conjunction with the State Emergency Relief and Support Plan, both prepared by the Department of Communities (Communities).

The State and Local Emergency Relief and Support Plans are support plans which document the strategic management and coordination of emergency relief and support services in emergencies, as part of the Western Australian State Emergency Management (EM) Arrangements.

The scope of this local plan includes:

- Communities responsibilities for the planning, response and recovery stages for the management and coordination of emergency relief and support services, including resources, within the identified geographical boundaries;
- agreed responsibilities of emergency management partnering agencies, coordinated by Communities to provide emergency relief and support services during emergencies.

1.2 Exercise and review period

This plan is to be exercised at least annually, and will be reviewed every two years, with Appendices and contact details reviewed quarterly and after each activation.

1.3 Emergency Relief and Support services definition

The provision of immediate and ongoing supportive services to alleviate, as far as practicable, the effects on people affected by an emergency. To assist in coordinating the provision of emergency relief and support services, six (6) functional domains have been identified:

- emergency accommodation including evacuation centres see Appendix
- emergency catering see Appendix 7
- emergency clothing and personal requisites see Appendix 8
- personal support services see Appendix 9
- registration and reunification see Appendix 6
- financial assistance in Western Australia there are a number of financial assistance programs that may be put in place following a major emergency.
 Communities has the provision of some financial assistance being available for assessed immediate needs. This is determined at the time of the emergency using the principle of needs on a case-by-case basis for affected persons, as approved by Communities State Relief and Support Coordinator/ Communities Emergency Services Coordinator.

2. Preparedness and Operation of this Plan

2.1 Organisational responsibilities

The development and maintenance of this plan is allocated to the Communities District Emergency Services Officer, in consultation with members of the Emergency Relief and Support Coordination Group (ERSCG), if there is one, and the Local Emergency Management Committee (LEMC). A contact list of the organisations that constitute the

Local Emergency Relief and Support Plan - Shire of Plantagenet

EWCG is provided in Appendix 2 and their agreed organisational responsibilities are provided in Appendix 3.

2.2 Special considerations

LGs plan for special considerations as per the State EM Policy 4.6.1 –

EM planning must consider where special arrangements will be required. For example any groups within the community whose circumstances may create barriers to obtaining information, understanding instructions, or reacting to an emergency. This includes but is not limited to:

- children and youth;
- older people;
- people with disability;
- those who are medically reliant;
- Aboriginal and Torres Strait Islanders;
- individuals from culturally and linguistically diverse (CaLD) backgrounds;
- isolated individuals and communities; and
- transient individuals and communities.

In addition, EM planning must consider special arrangements for animals as per the State Emergency Relief and Support Plan 2.3.6 -

Animals in evacuation centres

For health and safety reasons no animals, including pets, are permitted in evacuation centres with the exception only of Assistance animals e.g. Guide Dogs, "Hearing" Dogs and Disability Aid Dogs. Some local governments may have an Animal Welfare Plan for them to coordinate the management of animals and pets in emergencies.

Services specifically for children and families, including child and family friendly spaces at Evacuation Centres, are to be considered at the local level and included in local emergency management arrangements. Also see Appendix 5 Emergency Accommodation, point 5.5 Children, organisations, educational and care facilities.

Communities prioritises its response in line with its operational capacity and relies on those agencies or organisations which provide support to these groups having suitable plans and response capabilities in place, prior to an emergency to cater for these groups' needs.

2.3 Resources – Preparedness and Operational

Communities has primary responsibility for managing and coordinating emergency relief and support services resources. This plan is based on the utilisation of resources existing within a community and to supplement those resources when required at the State level. In some emergencies interstate/national resources may be required. Requests for additional resource support should be made by the Emergency Relief and Support Coordinator to the State Relief and Support Coordinator/Emergency Services Coordinator. Communities is responsible for appointing Emergency Relief and Support Coordinators as follows:

Emergency Relief and Support Resource	Responsibilities during Preparedness, Operation and Recovery
Communities State Relief and Support Coordinator (SRSC)	The title "State Relief and Support Coordinator" used throughout this plan is the Communities representative appointed by the Communities Director General (DG). This role is delegated to the Director Emergency Services. Responsibilities include: (a) Coordination of all emergency relief and support services at the State level; (b) Represent the DG on the State Emergency Coordination Group (SECG) and State Recovery Coordination Group (SRCG) as required; (c) Act as the DG's representative on the following: • SEMC Response and Capability Subcommittee; • SEMC Recovery Subcommittee; • SEMC Community Engagement Subcommittee; • Other State and national level committees as appropriate. (d) Chairing the State Emergency Relief and Support Committee (SERSC); (e) Coordination of all partnering agencies within the State Emergency Relief and Support Incident Coordination Centre.
Communities Emergency Services Coordinator (REC)	This role may be delegated by Communities Emergency Services (ES) Director to the rostered Communities ES On Call Officer during activation and operations to carry out Communities emergency management functions. The REC is the link between the Evacuation Centre Coordinators and the State Relief and Support Coordinator and, where applicable, with the relevant HMA/Controlling Agency. The REC is authorised to activate responses to emergencies and approve emergency expenditure and utilisation of resources to meet the emergency relief and support requirements. Responsibilities include: (a) Establish the State Relief and Support Coordination Centre and manage centre functions during operation; (b) Activate responses to emergency situations, authorise emergency expenditure and utilise resources to meet those responses; (c) Assist the State Relief and Support Coordinator with their functions as required; (d) Manage emergency relief and support services functions as required; (e) Provide support to country staff/offices involved in emergencies; (f) Represent Communities on the State Emergency Coordination Group (SECG) and State Recovery Coordination Group (SRCG) as required.

Emergency Relief and Support Resource	Responsibilities during Preparedness, Operation and Recovery
Regional Relief and Support Coordinator – formerly District Emergency Services Officer (DESO)	 (a) Represent Communities on District Emergency Management Committees (DEMCs) to address emergency relief and support matters (Communities District Director or proxy); (b) Ensure the arrangements of this plan are clearly understood at the district level; (c) Clarify Communities policy on emergency relief and support matters where required; (d) Refer matters of a contentious nature to Communities Emergency Services for resolution; (e) Ensure development, testing and maintenance of Local Emergency Relief and Support Plans for the district in which the Local Government (LG) areas fall; (f) Appointing Evacuation Centre Coordinators for each Local Emergency Management Committee (LEMC); (g) Represent Communities on Operational Area Support Groups (OASGs) as required. a) As a local emergency management resource, develop local arrangements, procedures and resources eg EM Kits; b) Develop, test and maintain the Local Emergency Relief and Support Plans for the district in which the Local Government/s (LG) areas fall; c) Ensure staff and volunteers of Communities and partnering agencies are trained and exercised in their emergency relief and support responsibilities by
Communities Evacuation Centre Coordinators (ECC)	conducting training sessions and exercises annually; d) Liaise and establish networks and partnerships with agencies; e) Assist with activations if available; f) Assist and support the District Emergency representatives and Local Welfare Coordinators to carry out their roles. Local Evacuation Coordinators (ECCs) shall be nominated officers of Communities within an LG area/s. A Communities ECCs responsibilities include: (a) Establish and manage the activities of the local Emergency Relief and Support Incident Coordination Groups (ERSCG), where determined appropriate by the District Director; (b) Represent Communities and the emergency relief and support function on LEMCs and Local Recovery Committees; (c) During activation, manage and coordinate emergency relief and support services, including establishing and managing evacuation centres, and if further emergency relief and support assistance is required request for

Emergency Relief and Support Resource	Responsibilities during Preparedness, Operation and Recovery
	additional support services via the Communities Emergency Services; (d) Represent Communities on the Incident Support Group (ISG) when required.
Communities Evacuation Centre Coordinator (ECC)	 In some circumstances Evacuation Centre Coordinators (ECCs) are appointed. They shall be nominated officers of Communities and the ECC responsibilities include: (a) Establish and manage the operations of the evacuation centre/s, including coordinating staff and partnering agencies staff and volunteers, to provide appropriate emergency relief and support services to the evacuees in the evacuation centre. (b) Communicate regularly with the ECC, and if further emergency relief and support assistance is required request for additional support services via the ECC; (c) Remaining at the centre to manage the centre operations.
Local Government Emergency Relief and Support	 a) When an emergency event takes places within the boundaries of an LG, they may be activated by the HMA or by Communities to provide the initial emergency relief and support response to evacuating community members. This is primarily due to their close proximity to the emergency event and their ability to quickly identify and open a pre-determined evacuation centre. If the activation request is from the HMA the LG should contact Communities to inform and consult with them of the activation to open a evacuation centre. The role of the LG in these early stages would be to ensure that evacuees have a safe location to relocate to, and that they can be provided with basic needs and services until such time as Communities can arrive to take on the coordination role of the evacuation centre. Basic needs and services may include refreshments, registration, basic information, and personal support. On arrival of Communities, the LG would then provide a handover to the designated Communities Evacuation Centre Coordinator, and take on the LG Liaison Officer role as a support to Communities. b) In some circumstances the emergency event may not escalate to a significant level, and the LG may determine that they are able to continue to operate the evacuation centre without the need for deployment of Communities staff. If this situation arises the LG must seek approval from Communities to retain the coordination role and have this decision documented formally. c) In some circumstances it may not be possible for

Emergency and Resource	Relief Support	
		geographical distances, road conditions, conflicting events, or other unforeseen circumstances. In these cases the LG may be asked to continue to provide the coordination role for the evacuation centre, with support and advice being available from Communities via telephone or other means. In these situations, Communities would approve in advance any required expenditures in relation to operating the evacuation centre, and would meet these costs if required.
		If LGs elect to undertake their own emergency relief and support arrangements without Communities consultation, LGs are responsible for their own costs.

2.4 Training

Training, both internally and inter-agency, will be determined by Communities and Emergency Relief and Support Incident Coordination Groups. All training is to ensure staff and volunteers of Communities and partnering agencies have the necessary skills to provide appropriate emergency relief and support services under this plan, and in accordance with their roles and responsibilities.

2.5 Plan Activation Procedures

Communities will activate this plan from two sources:

- (1) As per State Emergency Management Policy 5.3.4 'A Support Organisation is responsible for specific activities in support of the Controlling Agency/HMA, and may also support Combat Agencies and other Support Organisations upon request'.
- (2) The State Relief and Support Coordinator/Emergency Services Coordinator based on information provided internally and/or externally, may identify the need to activate this support plan.

Regardless of who first identifies the need, the HMA/Controlling Agency and Communities State Relief and Support Coordinator (SRSC), Regional Emergency Services Coordinator (REC) or Evacuation Centre Coordinator shall confer and agree that this plan should be activated; discuss the safe location of evacuation centres and emergency relief and support services required. If activated at the local level the Local Evacuation Centre Coordinator will advise Communities SRSC/REC.

Once this decision is made the State or Evacuation Centre Coordinator shall assess the immediate emergency relief and support services required and activate Communities and partnering agencies if required and available. See Appendix 1 Communities Standard Operating Procedures for activation procedures.

Communities, representing partnering agencies, should be included as a member of the ISG and OASG, if formed, and will appoint an appropriate Communities representative accordingly.

ES SharePoint

2.6 Plan Activation Stages

The plan will normally be activated in stages. In an impact event for which there is no warning period, these stages may be condensed with stages being activated concurrently.

	A C C O(
Activation	Activation Stage name and actions
Stage number	Alout
Stage 1	 Alert: By the HMA/Controlling Agency or by Communities SRSC/REC based on information provided from within Communities. (a) Partnering agencies are alerted by the SRSC/REC or Evacuation Centre Coordinator; (b) Partnering agencies alert their own personnel; (c) Additional information allowing partnering agencies time to arrange preliminary preparations is provided; (d) Key personnel are briefed on action to be taken; (e) Establish liaison as appropriate with the HMA/Controlling Agency and/or Emergency Coordinator.
Stage 2	 Activation: By the HMA/Controlling Agency or by Communities SRSC/REC based on information provided internally and/or externally. (a) On behalf of the HMA/Controlling agency, and in consultation with the evacuation centre owners, the Evacuation Centre Coordinator organises for the designated welfare centre to be opened if required. The safest and most appropriate centre needs to be agreed on by the HMA, LG and Communities; (b) Required partnering agencies are activated by the SRSC/REC or Evacuation Centre Coordinator and proceed to the evacuation centre; (c) Emergency relief and support services are provided under the coordination of the Evacuation Centre Coordinator with partnering agencies assisting as required; (d) Communications are maintained with the HMA/Controlling Agency, Emergency Coordinator, Evacuation Centre Coordinator and partnering agencies; (e) Emergency relief and support services requirements are continuously monitored and reviewed by the Evacuation Centre Coordinator and adjusted accordingly. (f) If required, requests for additional resource support at the local level should be made by the Evacuation Centre Coordinator to the SRSC/REC.
Stage 3	Stand Down: HMA/Controlling Agency to officially notify Communities to Stand Down; or SRSC/REC or Evacuation Centre Coordinator to request of HMA/Controller Agency to Stand Down if they assess emergency relief and support services no longer required.

ES SharePoint

Activation Stage number	Acti	vation Stage name and actions
hishi danw tor inc	(a)	Partnering agencies are informed of the Stand Down by the SRSC/REC or Evacuation Centre Coordinator;
	(b)	Partnering agencies stand down in accordance with relevant procedures for their agency;
	(c)	Partnering agencies are to advise the SRSC/REC or Evacuation Centre Coordinator when stand down has been completed;
	(d)	Communities to officially hand back the evacuation centre facility to the owner and coordinate cleaning and any repairs required whilst the facility operated as an evacuation centre;
	(e)	The SRSC/REC or Evacuation Centre Coordinator advises partnering agencies of debriefing arrangements which will be conducted as soon as practicably possible;
	(f)	Post operation reports to be written by Communities – see 2.9.

2.7 Public Information Management

The HMA/Controlling Agency is responsible for the provision and management of media and public information during emergencies, and all non-emergency relief and support matters will be referred to them. Communities and partnering agencies to this plan should only provide information to the public and the media on issues that are directly their responsibility, and with approval from the Communities SRSC/REC.

If the **Register.Find.Reunite. system** is activated, Communities SRSC/REC will give approval for Australian Red Cross to provide R.F.R. information to the HMA/Controlling Agency, or the State Emergency Public Information Coordinator (SEPIC).

2.8 Exchange of Information

During a state of emergency or emergency situation, emergency management agencies can share personal information relating to persons affected by the emergency, State EM Plan 5.2.5. Communities Evacuation Centre Coordinator is to contact Communities SRSC/REC to seek approval before there is any exchange of information.

2.9 Debriefs and Post Operation Reports

The Evacuation Centre Coordinator conducts a debrief of participating staff and agencies as soon as practical after all agencies are stood down. This is to identify lessons learnt through the activation for continuous improvement of any future activations. Following this, the Evacuation Centre Coordinator, or appointed Communities officer, writes the Post Operation Report.

3 Recovery

3.1 Recovery Definition

The Emergency Management Act 2005 (s. 3) defines recovery as the support of emergency affected communities in the reconstruction and restoration of physical

infrastructure, the environment and community, psychosocial, and economic wellbeing.

As per the State Emergency Management Plan and the State Emergency Relief and Support Plan, it is the responsibility during recovery for the Department of Communities to coordinate the emergency relief and support components of recovery in line with the services outlined in this Plan for people affected by an emergency.

3.2 Emergency relief and assistance in recovery

Where possible, all offers of assistance and donations, including donated goods and services, should be coordinated through the Local Recovery Committee to avoid duplication of effort and confusion, State EM Policy 6.9.

Communities, as a support organisation, is not responsible for the coordination or collection of monetary donations or donated goods or services; restocking perishables or transporting people to/from homes and communities.

3.3 Financial Assistance in recovery

Sourced from State EM Plan 6.10 -

Through Western Australian Natural Disaster Relief and Recovery Arrangements (WANDRRA), the State Government provides a range of relief measures to assist communities recover from an eligible natural event.

Department of Communities may provide some financial assistance in recovery for individuals and families if WANDRRA is activated. This assistance is to alleviate the personal hardship or distress arising as a direct result of an eligible natural disaster, and is assessed on a case by case basis by Communities SRSC/REC. Some categories are subject to income and/or assets testing.

Other financial assistance that may be available after an emergency are:-

• ServicesAustralia (Centrelink) – will ensure payments to its existing clients in the area affected by the emergency are not disrupted. It can often provide financial assistance to any person whose livelihood has been affected by the emergency. Where possible, Centrelink should be invited to join the Local Recovery Coordination Group.

If activated by the Australian Government, Centrelink can administer -

- Australian Government Disaster Recovery Payment (AGDRP) a one-off payment to assist people who have been significantly affected by a disaster. It is not for minor damage or inconvenience.
- Australian Government Disaster Recovery Allowance (AGDRA) a short term payment to assist individuals who can demonstrate their income has been affected as a direct result of a declared disaster.
- Public Appeals Lord Mayor's Distress Relief Fund City of Perth established and manage this fund to provide relief of personal hardship and distress arising from natural disasters occurring within Western Australia.

3.4 Cessation of recovery

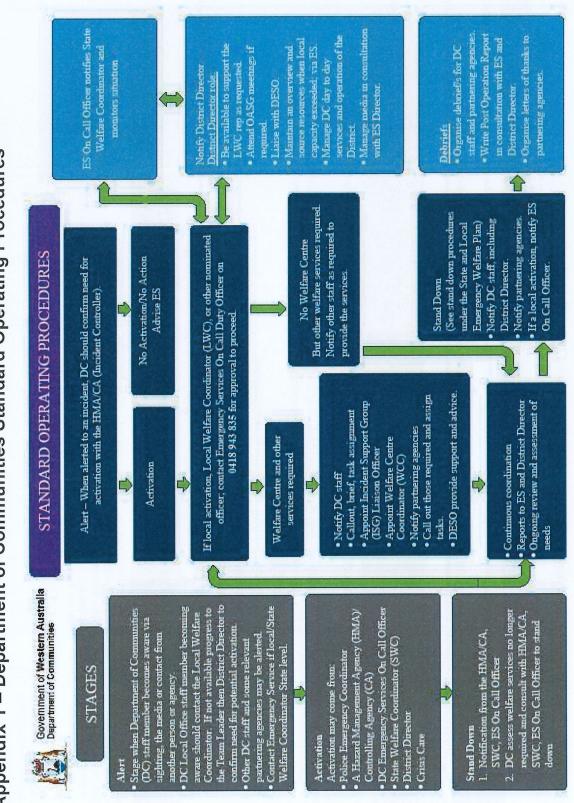

Communities cessation of emergency relief and support services in recovery will be dependent on community needs, access to existing community services, and

individuals' and communities' resilience. Accordingly Communities cessation may vary from other recovery services.

3.5 Review of recovery activities

Communities will undertake an evaluation of the effectiveness of its own recovery activities including an assessment of preparedness for any future event.

Appendix 4 – Organisational Responsibilities

- Partnering agencies that may be engaged by Department of Communities (Communities) to assist in fulfilling their emergency relief and support obligations as part of the Local Emergency Relief and Support Plan.
- Communities as an emergency management support organisation coordinates emergency relief and support services when activated via this plan – the Local Emergency Relief and Support Plan.
- To coordinate emergency relief and support services requires the support of a number of statutory, private and voluntary organisations, known as partnering agencies. These responsibilities are allocated on a state-wide basis and have been determined by agreement between the respective agencies at the State level via the State Emergency Relief and Support Committee and Communities.
- At the local level these responsibilities may be varied to suit the capabilities and availability of emergency relief and support organisations. The responsibilities are negotiated between Communities and the agency at the local level and are reflected in this Appendix.
- The allocated responsibilities do not restrict one agency from assisting another, regardless of its primary role.
- Should a partnering agency not be able to manage its primary responsibilities, support with those responsibilities may be requested from the Local Welfare Coordinator. Ultimately, Communities is responsible for these functions where no partnering agency assistance is available.

Agency / Organisation Name	Normal role if engaged
Department of Communities (Communities) – Lead Emergency Relief and Support Agency	 Coordinate all functional areas of an emergency relief and support response during emergencies; Appoint the Evacuation Centre Coordinators to support each Local Government area; Provide staff and operate the Evacuation Centres if required; Coordinate all emergency relief and support resources utilised under this plan; Coordinate the emergency relief and support functional domains of: Emergency Accommodation; Emergency Catering; Emergency Clothing and Personal Requisites; Personal Support Services; Registration and Reunification; Financial Assistance; Provide representatives to various emergency management committees and coordination groups as required.

	(4) Assist with other emergency relief and support functional domains where agreed.
Local Government Liaison Support	 Negotiate at the local level with individual Local Governments any additional responsibilities eg Ranger Services. (1) Provide a Local Government Liaison Officer as required; (2) Assist with the emergency relief and support functional area of Emergency Accommodation by utilising Local Government facilities as Evacuation Centres, and where not available have alternative privately owned facilities listed in their LEMAs; (3) Assist Communities -to provide the initial emergency relief and support response to evacuating community members. See above 2.3 Local Government Emergency Relief and Support Response. (4) Assist with other emergency relief and support functional domains where agreed.
Salvation Army	 Provide a Support Agency Officer/s as required; Provide Emergency Catering at Evacuation Centres; Provide Emergency Clothing and Personal Requisites such as toiletries and other incidentals to those affected as required; Assist with the provision of Personal Support Services; Assist with other emergency relief and support functional domains where agreed.
St John Ambulance	Please call Communities Emergency Services - 0418 943 835 to approve cost before contacting SJA. If an ambulance is required please call 000/112/106. (1) Provide a Support Agency Officer /s as required; (2) Provide qualified First Aiders at Evacuation Centres, where required and available; (3) Assist with other emergency relief and support functional domains where agreed.
Albany and Regional Volunteer Service Volunteering WA	 Provide a Support Agency Officer/s as required; Provide strategic policy and advice regarding the provision of volunteering services within the emergency relief and support management environment; Manage affiliated and spontaneous non-affiliated Volunteers; Assist with other emergency relief and support functional domains where agreed.
WA Police Force	 (1) Provide a Support Agency Officer/s as required; (2) Maintain public order where required; (3) Assist with other emergency relief and support functional domains where agreed.
YouthCare	 (1) Provide a Support Agency Officer/s as required; (2) Assist with the provision of Personal Support Services at Evacuation Centres where available including practical support, emotional support and pastoral care support.

Agency /	Normal role if engaged
Organisation Name	(3) Assist with other emergency relief and support functional
	domains where agreed

Appendix 5 – Emergency Accommodation

The provision of temporary shelter for persons rendered homeless by an emergency, or due to evacuation from an emergency, ranging from short to medium term accommodation, is coordinated and assessed by Communities.

Please note - in the event of an evacuation, people may make their own accommodation arrangements eg stay with family or friends locally (if this is safe) or in another town.

Points of clarification:

5.1 Establishment of evacuation centres

As per State EM Policy -

- (a) 5.7.3 The Controlling Agency is responsible for the management of evacuation during an incident, and this continues during an emergency response.
- (b) 5.7.4 Local governments, HMAs, relevant EMAs (i.e. Support Organisations and Controlling Agencies), in consultation with relevant Local Emergency Management Committees (LEMCs), must identify and advise of refuge site and evacuation centres including evacuation centres appropriate for the hazard. The evacuation centres should be documented in the LEMA, and are also recorded on the State Evacuation Centre Database which HMAs and Controlling Agencies have access to.
- (c) 5.9.5.5 LEMCs must ensure that LEMA identify appropriate facilities and existing infrastructure within their boundaries are available for use by EMAs or note where there are no facilities.

Therefore the establishment and management of evacuation centres by Communities is on behalf of the HMA or Controlling Agency, in consultation with evacuation centre owners. This could be local governments or private facility owners. Evacuation centres are established as emergency facilities from which Communities coordinate accommodation, food, clothing, financial assistance, registration, personal support and other emergency relief and support services until alternative arrangements can be made.

5.2 Evacuation centres definition

In Western Australia evacuation centres are a facility that may provide for evacuation, reception, accommodation and relief and recovery (commonly referred to as a 'one-stop-shop') for an impacted community. Evacuation centres may continue the extended provision of services into the recovery phase where LGs take responsibility as the lead agency in recovery. For the purposes of this plan all such facilities are classified as Evacuation Centres.

5.3 Safety considerations

To ensure the safety of evacuees and evacuation centre staff and volunteers, Communities will not establish evacuation centres –

- in Bushfire Emergency Warning areas, and will only establish evacuation centres in Bushfire Watch and Act areas with the assurance of the HMA/Controlling Agency that it is deemed safe to do so;
- if there is not safe access routes to the evacuation centres;

• if there are structural concerns about the facility, and/or health concerns eg no running water, no drinking water, non-functioning sewage system, gas or chemical leaks in the area.

5.4 Children, organisations, educational and care facilities

As per State EM Plan 5.3.2 Community Evacuation, Stage 4: Shelter –
Children and vulnerable people in Evacuation Centres
Unaccompanied children, without direct parental or responsible adult supervision, should be evacuated into the care of the Department of Communities at the evacuation centre.

The preferred option for agencies, organisations or educational and care facilities such as women's refuges, men's hostels, group homes, is for them to have arrangements in place to either evacuate to a similar facility or shelter in place if safe.

If it is necessary to evacuate to an evacuation centre, supervisory staff or members with responsibility for the care, supervision or provision of services to children and their clients must remain at the centre and continue to supervise and provide services until such time as alternative arrangements are made. This may include children being returned to parents or other responsible adult approved by that agency, organisation or educational and care facility.

Agencies, organisations and educational and care facilities at evacuation centres should liaise with the evacuation centre coordinator at these centres for further advice and assistance in relation to unaccompanied children.

Services specifically for children and families, including child and family friendly spaces at Evacuation Centres, are to be considered at the local level and included in local emergency management arrangements, State EM Plan 4.6.1 Special Considerations.

5.5 Animals in evacuation centres

For health and safety reasons no animals, including pets, are permitted in evacuation centres with the exception only of Assistance animals e.g. Guide Dogs, "Hearing" Dogs and Disability Aid Dogs. Some local governments may have an Animal Welfare Plan for them to coordinate the management of animals and pets in emergencies.

5.6 Responsibility for the evacuation centre premises

Communities will take responsibility for the premises utilised as evacuation centres from the time of their operations until their closure. Communities shall exercise reasonable care in the conduct of its activities, and agree to replace or reimburse for supplies used in the operation of evacuation centres.

As Communities operate evacuation centres on behalf of the relevant HMA/Controlling Agency, in the event of any claim for unusual damage incurred as a result of the use of a facility as an evacuation centre, Communities will facilitate processes with the HMA/Controlling Agency to respond to the claim. The owner/s of the facilities agrees to utilise their building insurance in the event of damage resulting from the actual disaster event to the structure of the building.

Communities will utilise contract cleaners or pay for the use of the facilities' cleaners to restore the facilities directly utilised as evacuation centres back to serviceable condition, if requested.

5.7 School evacuations

If a school needs to evacuate upon receiving advice/instructions from the Incident Controller or HMA, they should try to evacuate to another school as a first option, or self-manage in a Communities designated evacuation centre. Schools can evacuate to the community evacuation centre with the schools' students under the duty of care and responsibility of the evacuated school.

Schools should use resources within the school such as gym mats, blankets if they have them, any food in school canteens etc. However, if these resources are not available and Communities have spare items, these items will be shared with the school. If schools and Communities do not have these resources available, Communities will share any information on sourcing items as listed in the Local Emergency Relief and Support Plan.

5.8 State Evacuation Centres

In some circumstances, particularly in larger State level sized emergencies, facilities in a local area in which an emergency or disaster has occurred may not be suitable/sufficient to ensure the safety of all evacuees, emergency relief and support staff and volunteers. In these circumstances local governments or private facility owners may be asked for use of their facility as a 'State Evacuation Centre' to assist affected members of other local government areas. At these times it would be the expectation that the State Evacuation Centre would operate in a similar manner with the same procedures as if operating as a Local Evacuation Centre as outlined in this plan.

See over for the list of Pre-determined Evacuation Centres.

Appendix 5A - List of Pre-Determined Evacuation Centres

Primary Centre:

Note: currently the primary evacuation centre, Mt Barker Recreation Centre is under review. It is concurrently being used as an evacuation centre by Communities and Education departments. Discussions being held with local government (dated: March 2023)

The Local Government want to keep the Primary Centre as Mt Barker Recreation Centre. Aug 2024

Mobile barbeque trailer: commercial kitchen

20 swags onsite; 52 parking bays; 3 buses: 24 seater; 22 seater; 12 seater, & and licensed

drivers

Appendix 5B – Alternative Temporary Accommodation Services

In the event of an evacuation, people may make their own accommodation arrangements eg stay with family or friends locally (if this is safe) or in another town.

If a small number of people were required to evacuate, or there is extenuating circumstances for some individuals and families, Communities Emergency Services would explore alternative arrangements, depending upon the situation at the time. This may include a range of options such as commercial facilities. **Note: accommodation providers requiring payment need to have ABNs** – providers cannot receive payment without one.

Contact the Emergency Services On Call Duty Officer to seek approval for use of commercial accommodation – 0418 943 835.

In a larger emergency Communities Emergency Services may need assistance in organising accommodation for evacuees and ADRA can assist with this in designated areas. If additional help is required please contact the **Emergency Services On Call Duty Officer** – **0418 943 835** and the Officer will activate ADRA if appropriate.

Appendix 6 – Emergency Relief and Support function of Registration and Reunification

- This functional area enables individuals within an emergency affected community to be traced, families reunited and inquiries about individuals coordinated, intrastate, interstate or internationally.
- To facilitate the accounting of persons affected by such incidents, Communities
 may use the registration and reunification Register. Find. Reunite. system or other
 options as appropriate. The Register. Find. Reunite. system has been developed at
 the State and national level. In Western Australia this system is activated by
 Communities and managed by the Australian Red Cross on behalf of Communities.
- The system provides for the registration and reunification of affected persons using standardised forms. Stocks of these forms are held by Communities offices, the Australian Red Cross State Inquiry Centre and its local teams and some local governments to be readily available for immediate use at evacuation centres.
- In addition, impacted individuals may choose to register themselves online using the Register.Find.Reunite. system once it has been activated.

See over for Communities Standard Operating Procedures for the emergency relief and support function of Registration and Reunification.

Communities Standard Operating Procedures for the emergency relief and support function of Registration and Reunification

Department of Communities Emergency Services - Standard Operating Procedures for the welfare function of Registration and Reunification Dec 2017

(R.F.R.) system or other options as appropriate. R.F.R. has been developed at the State and national level. In Western Australia this system is activated by DC as the commissioning agency and managed by the Australian Red Cross (ARC) as a partnering agency, on behalf of DC. ARC operates the State Inquiry Centre when authorised intrastate, interstate or internationally. To facilitate the accounting of persons affected by such incidents, DC may use the registration and reunification Register. Find Reunite Registration and reunification enables individuals within an emergency affected community to be traced, families reunited and inquiries about individuals coordinated Registration and Reunification (R & R) is one of the 6 welfare functional areas Department of Communities (DC) is responsible for under the WA Emergency Management Act 2005 and State Emergency Management Arrangements. Welfare arrangements are detailed in the State Emergency Welfare Plan and Local Emergency Welfare Plans. by the DC State Welfare Coordinator.

Registration and Reunification Standard Operating Procedures - State and Local Levels

STAGES

- DC becomes aware of a potential activation
- DC may contact DC staff and some partnering agencies

- provide welfare services to DC is officially activated to
- DC will assess welfare needs to services and activate DC staff provide appropriate welfare impacted persons and/or communities

 DC officially requested to stand State Emergency Welfare Plan down in accordance with the

 DC to confirm need for activation of StateLocal Emergency Welfare Plan/s with the HMA/Controlling Agency
 DC to assess whether R & R services required, DC staffing's capacity, whether ARC are needed to assist and whether to contact them to alert them of potential activation

Activation by DC ESU On Call Officer or DC Local Welfare Coordinator = DC

- DC activates ARC via their 24/7 On Call Officer, providing information on welfare centre/s opened and which R & R tasks they are required to assist with under the coordination of DC State and Local staff. NB - Local Government/s may have commenced the registration process at a welfare centre/s prior to DC and/or other agencies arrival
- DC to assess if the State Inquiry Centre to be activated and if so request this of ARC ESU On Call Officer who requests this of ARC

DC to assess if R.F.R. system is to be activated. If so and local, LW Coordinator contacts

- Registration forms at welfare centres to be filed in accordance with DC system and scanned/faxed to ARC at the State Inquiry Centre as soon as practicable
- If Police and/or Emergency Services Agencies request information from the registration forms the Welfare Centre Coordinator will coordinate these requests

and relevant partnering agencies

Stand Down and Debriefs

coordination of R & R, including

review and assessment of DC provides continuous

needs/demand, staffing

. If R.F.R. is activated, ARC to provide R.F.R. stats to DC

- R.F.R. and State Inquiry Centre to shut down Completed hard copy registration forms must . DC notify ARC of Stand Down and when be returned to DC for eventual disposal
- DC to provide ARC with debrief information

No Activation/No Action

activated by Communities ARC will: As stated in the State Emergency Welfare Plan - when officially Australian Red Cross role

Assist with Registration at Welfare Centres Provide a State Inquiry Centre Officer's as required N

Provide a Support Agency

- to receive, process and answ inquiries regarding the whereabouts and safety of relatives and friends 2
- Register. Find. Reunite. system Assist with the provision of 3 £
- functional areas where agreed Personal Support Services Assist with other welfare 9

Appendix 7 – Emergency Catering Services

Communities will coordinate the establishment of an emergency catering service for those rendered homeless, evacuees and emergency relief and support workers engaged during an event. Dependent on the catering requirements, Communities may engage a variety of service providers to provide this service, such as voluntary groups, fast food outlets or hospital, hotel, motel or public catering services. Communities cannot accept other prepared food e.g. sandwiches, cakes, sausage rolls, unless the person/organisation has a Food Handling Certificate issued by the local government.

Responsibility for the provision of meals for non-emergency relief and support workers is the responsibility of the HMA/Controlling Agency.

A resource list of catering agencies and other options is included below.

Name	Address/capabilities	Contact Details	After Hours Contact
Albany

Appendix 8 – Emergency Clothing and Personal Requisites

Communities coordinates the provision of essential clothing and personal requisites, to persons affected by an emergency. This function includes the provision of basic necessities such as toiletry packs, blankets, towels, mattresses, pillows, bedding, disposable nappies, and sanitary needs, as required.

Where possible, new clothing, or financial assistance for the purchase of new clothing, should be provided to eligible persons as soon as practicable. The use of 'recycled' clothing is a last resort.

A resource list of emergency clothing and personal requisites suppliers and options is included below. This lists organisations and retail outlets who agree to participate in these arrangements, and ensures that acceptable procedural matters have been

Appendix 9 – Personal Support Services

Communities will coordinate and provide personal support services, and where necessary, will work with other specialist agencies to ensure affected persons receive the necessary personal support to cope with the effects of loss, stress, confusion, trauma and family disruption. These include specialised counselling and psychological services and other appropriate services.

Personal Support Services can include practical assistance, emotional support, information, referral to other services, advocacy, advice, counselling and psychological services.

Information and advisory services may include other relief measures not necessarily provided by Communities, such as availability of grants and other forms of financial assistance, healthcare, provision of child care and financial counselling.

A list of relevant agencies and services is included below.

INTRODUCTION

Aim

The aim of Shire of Plantagenet (the Shire) Animal Welfare in Emergencies (the Plan) is to detail emergency management arrangements relating to the welfare and management of animals including domestic pets, horses, livestock and wildlife before, during and after an emergency.

Objectives

Support the Local Government Local Emergency Management Arrangements (LEMA) by integrating arrangements for animal welfare

Define roles and responsibilities for government, non-government organisations and individuals for coordinating animal welfare before, during and after an emergency

Provide a communications framework for coordination and collaboration between government agencies, non-government agencies and animal owners

Provide useable tools and templates to assist with coordinating animals in an emergency

Scope

The scope of this Plan is to provide a coordinated approach to managing animal welfare impacts to domestic pets, livestock, and wildlife, as a direct result of an emergency incident within the municipal boundaries of the Shire of Plantagenet. For the purposes of this Plan, and to align with the State Support Plan, animals have been classified into the following five categories:

Livestock Any buffalo, camel, cattle, deer, emu, goat, ostrich, pig, poultry and sheep.

Horses Any horse or equine hybrid.

Domestic Pets Any animal other than horses kept primarily for companionship, hobbies,

sport or work.

Wildlife An animal that is indigenous to Australia's land or waters, living without

regular human intervention or support.

Note, prior to being taken into care or under controlled supervision, there is no owner or carer for wildlife.

National Planning Principles for Animals in Emergencies

- Explicitly recognise that integrating animals into emergency management plans will improve animal welfare outcomes
- 2. Explicitly recognise that integrating animals into emergency management plans will help secure **improved human welfare and safety** during disasters
- 3. Aim, for the benefit of emergency managers and animal welfare managers, to **clearly identify roles and responsibilities within command-and-control structures** in sufficient detail to allow for implementing effective animal welfare measures
- 4. Recognise the **wide range of parties involved in animal welfare** at each stage of the disaster cycle and ensure these organisations are consulted when disaster plans are written or reviewed
- 5. Respect the role of local government, especially with reference to animal welfare and animal management arrangements within the local area, as 'first responders' in disasters and acknowledge the Shire understands local needs and available resources
- 6. Consider how best to ensure the Plan is effectively integrated and implemented by, for example, extensive consultation during the planning process or **including an animal welfare** element in requirements for **disaster training** exercises
- 7. Include **effective communication** about implementing the Plan with those parties who may be involved as well as those who may be affected by disasters
- 8. Communicate in **language that is clear and accessible** to all stakeholders including the general public.

ORGANISATIONAL ROLES & RESPONSIBILITIES

Animal Owner/Carer

The owner or carer of an animal is responsible for its welfare and should include planning for its welfare in preparedness for, response to and recovery from an emergency.

Human life will always take precedents over animal welfare.

State Government

Department of Primary Industries and Regional Development (DPIRD)

DPIRD is responsible for coordinating the provision of animal welfare services to support the animal owner in an emergency.

DPIRD is recognised as the Hazard Management Agency (HMA) for animal pest or disease and plant pest or disease that could result in an outbreak that potentially could cause significant damage to the environment and/or harm humans and industry.

Department of Biodiversity, Conservation and Attractions (DBCA)

DBCA is responsible for coordinating the provision of animal welfare services to animals in the Perth Zoo and advising the animal owner of wildlife and wildlife parks. Note, prior to being taken into care or under controlled supervision, there is no owner or carer for wildlife.

Department of Communities (Communities)

Communities is responsible for opening Evacuation Centres to provide temporary shelter for persons rendered homeless by an emergency, or due to an evacuation from an emergency. For health and safety reasons no animals, including pets, are permitted in evacuation centres with the exception of guide dogs.

WA Police

A Police Officer has the powers to move, direct or prohibit the movement of animals within, into, out of or around the emergency area, if an emergency situation or state of emergency is declared.

Shire of Plantagenet

The Shire will support and manage animals in an emergency by ensuring an Animal Welfare Plan is in place and ready for activation to assist the Local Emergency Management Arrangements.

The Shire Recovery Coordinator will appoint an Animal Welfare Coordinator and Animal Welfare Assistant(s) (see *Annexure 3*) to be responsible for implementing this Plan and providing Situational Reports (see *Annexure 4*) for IMT and/or Incident Support Group (ISG) to meet and liaise with DPIRD.

Key Stakeholders

Key Stakeholders including non-government organisations and local community groups can assist with animal welfare in emergencies including:

RSPCA – takes the lead role in welfare of domestic pets and is supported by DPIRD.

Veterinarians – local veterinarians can provide a wide range of medical services for sick and injured animals and have arrangements with Shire Rangers for emergency care and shelter.

Community Groups – can be considered for mobilisation to assist professional staff to cope with the scale of a crisis including domestic pets, horses and wildlife.

Full list of Key Stakeholders (see *Annexure 1*).

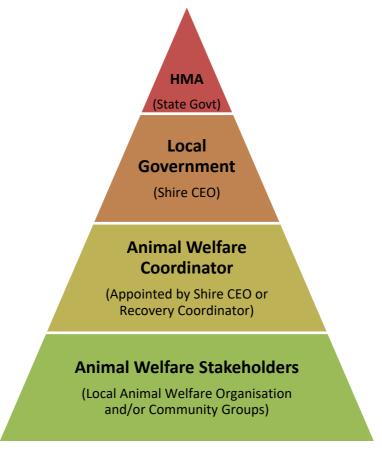

Figure 1: Animal Welfare Support Plan Structure

PREPAREDNESS

Preparedness is defined as being ready to respond to an emergency. It includes steps that can be taken before an emergency occurs to reduce the loss of life and livelihoods via simple initiatives such as planning, training and education.

Preparedness Responsibilities

Animal Owner/Carer

The owner or carer is responsible for ensuring a reasonable level of preparedness for their animals. It is suggested to have a documented plan that includes:

- ✓ Determining if the animal(s) will be evacuated or remain onsite.
- ✓ Visiting <u>DPIRD website</u> for planning templates and <u>DFES website</u> for Factsheets and Publications.
- Ensuring suitable areas and adequate provisions available for animals left on a property to minimise the risk of harm (area at lowest risk of hazard impact, access to sufficient food and water for prolonged absence).
- Ensuring transport is adequate and available to relocate the animals early under potential logistical constraints (road closures, window of safe evacuation).
- ✓ Knowing the exact location of Animal Evacuation Centre(s) or safe havens.
- ✓ Making sure animals are identifiable (animal is registered/micro-chipped, National Livestock Identification System).
- ✓ Ensuring provisions for the animal's(s) care are included on evacuation.

Shire of Plantagenet

The Shire can support emergency preparedness activities with its local communities in the event of an incident. Planning considerations for Shire to *support owners or carers* include:

- ✓ Access to information and resources for persons evacuating with animals.
- Availability of transportation support and advice.
- Availability of locations to house evacuated animals.
- Management of displaced or stray animals.
 - ✓ Assessment of impacted animals.
 - ✓ Treatment of impacted animals.
- ✓ Euthanasia.
- Disposal of deceased animals.
- ✓ Provision of emergency food, water, shelter.
- Recovery arrangements.

Planning considerations for Shire to *support key stakeholders* include:

- ✓ Timely communication of information that is clear and concise.
- Activating the plan according to the level of the emergency.
- ✓ Coordinating assistance to welfare centres with people presenting with animals.
- ✓ Coordinating assistance to Animal Evacuation Centres.
- ✓ Situational Reports of animal welfare issues to ISG.
- ✓ An Animal Welfare Sub Committee to manage recovery issues.

Key Stakeholders

Key Stakeholders' core business will direct their precise preparedness activities.

Planning considerations for key stakeholders may include:

- ✓ Developing and testing a plan well before an emergency occurs.
- ✓ Preparing animal emergency kits.
- Preparing volunteers including training.
- ✓ Preparing network of carers or foster carers.
- ✓ Preparing premises for large influx of animals.
- Establishing a registration or contact point for information.
- ✓ Preparing vehicles for transportation.
- ✓ Preparing cages, collars, leads, bowls, buckets and other equipment.
- ✓ Preparing treatment areas or sites.
- Preparing food or feed supplies.

Community Information and Education

DPIRD develops and maintains publications to assist community education for animal welfare in emergencies which are available on the <u>DPIRD website</u>.

DFES has a wide range of educational material for community engagement activities that can be accessed via the <u>DFES website</u> and for volunteers via the <u>DFES Volunteers</u> Hub.

The Shire of Plantagenet promotes community emergency preparedness including the importance of animal welfare in emergencies using State agency resources and key messages.

RESPONSE

Response is defined as activities that combat the effects of the event, provide emergency assistance for casualties, and help reduce further damage and help speed recovery operations (EM Act).

Plan Activation

The Shire CEO, on advice from the HMA or Controlling Agency, will determine when to activate this Plan.

Triggers for activating the Plan may include:

DPIRD may support this Plan prior to the State Support Plan – Animal Welfare being activated, by providing advice, communications and connection to animal welfare stakeholders or service providers.

DPIRD will liaise with the HMA or Controlling Agency to coordinate the State animal welfare arrangements when required.

Levels of Response

The Incident Controller is responsible for assessing the level or severity of the incident as per <u>State EM</u> <u>Response Procedure 4.2.</u>

In accordance with incident management principles, incidents are broadly classified into three levels, namely Level 1, Level 2 and Level 3.

Response Responsibilities

Owner/Carer

- ✓ Manage animals they are responsible for by activating emergency plans for before, during and after the emergency.
- Stay up-to-date through official emergency advice to make informed decisions.

Shire of Plantagenet

- ✓ Activate the Shire Animal Welfare Support Plan in consultation with the HMA/CA via IMT and/or ISG meetings.
- CEO or Recovery Coordinator to appoint 'Animal Welfare Coordinator' (in most incidents this would be the Senior Ranger).
- ✓ Animal Welfare Coordinator to appoint 'Animal Welfare Assistant(s)' as required, this may be a Shire employee or volunteer from animal welfare organisation.
- ✓ Liaise with DPIRD to provide a coordinated approach to animal welfare response actions, where relevant.
- ✓ Provide a location suitable for evacuation of domestic pets and horses (see Contacts and Resource Directory for suitable sites)
- ✓ For livestock owners that cannot be readily located or contacted consideration should be given to impounding livestock at alternative locations.
- ✓ Provide situational reports (*Annexure 4*) on animal welfare matters to the HMA/CA via IMT and/or ISG meetings.

Key Stakeholders

- ✓ Provide support and/or assistance to the Shire and/or DPIRD as requested.
- ✓ Contact relevant staff/volunteers to be on standby and ready to assist on request.
- ✓ Key stakeholders are advised to actively and continually stay informed of the emerging incident via www.emergency.wa.gov.au and make appropriate preparations to become active depending on the organisation's role.

Financial Arrangements for Response

The IMT will coordinate all financial arrangements at the Emergency Coordination Centre. All financial management and arrangement matters relating to Animal Welfare are to be recorded and documented using the Forms provided at *Annexure 8* of this Plan.

The owner or carer is responsible for the costs associated with the welfare of his/her/their animal.

During an emergency, it may not be possible to identify or contact the owner or carer and an authorised officer may be required to undertake activities for the animal's welfare without prior consultation. Section 56 of the AW Act provides for a person who has incurred costs under certain sections of the Act to apply for the recovery of costs from the owner or carer.

PLANNING FOR EVACUATION

Evacuation is a risk management strategy that involves moving people (and their animals) threatened by a hazard to a safer location and, typically, their eventual safe and timely return.

Evacuation Responsibilities

Owner/Carer

The owner or carer is responsible for determining, where possible, if their animals will be evacuated or remain on location and plan for how this will be achieved. Considerations for animal owners or carers include:

- Availability of safe evacuation routes, considering the type of emergency situation and the possibility of road closures
- ✓ Time required to vacate the property, including time to gather, identify and load animals
- ✓ Handling equipment needed for moving animals and ensuring accessibility in an emergency
- ✓ Limited access to own transport for animals owners or carers should make prior alternative arrangements with neighbours and local transporters
- Ensure animals can be identified, which is important in case they become lost or mixed with others during an evacuation.
- ✓ Records should be kept verifying ownership or status as a carer.
- ✓ Any problematic animals deemed difficult to manage or dangerous should be kept contained to ensure the safety of other evacuating animals.

Shire of Plantagenet

The Shire is responsible for preparing, planning for and determining evacuation considerations, including:

- ✓ Assessing possible threats, hazards and risks
- ✓ Assessing the practicality of a large-scale evacuation during a response by liaising with the HMA/ Incident Controller and DPIRD
- Assessing and identifying the safest transport routes, consider signage
- Determining the evacuation locations and facilities suitable for animals (see Annexure 9)
- Ensuring information is included in public warnings, which can be requested via IMT/ISG meetings.
- Registering animals presenting at the Animal Evacuation Centre(s) using the Animal Evacuation
 Registration Form (see *Annexure 2*)
- Maintaining a central point for all enquiries and dissemination of information, including a rescue display list (see *Annexure 7*)
- ✓ Ensuring food and water are available and accessible at the Animal Evacuation Centres

RECOVERY

The Shire of Plantagenet is responsible for managing recovery following an emergency affecting the community in its district as per s36(b) of the EM Act.

Recovery Responsibilities

Hazard Management Agency/Controlling Agency

- ✓ Ensure animal welfare is included in post emergency debriefs and reviews
- Refer and use the Summary Sheet: Evacuated Animals Register from the Animal Welfare Coordinator in all report documentation related to animal welfare (see *Annexure 6*)

Shire of Plantagenet

- ✓ Include animal welfare considerations in recovery plans, consider establishing an 'Animal Welfare Sub-Committee' to assist with managing ongoing animal welfare issues post emergency
- ✓ Liaise with DPIRD to transition the ongoing animal welfare activities back to the control of Shire and the owner or carer
- Review the effectiveness of the Shire Animal Welfare Support Plan with Key Stakeholders

Key Stakeholders

- Assist the Shire and/or DPIRD in post-incident activities as requested
- ✓ Debrief staff and/or volunteers within organisations or community groups, as it is important not to under-estimate the impacts on personnel involved in emergency response

Transition to Recovery

The Incident Controller needs to declare the area safe prior to approving or supporting the movement of animals back to an incident affected property.

Before animals are returned to a facility or property ensure:

Always consider: Animals may be traumatised and stressed from a significant incident or a major change in their environment.

Annexure 3 – Animal Welfare Coordinator & Assistant Roles

Animal Welfare Coordinator

When the Animal Welfare Support Plan is activated the Animal Welfare Coordinator will:

- Establish and maintain liaison with the CEO and/or Recovery Coordinator concerning all animal welfare issues and management decisions.
- Provide Situational Reports to the CEO and/or Recovery Coordinator for IMT or ISG meetings.
- Establish and maintain contact with the Animal Evacuation Centre before, during and after an emergency as support.
- Establish and maintain contact with the Evacuation Centre (for Humans only) and provide assistance with animal welfare issues if requested.
- Appoint Animal Welfare Assistant(s), if required, to assist with administrating logistics associated within this Plan
- Ensure Animal Welfare support equipment and consumables are maintained and available at all times.
- Request Veterinarians' support and assistance for animals requiring assessment or treatment as approved by HMA/IC.
- Liaise with Shire Media Officer and the HMA/IC to prepare and release public information concerning animal welfare as required.
- Arrange debriefing sessions during and post incident with Animal Welfare Assistants, Volunteers, Shire Staff and associated agency representatives.
- Assist DPIRD and/or DBCA with animal welfare activities as requested or directed by the Controlling agency or HMA.
- Seek authorisation from the HMA/IC to patrol areas affected by the emergency (in consultation with DPIRD/DBCA) to assist impacted wildlife.

Animal Welfare Assistant

When the Animal Welfare Support Plan is activated the Animal Welfare Assistant(s) will:

- Provide support and assistance to the Animal Welfare Coordinator to manage animal welfare issues as requested.
- Maintain appropriate records for animals evacuated to the Animal Evacuation Centre or temporary animal welfare facility established.
- Manage the welfare and safety of animals received at the Animal Evacuation Centre or any temporary animal welfare facility established.
- Liaise with available Veterinarians for animals requiring assessment or treatment.
- Participate in patrols of the area affected by the emergency to assist affected wildlife once the area is deemed safe to do so by the HMA/IC.

Annexure 4 – Animal Welfare Situational Report

Incident Name:

Next Animal Welfare SITE	EEP due: (Time / Date)
	(, 54.6)
CITOFO	
SITREP Prepared By:	
Time & Date:	
Tille & Date.	

Notes for Completing SITREP:

- Information in a sitrep should be factual and largely without interpretation and conjecture
- Information in a sitrep should cover the period between the last sitrep and the next sitrep
- Sitreps should be brief and not a narrative (read in <3-5 mins). If more information is required, a report should be prepared
- Refer to personnel by their role do not use their name
- Sitreps should be specific for a given function, and not present information that is outside the specific function
- It is acceptable for a sitrep to be issued that states no change since last sitrep (see last sitrep issued on [insert date/time] for information)
- A map and other graphic can be part of a sitrep ensure date/time of the graphic is shown on it, and there is a reference between the graphic and the sitrep.

Annexure 5 – Animal Evacuation Centre Checklist

The Animal Welfare Coordinator assigns this role

ON ACTIVATION	ON	
TASK	NOTES	COMPLETE ✓
1. Ensure the facility is not at risk or likely to be affected by the hazard Refer to the Emergency WA website www.emergency.wa.gov.au and confirm location is not within a Watch & Act area. Consider the surroundings and remember multiple incidents can occur simultaneously. Continually monitor the situation.		
2. Ensure the facility has the capacity to support a large influx of animals and people. If an event is currently underway or scheduled in the next three days, consider redirecting the request to another facility.		
 3. Ensure the facility is operational Club rooms, kitchen and amenities to be in good working order Perimeter fencing secure Reliable source of power and water Unrestricted road access and consider route to Department of Communities evacuation centre 		
 4. Contact facility members who are available to volunteer and assist with managing the Animal Welfare Centre. Report availability of volunteers to the Animal Welfare Coordinator or Shire Rangers Draft a basic roster 		
 5. Establish a registration point Note any directions and contact details on the gate sign. Most likely to be located in the club rooms to coordinate the following services: Informing users of facility/centre arrangements Logging the details of all incoming and outgoing animals Collecting ground fees (if applicable) Encouraging all persons to register at https://register.redcross.org.au/ Maintaining a central point for all queries and the dissemination of information 		

MANAGEMENT DURING EMERGENCY					
TASK	NOTES	COMPLETE ✓			
6. Waiving of fees and rules					
In extenuating circumstances, the Animal Evacuation Centre may					
choose to waive the ground fee and any of the facility rules. This					
decision must be:					
Made in good faith					
Documented					
Communicated to the Facility Manager as soon as					
practicable This is most likely to involve dogs and unattended animals at the					
This is most likely to involve dogs and unattended animals at the grounds.					
grounus.					
7. Catering arrangements					
The facility is under no obligation to cater for the displaced					
people and they should be told this from the outset. Any					
donated food should be prepared in accordance with food safety					
standards.					
The details of the closest shops should be circulated and					
kitchen facilities may be used by those wishing to prepare					
their own food					
Any displaced person still requiring these basic needs					
should be redirected to the Department of Communities					
evacuation centre.					
8. Donations					
The centre is not to be used as a collection point for donated					
goods. The only donations that <u>may</u> be accepted are:					
Animal feed					
Animal medical supplies and services					
Approved catering supplies and services					
Facility consumables (i.e. toilet paper)					
9. Communication - SITREP					
The Facility Manager is to maintain communication with the					
following organisations:					
Animal Welfare Coordinator					
Shire Ranger Services (to inform IC via ISG)					
Department of Communities					
Other Public Equestrian Facilities					
Subsequent SITREPS are to be provided every 12hrs at a					
minimum, or as the situation changes.					
10. Animals with unknown owners					
It is likely that rescued animals with unknown owners will be					
brought to the centre. This is to be recorded on the registration					
form, the animal photographed and its details forwarded to the Ranger Services of the relevant Local Government. The Rangers					
hanger services of the relevant Local Government. The hangers					

l 16		
welfare until the owner is identified. It is not permitted to leave		
the grounds without their permission.		
11. Administration and finance		
Keep accurate records, of all the centre's activities, key decisions		
and expenditure.		
This information may be required for the post incident review.		
Costs may be claimable, however, confirmation of this is often		
required prior to activation.		
required prior to detivation.		
12. Delegation of roles		
Depending on the size and nature of the incident consider		
appointing following positions:		
Front gate attendant		
Registration/admin officer		
Safety officer.		
13. Relief arrangements and shift changes		
Depending on the size and nature of the incident consider relief		
arrangements for the Animal Welfare Coordinator and any		
delegated roles.		
Advise that the centre has an on-site Animal Welfare		
Coordinator at all times. When this is not possible the contact		
details of an off-site Animal Welfare Coordinator is to be made		
publicly available at the centre.		
publicly available at the centre.

17. Clean up		
The facility is to be left in a clean usable state so it can quickly		
return to general business. It is expected the centre users will		
assist with this task. Any major damage is to be reported to the		
Facility Manager.		
POST EMERGE	NCY	
TASK	NOTES	COMPLETED ✓
18. Debrief		
The Animal Welfare Coordinator is to ensure that hot and cold		
debriefs are undertaken with those who are involved with the		
centre, such as:		
Facility Manager		
Feedback from users as they leave		
Hosting an official debrief session.		
19. Request for information		
It is likely the facility will be contacted for details of those		
involved to assist with recovery. If a major incident review is to		
be undertaken, they may also be approached for a submission.		
The Facility Manager will validate the information to be released.		
20. Amendments		
Any proposed changes to this document must be raised with and		
endorsed by the Facility Manager and Shire, in consultation with		
DFES and Department of Communities.

Situation Summary

• What has happened, where and when

Other organisations as necessary

- Overview of immediate effects from the impact of the event
- Estimate of the problem size, scope, area, access, numbers involved including any secondary hazards

Note: Shire can determine who receives the SITREPs based on relationships and need.

• Work health and safety (WHS) summary, casualties

Actions Taken

- Brief reporting of actions completed for the period covered by the sitrep
- Who and what is involved, location of site control/s,
- Activities undertaken by engaged resources
- Impact statistics, numbers of properties affected/visited, number of personnel by agency

Actions to be Completed

- Brief reporting of scheduled/planned/proposed actions for the period covered by the sitrep
- Assessment of effects of operations conducted to date
- Future intentions & resources required, i.e. where operation expects to be by next sitrep

Issue(s)

 Present brief description of issue/s that are known/reasonably expected to arise before the next sitrep is issued e.g. a shortage of a given resource, significant WHS issues

Local Emergency Relief and Support Plan

Great Southern Region

Shire of Plantagenet Local Emergency Management Committee

Prepared by Department of Communities, Emergency Relief and Support

Tabled and accepted at the Local Emergency Management Committee

May 2025

For activation of Emergency Relief and Support services for hazards defined under the WA Emergency Management arrangements call

0418 943 835

Activation summary

Alert - stage one

- The Hazard Management Agency (HMA) or Controlling Agency is responsible for placing the Department of Communities (Communities) and the relevant Local Government/s on alert.
- Communities may engage with the Local Government/s, HMA or Controlling Agency to advise of pre-emptive preparedness activities that would support an emergency response.

Activation for response – stage two

- Via the on-call number 0418 943 835, the HMA or Controlling Agency is responsible for activating the Local Emergency Relief and Support Plan (LERSP) arrangements, to enable emergency relief and support service delivery for the response to the identified hazard.
- This LERSP can be activated at any incident level. Activation of this LERSP will
 concurrently activate the State Support Plan Emergency Relief and Support.
- The respective HMA or Controlling Agency Incident Controller is responsible for the decision to evacuate during an emergency. This includes selecting the evacuation centre(s), in consultation with Communities and the Local Government.
- Should the Local Government receive an evacuation centre activation request directly from the HMA or Controlling Agency, Communities must be informed via the on-call number 0418 943 835.
- The Local Government may be required to support the initial emergency relief and support service response and open an evacuation centre. Communities will discuss preparedness and planning arrangements with the Local Government.
- All emergency relief and support related media enquiries are to be directed to Communities' Media team by phone on 6277 5325, or by email on Media@communities.wa.gov.au.

Stand down - stage three

- The respective HMA or Controlling Agency Incident Controller is responsible for advising Communities to stand down.
- Emergency relief and support services may continue beyond this time, at the discretion of Communities.
- The Local Government is responsible for managing the overall recovery efforts affecting their community.
- When activated by the Local Government, Communities is responsible for supporting the recovery activities through the delivery of emergency relief and support services.

Acknowledgement of Country

The Department of Communities acknowledges the Aboriginal and Torres Strait Islander people as the traditional custodians of all the lands in Western Australia.

We recognise their continuing connection to their lands, waters and sky. We pay our respects to the Aboriginal and Torres Strait Islander people with whom we work, who we serve and protect. We also pay our respects to the Aboriginal and Torres Strait Islander cultures, and to their Elders past and present.

Introduction

The Department of Communities (Communities) is the support organisation responsible for providing and coordinating emergency relief and support services (previously welfare) for the 28 prescribed hazards, as specified in the emergency management legislation.

The Local Emergency Relief and Support Plan (LERSP) details the operational activities for the management and coordination of emergency relief and support services under the Local Emergency Management Arrangements (LEMA).

This LERSP is to be read in conjunction with the LEMA and the State Support Plan - Emergency Relief and Support. This LERSP refers to a range of existing plans and documents relating to emergency relief and support services, including directions to websites and other sources where further information can be obtained.

Purpose

The purpose of this LERSP is to detail the activities for the activation and coordination of emergency relief and support services before, during and after emergencies within the Local Emergency Management Committee or Local Government boundary.

The objective of this LERSP is to outline:

- the activation, and stand-down protocols of Communities and partner agencies
- Communities' responsibilities for the preparedness, response and recovery coordination of emergency relief and support services and resources, and
- the responsibilities of partner agencies to support emergency relief and support service delivery.

Scope of activated services

Emergency relief and support services provide immediate and ongoing social supports to alleviate, as far as practicable, the effects on people impacted by an emergency. These are provided across six functional domains:

- **Emergency accommodation** the provision of temporary shelter for impacted people evacuating from or displaced by an emergency.
- **Emergency food** coordination of basic and essential food support for impacted people without the capacity to self-manage resulting from an emergency.
- Emergency clothing and personal requisites coordination of basic and essential clothing, and personal items for emergency impacted people.
- **Emergency personal support services** the provision of a variety of assistance for emergency impacted people. This can include early psychosocial support, practical assistance, and referral to advisory services, counselling or psychological services.
- **Registration and reunification** the process of enabling emergency impacted people in a community to be traced and reunited with family and friends.
- **Financial assistance** the coordination of financial assistance which, depending on the nature of an emergency, may be available to eligible impacted people affected by the event.

Levels of response

When activated, Communities utilises the Australasian Inter-service Incident Management System (AIIMS) model to support decision making and delivery of emergency relief and support services. This includes establishing a management structure designed to deliver the key functions of control, planning, operations and logistics.

Communities is responsible for determining and implementing the appropriate response operating model based on the scale of the emergency event. This approach involves conducting an assessment on the severity and specific requirements to decide the level of emergency relief and support services required.

Communities may undertake pre-emptive preparedness activities before an Australian Warning System (AWS) Alert is provided.

The potential or actual severity of the emergency events are broadly classified as:

- Level 1 minor community and infrastructure impact, locally managed, supported by resources from the Local Government.
- Level 2 medium complexity, locally managed, supported by resources from the region and if required State-wide resources.
- Level 3 high complexity, centrally manage, supported by State-wide resources.

Via the Communities on-call number 0418 943 835, this LERSP can be activated at any level. Activation of the response arrangements in this LERSP, at any level will concurrently activate the State Support Plan - Emergency Relief and Support.

Depending on the nature of the emergency, and the scale of service demand, emergency relief and support services may be provided through the following approaches:

- remotely, by establishing the Disaster Response Hotline (1800 032 965)
- providing outreach via mobile teams for identified on-ground face-to-face support, or
- static service delivery from a designated physical location such as an evacuation centre or recovery hub.

The appropriate mode of delivery will be agreed in consultation with the HMA or Controlling Agency.

Partner agencies

Communities is responsible for identifying partner agencies at local and regional levels, capable of supporting a sustainable and scalable delivery of emergency relief and support services during the response and recovery stages of an emergency. Partner agencies may include other government, industry, and social sector organisations.

Communities is responsible for the costs associated with the delivery of emergency relief and support services, where a partner agency is engaged. Communities is not responsible for self-activated agency's costs during an emergency event.

Communities and partner agencies negotiate prior to activation for the required operating resources to deliver emergency relief and support.

State-level partner agency responsibilities supporting the delivery of emergency relief and support services can be viewed in the <u>State Support Plan – Emergency Relief and Support</u>, appendix B.

Exchange of information

Communities may establish exchange of information agreements with HMAs, Local Governments and partner agencies. This is completed in preparation for an emergency response and recovery to ensure:

- disclosure and exchange of personal information of impacted people affected by an emergency.
- allows relevant information to be shared between HMA's, authorised officers and agencies for the purposes of emergency management.

Media enquiries and public information

All emergency relief and support related media enquiries are to be directed to Communities' Media team by phone on 6277 5325, or by email on Media@communities.wa.gov.au

The HMA or Controlling Agency is responsible for the public information management function. This includes preparing and distributing timely information and instructions in the relevant language(s) to identified cultural groups living within the Local Government.

Prevention and preparedness

Prevention

Prevention is defined as the mitigation or prevention of the probability of the occurrence of, and the potential adverse effects of, an emergency.

Communities does not have any assigned responsibilities for prevention.

HMAs are assigned responsibility for prevention within emergency management legislation. Other emergency management agencies may also undertake prevention activities.

Preparedness

Preparedness is defined as the 'preparation for response to an emergency'.

- **Communities** is responsible for undertaking emergency relief and support planning and preparedness activities to ensure efficient service delivery should this LERSP be activated. This includes an understanding of partner agency capabilities to support Communities when requested.
- **Partner agencies**, with support from Communities, are responsible for developing plans in readiness for response and recovery mobilisation.
- **Support organisations** providing support to people at higher risk during emergencies are responsible for the planning provisions to cater for their specific needs throughout the emergency, such as an evacuation.

 Hazard Management Agencies are responsible for emergency management preparedness activities for their prescribed hazards. Local planning arrangements are provided in the LEMA.

Pre-determined evacuation centres

Communities establishes evacuation centres as an emergency shelter option, from which to coordinate emergency relief and support services. These centres remain operational until alternative arrangements can be made for persons impacted by the emergency.

Communities is responsible for working cooperatively with the HMA, Local Government and LEMC members to identify suitable facilities that can be used as evacuation centres appropriate for hazards that are high risk to the region.

Communities, with support from the Local Government is responsible for conducting an annual risk assessment and audit of each pre-determined evacuation centre. The purpose of the audit is to identify evacuation centres that are appropriate for the hazard-specific risks relevant to the region and to identify opportunities for Local Governments to upgrade facilities to mitigate risks.

Pre-determined evacuation centres can be found in appendix A

Pre-positioning of emergency equipment

Communities is responsible for the placement of equipment and supplies to support an emergency event. Generally, this placement is aligned with an evacuation centre or Communities regional office location.

Communities is responsible for conducting an annual audit on pre-positioned emergency relief and support emergency equipment and supplies. This audit ensures that there is adequate fit for purpose stock, ready to be deployed quickly and efficiently in the event of an emergency.

Pre-positioned emergency equipment can be found in appendix B

Response

The *Emergency Management Act 2005* defines response, as combating the effects of an emergency, provision of emergency assistance for casualties, reduction of further damage, and help to speed recovery.

When activated, Communities is responsible for supporting the HMA or Controlling Agency through the coordination and delivery of emergency relief and support services to the community.

The HMA or Controlling Agency is responsible for the overall response in an emergency. If requested by the Local Government, Communities can support with recovery activities.

Stages of response

Communities operates a graduated response model to determine and implement the appropriate scale of emergency relief and support services. This approach involves conducting a needs assessment to determine the specific requirements and level of services required.

As mentioned, this LERSP can be activated at any level. Activation of the response arrangements in this LERSP will concurrently activate the State Support Plan - Emergency Relief and Support.

Alert – stage one

- The HMA or Controlling Agency is responsible for placing Communities and the Local Government on alert.
- Communities may engage with the Local Government, HMA or Controlling Agency to advise of pre-emptive preparedness activities that would support an emergency response.

Activation for response – stage two

- Via the on-call number 0418 943 835, the HMA or Controlling Agency is responsible for activating the LERSP arrangements, to enable emergency relief and support service delivery for the response for the identified hazard.
- This LERSP can be activated at any incident level. Activation of this LERSP will concurrently activate the State Support Plan Emergency Relief and Support.
- Formal written acknowledgement from the HMA or Controlling Agency is required to confirm Communities is being activated.
- Should the Local Government receive an evacuation centre activation request directly from the HMA or Controlling Agency, Communities must be informed via the on-call number 0418 943 835.
- The Local Government may be required to support the initial emergency relief and support service response and open an evacuation centre. Communities will discuss preparedness and planning arrangements with the Local Government.

Stand down - stage three

- The respective HMA or Controlling Agency Incident Controller is responsible for advising Communities to stand down.
- Formal written acknowledgement from the HMA or Controlling Agency is required to confirm this direction.
- Emergency relief and support services may continue beyond this time, at the discretion of Communities.

At-risk community groups

The HMA or Controlling Agency is responsible for directing organisations that support atrisk community groups to shelter in-place or evacuate.

Aligned with their organisation's own emergency activation plans, as a first option, support organisations are requested to evacuate to a similar facility in a safer location. Where required, Communities may be directed to support evacuated at-risk community groups.

Emergency accommodation

The respective HMA or Controlling Agency Incident Controller is responsible for the decision to evacuate during an emergency. This includes selecting the evacuation centre(s), in consultation with Communities and the Local Government.

Communities is responsible for coordinating and assessing the provision of temporary accommodation for people displaced by an emergency or evacuating from an emergency. Communities may utilise a range of emergency accommodation options to support people impacted by an emergency.

Expenses related to the activation of evacuation centres that are not approved by the HMA and/or Controlling Agency, will not be covered by Communities.

To ensure the safety of evacuees, staff and volunteers, Communities will not support the HMA/Controlling Agency to establish evacuation centres:

- in bushfire emergency warning areas, and will only establish evacuation centres in Bushfire Watch and Act areas, with Incident Controller confirmation it is safe
- if there are no safe access routes to the evacuation centres, and
- if there are structural and/or health concerns with the evacuation centre.

In circumstances where an evacuation centre is already established in a bushfire emergency warning area, in consultation with the Incident Controller, Communities will:

- conduct a risk assessment, and
- implement mitigation strategies.

In the event of an unusual damage claim resulting from the use of the facility as an evacuation centre, Communities will facilitate processes with the HMA/Controlling Agency to respond to the claim.

Alternate accomodation sites

In large scale state-level impact emergencies, local facilities may be inadequate to ensure the safety of all evacuees, staff, and volunteers. Communities is responsible for requesting the use of facilities from Local Governments or private owners to support impacted people from other Local Governments.

Animal welfare in emergencies

No pets or animals are allowed in an evacuation centre due to health and safety considerations, except for assistance animals, like guide and hearing dogs.

Owners or caregivers are responsible for their animals and are encouraged to make arrangements to ensure their welfare throughout all stages of an emergency.

The Department of Primary Industries and Regional Development has been assigned the role and responsibility for coordinating animal welfare services in emergencies. This is supported by the Local Government, where possible.

Further details can be found in the <u>State Support Plan – Animal Welfare in Emergencies</u> or the Local Animal Welfare Plan in the LEMA (if applicable).

Emergency food

The HMA or Controlling Agency may coordinate food security during an emergency event, such as where there is limited food access due to geographical isolation.

Communities is responsible for coordinating emergency food provision to people impacted by an emergency where emergency relief and support service delivery is activated. This does not include food provision to staff from other emergency management organisations or partner agencies.

Communities cannot accept food prepared by any person or organisation without a Food Handling Certificate issued by the Local Government.

Emergency personal support services

Communities is responsible for coordinating and connecting people impacted by an emergency to personal support services.

Emergency personal support services aim to assist impacted people to cope with the psychosocial, well-being, personal and practical needs following an emergency. These services can encompass a variety of supports to community and impacted people to build capacity and to complement natural supports.

Communities may engage partner agencies to support the coordination of services personal support to impacted people and communities.

Emergency financial assistance

Communities is responsible for coordinating and connecting eligible people impacted by an emergency to financial assistance and related services.

The below categories of financial assistance may be provided on a case-by case basis to people deemed eligible.

• Immediate financial assistance (Category 1) – non-means tested short term assistance provided to impacted people to buy food, clothing, and personal requisites. Category 1 financial assistance is capped at a nominal amount per person, per household and is provided to impacted people based on an assessment of need.

- **Temporary accommodation assistance** (Category 2) non-means tested assistance provided to impacted people based on an assessment of need.
- Essential household contents (Category 3) means tested assistance provided to impacted people, whose contents within their primary place of residence has been directly impacted by an emergency. This assistance is to maintain a basic standard of living by contributing towards the replacement of essential household items (e.g., cooking utensils, bedding, furniture, and whitegoods). This assistance is capped at a nominal amount, per household and may be provided to impacted people who are without insurance or underinsured.
- Essential structural repairs (Category 4) means tested assistance provided to impacted home owner-occupiers to undertake essential repairs to their principal residences. This assistance enables the impacted person to make their home condition safe to inhabit. This assistance is capped at a nominal amount, per household and may be provided to impacted people who are without insurance or underinsured.

Emergency clothing and personal requisites

Communities is responsible for coordinating and connecting people impacted by an emergency to clothing and personal requisites. These services can encompass a variety of supports to community and impacted people to compliment natural supports.

Communities will coordinate and provide personal requisites when:

- impacted people do not have access to their own provisions, or
- impacted people cannot fund their own provisions due to financial restraints.

Communities is not responsible for the provision of medication or coordination of donated funds, goods and services.

Registration and reunification

The registration of impacted people in an emergency enables reunification with family and friends. Enquiries about impacted people can be coordinated, intrastate, interstate or internationally. To facilitate the reunification of impacted people, Communities may activate an appropriate system to facilitate registration and reunification services.

Communities will support the HMA or Controlling Agency to ensure appropriate public messaging is provided when activated.

Recovery

Recovery is defined in the *Emergency Management Act 2005* as 'the support of emergency-affected communities in the reconstruction and restoration of physical infrastructure, the environment and community, psycho-social and economic wellbeing'. The recovery process begins as soon as the emergency impact occurs. Recovery operates in parallel to the response phase and may continue after the response phase is complete.

Under the *Emergency Management Act 2005*, Local Government is responsible for managing recovery following an emergency affecting their community. Local Governments

OFFICIAL

are guided by their Local Recovery Plans within their LEMA and may appoint a Local Recovery Coordinator. The Local Government may seek support from Communities during recovery.

When activated by the Local Government, Communities is responsible for supporting the recovery activities through the delivery of emergency relief and support services.

Approach to recovery

Communities' recovery activities are underpinned by the National Principles for Disaster Recovery. This is delivered across the social, built, economic and natural environments.

Communities operates within a scalable recovery model to determine and implement the appropriate level of emergency relief and support services required to respond to the needs of impacted people and community.

To support the needs of the community during large scale recovery programs, Communities emergency relief and support services may be funded under the Disaster Recovery Funding Arrangements.

Communities will undertake an evaluation of the effectiveness of recovery activities, including an assessment of preparedness activities for future impacts.

Cessation of recovery

Cessation of emergency relief and support services as part of a recovery program will be determined in consultation with the Local Government and may be dependent on community needs, access to other support services, impacted people and the community's resilience.
