## **1.0 Introduction**

### **1.1 Executive Summary**

This Corporate Business Plan (CBP) has been developed to deliver clear direction as the Shire continues to provide leadership in a changing environment. This plan will support the development of improved services and outcomes for the people of Plantagenet.

This is the Council's principal statement that sets strategic direction and identifies priority areas informed by the Strategic Community Plan, external factors and internal capability analysis.

The intent of this plan is to identify Council priorities over a shorter time frame to drive integrated planning within the local government. It also integrates community aspirations into the Shire's operations and service delivery.

This plan is subject to a major review every four years (to align with reviews of Strategic Community Plan) and minor reviews year. This is the second iteration of the original Corporate Business Plan adopted on 24 June 2013.

The Plan activates the Shire's Strategic Community Plan by responding to:

- The Council's distillation and prioritisation of the community's short, medium and long term aspirations;
- Existing operational plans, priorities and external factors impacting on resourcing; and
- The assessment and integration of services and business area plans.

The IP & R Framework recognises that, due to the integrated approach to its development, the CBP may be presented in a single document or as a number of separate documents. In this regard, this 'master document' includes a synopsis of the other plans, however the formal CBP includes the following:

- Asset Management Plan (Stage 1);
- Long Term Financial Plan (2013 – 2023); and
- Workforce Plan.

## 1.2 Shire Snapshot

The Shire of Plantagenet is located in the Great Southern Region of Western Australia, covering 4,792 square kilometres and has spectacular scenery including the Porongurup and a part of the Stirling Range. It is bordered by the Shires of Denmark, Manjimup, Cranbrook, Gnowangerup and the City of Albany.

The Shire encompasses the townsites of Rocky Gully, Kendenup, Porongurup, Narrikup and Mount Barker. Mount Barker serves a wide and diverse agricultural area and is the administrative centre for the Shire of Plantagenet.

The main agricultural focus is cropping, horticulture, plantation timber, sheep, cattle and wine production. There are also many lifestyle opportunities set within a beautiful natural environment.

Mount Barker, the Shire's commercial centre, lies in the middle of the Shire. It is easily accessible from Muir Highway from the south-west, Albany Highway from the north and south and Porongurup Road from the east. In addition to Mount Barker, the Shire includes the rural villages of Kendenup, Narrikup, Rocky Gully and Porongurup.

Mount Barker is an ideal holiday centre with ample shopping and recreation facilities. It is also within easy reach of the southern coastline and other regional tourist attractions.

## 2.0 Integrated Planning and Reporting Framework

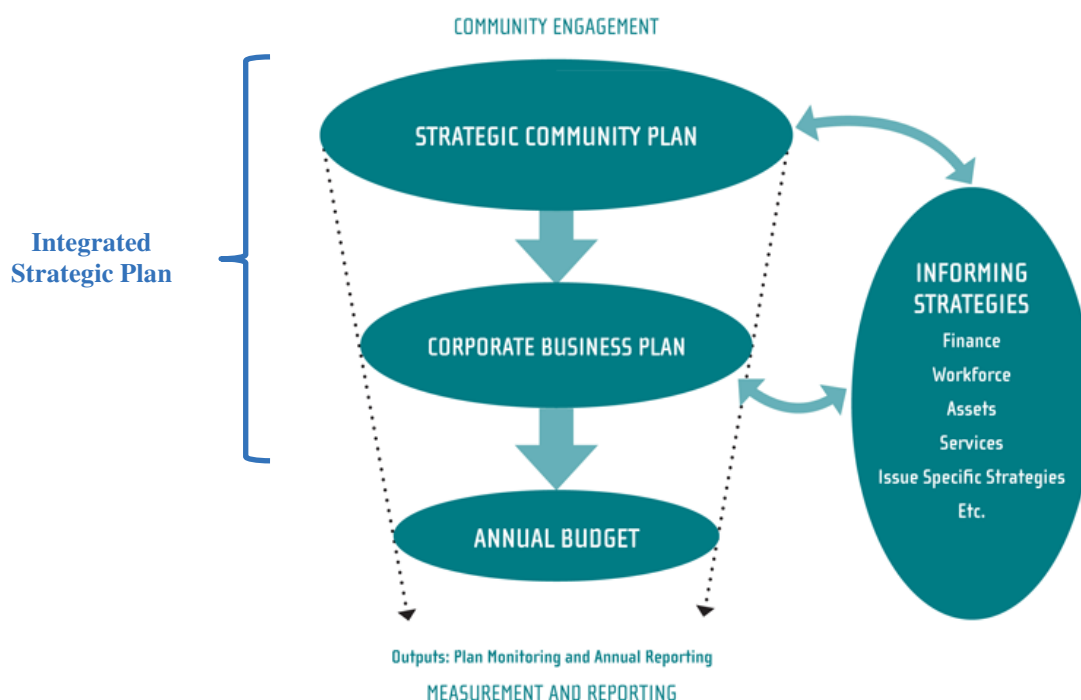

The Local Government Act 1995 requires each local government to prepare a Plan for the Future. Part of this planning involves considering how the Shire will continue to deliver services to the community on a long term basis.

In October 2010, the WA Department of Local Government (DLG) released the Integrated Planning and Reporting (IP & R) Framework. Amendments to the Local Government (Administration) Regulations 1996 came into effect in August 2011 and now define what comprises the Plan for Future, which is the preparation of an Integrated Strategic Plan comprising a Strategic Community Plan (SCP) and CBP (this document).

The SCP has a planning horizon of 10 years, needs to be reviewed every two years (desk top review following local government elections) and updated (full review) every four years. It needs to be developed through engagement of the community and sets out the high level aspirations of the community.

The CBP has a planning horizon of four years with a desktop review, following local government elections, every two years. Preparation of the CBP needs to align with development of the SCP. The CBP is not necessarily one document and can be the combination of several documents. The main thing is that the CBP ties together all of the informing strategies and links them to the SCP.

The diagram at Figure 2 sets out how the various documents required by the IP & R Framework fit together. It also shows the combination of the SCP and CBP comprising the ISP.

**Figure 2: Integrated Planning and Reporting Framework**

## 2.1 Strategic Community Plan

As part of the IP & R Framework, Councils are required to prepare a long term strategic plan that clearly links the community's aspirations with the Council's vision and long term strategy.

The Strategic Community Plan represents the culmination of input from the consultants and facilitated staff and councillor workshops. These activities synthesised current corporate plans and the results of the community survey into a cohesive and representative high level document, aimed at guiding the direction of the Shire over the next ten years.

At its meeting held on 25 June 2013, the Council adopted its Strategic Community Plan 2013 – 2023. The SCP includes the following Vision, Mission and Values:

### VISION

*Plantagenet, building a sustainable community, where natural beauty and diversity provide opportunities for all.*

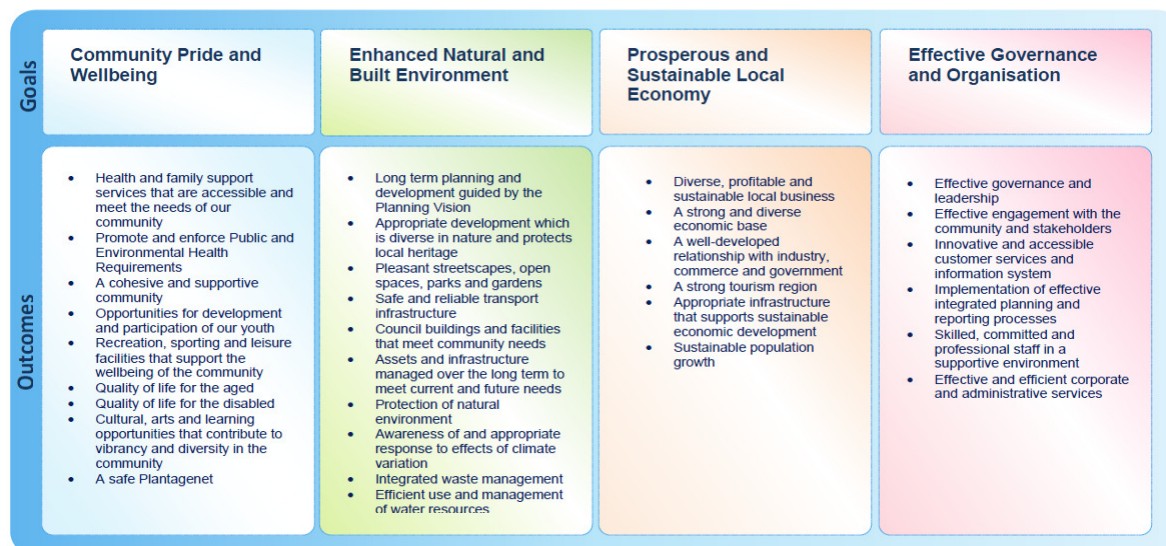

### MISSION

*To enhance the quality of life for the people of Plantagenet and the region, through the provision of leadership, services and infrastructure.*

### VALUES

- **Integrity** through honesty, ethical behaviour and trustworthiness
- **Professionalism** through understanding our roles and responsibility, the need to work efficiently and strive for excellence
- **Accountability** through openness and transparency
- **Supportiveness** by being patient, caring and friendly
- **Responsibility** by taking ownership and not blaming others
- **Customer Focus** by understanding needs, being proactive and responsive

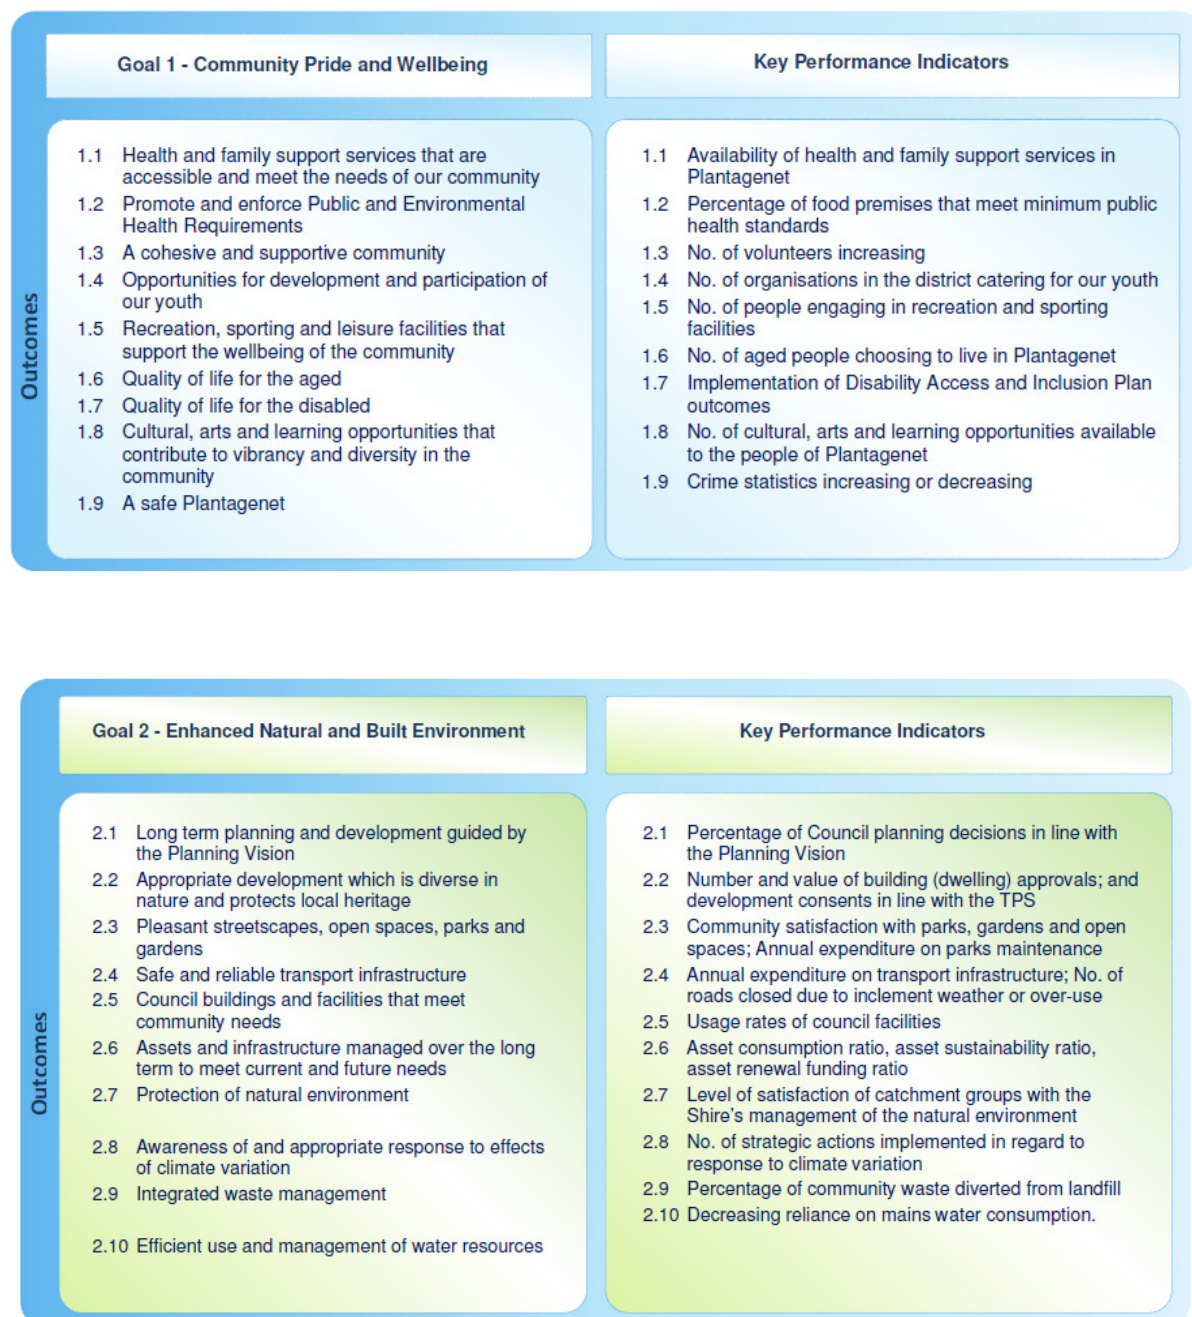

The Strategic Community Plan was developed using the following framework. This Corporate Business Plan will follow that same framework, in order to link actions and tasks to the SCP strategies.

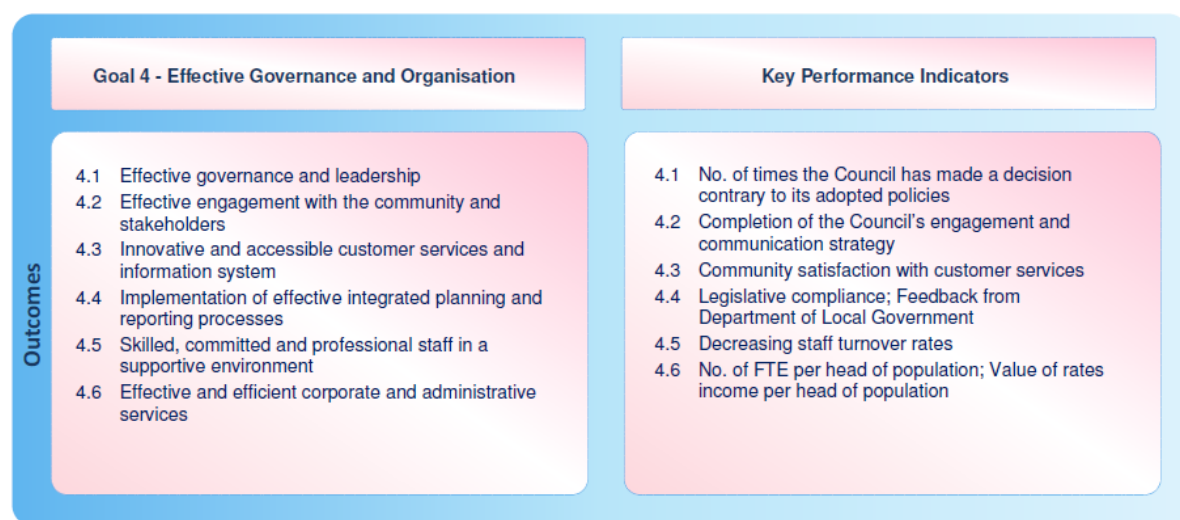

**Figure 3: Strategic Community Plan Framework**

## 2.2 Measuring Outcomes

In developing this plan, the Council has considered the ways of measuring the achievement of strategic outcomes by the application of performance indicators. The following strategic measures or key performance indicators will be monitored to track the Shire's progress in achieving the outcomes identified in the Strategic Community Plan.

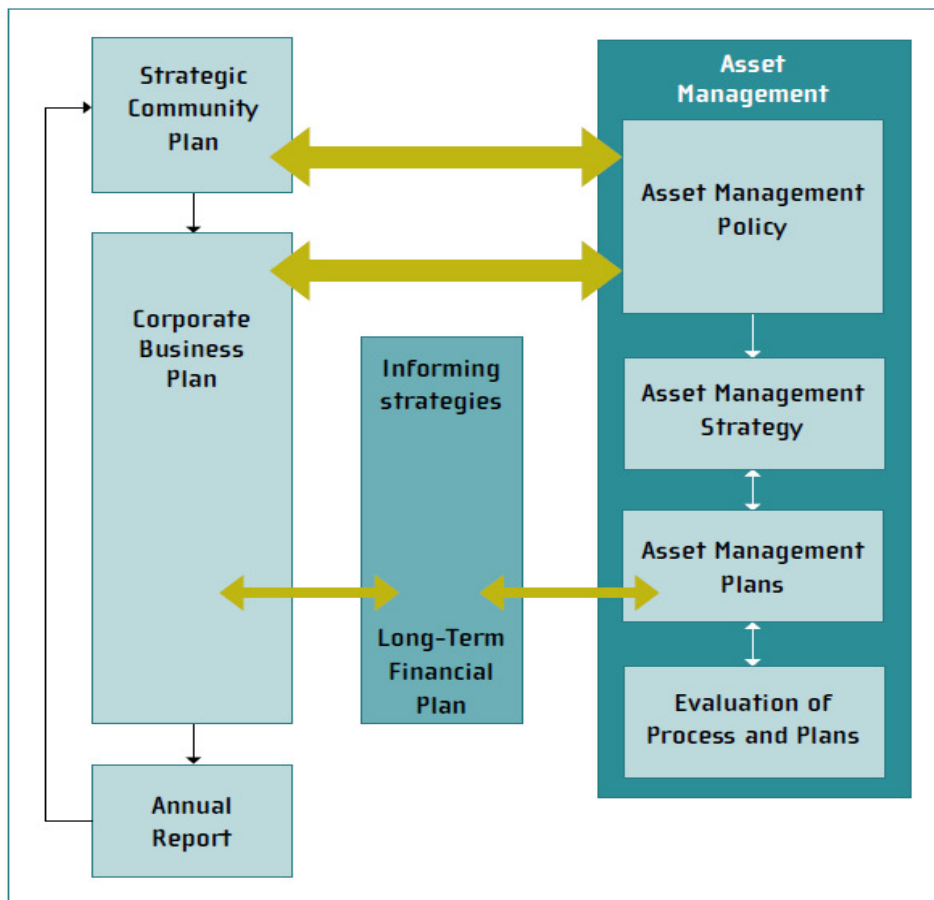

## 2.3 Asset Management Plan

From Figure 2 it can be seen that Asset Management is an informing strategy to the ISP. The DLG has also prepared an Asset Management Framework that defines what local governments should strive to develop in order to have sufficient information to inform the ISP. The Asset Management Framework is set out in Figure 4.

The Asset Management Improvement Strategy is a key component of the informing strategies that comprise the Asset Management Framework and sets out the following:

- Where are we now with asset management?
- Where do we want to be in five years time?
- What are the tasks that we need to undertake to fill the gap?
- What are the timeframes over which each task will be carried out?
- Who will be responsible for each task? and

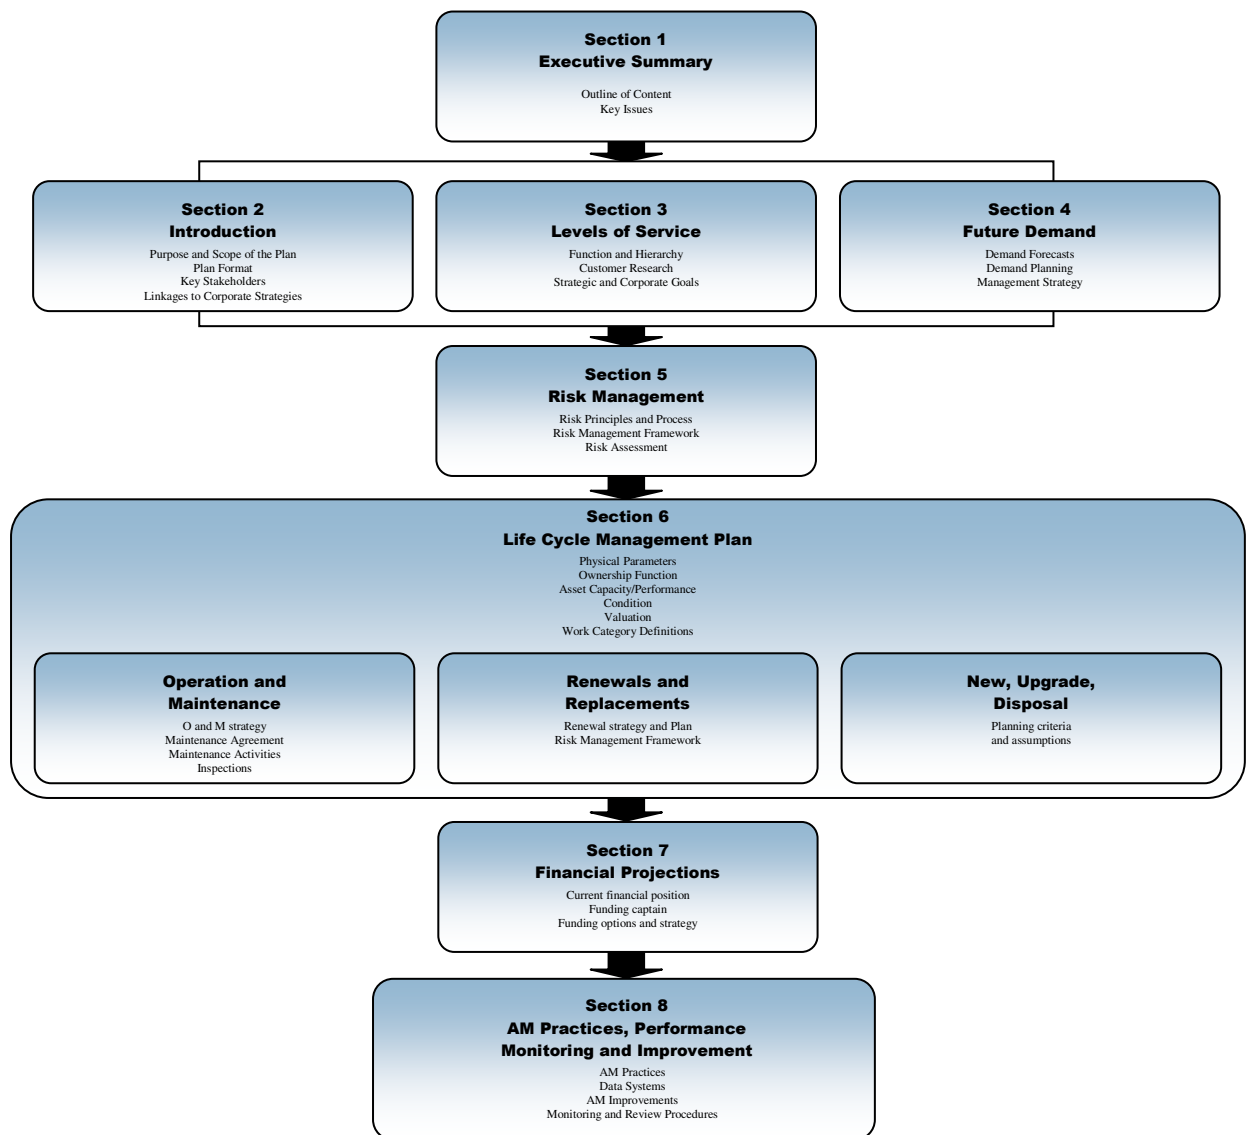

- What resources do we need (\$ and/or Officer time) to achieve each task in the selected timeframe.

**Figure 4: IP&R Asset Management Framework**

The Asset Management Improvement Plan attempts to answer all of the above questions. The first version (1st Cut) of the plan may not be fully complete as it may rely on a task/s identified in the Improvement Task List to be completed before the information in the plan can be considered robust. Nonetheless it is a first step on the Shire's asset management journey and will be regularly updated by the Asset Management Working Group (AMWG).

The format of the AMP is as follows:

A summary of recommendations made in the AMP is as follows:

No.	Recommendation
1	Develop a Stakeholder Engagement methodology and detail in a future version of the AMP.
2	That the Shire of Plantagenet determine and document current Technical and Customer Levels of Service.
3	That the Shire of Plantagenet develops targeted criteria to consult the community on in relation to each asset group.
4	Develop demand forecasts and detail their implication for each major asset group
5	That the Shire of Plantagenet establish a Risk Management Committee with the task of developing a Risk Management Framework and a Risk Management Plan.

6	That the Shire of Plantagenet develops and maintains a comprehensive record of asset responsibilities.
7	That the Shire of Plantagenet develops an Operations and Maintenance Strategy
8	That the Shire of Plantagenet develop an asset inspection process and procedure.
9	That the Shire of Plantagenet develops an Asset Renewal and Replacement Strategy.
10	That the Shire of Plantagenet develops a Capital Evaluation Process.
11	That the Shire of Plantagenet develops a Roles and Responsibilities Matrix and documents this in the AMP and cross reference individual Position Descriptions.
12	That the Shire of Plantagenet undertakes a data and systems audit of all software and data used across the organisation and document this in the AMP.
13	That the Shire of Plantagenet develops monitoring criteria against which performance monitoring of the effectiveness of the AMP can be measured and reported.

## 2.4 Long Term Financial Plan

The Long Term Financial Plan (LTFP) is a modelling tool to project the Shire's financial commitments over the next ten years as a means of helping ensure financial sustainability. The LTFP is part of the Integrated Planning and Reporting Framework that includes the following separate components:

- A ten year Strategic Community Plan (SCP);
- A four year Corporate Business Plan (CBP);
- A Workforce Plan; and
- The Asset Management Framework.

The LTFP is a dynamic tool which analyses financial trends over a ten year period on a range of assumptions and provides us with information to assess the impacts of current decisions and budgets on our future financial sustainability.

The aim of developing the LTFP is to achieve the following objectives:

- Help us to project commitments regards costs for new services or projects as a result of community growth or changing demographics;
- Maintain a strong cash position, ensuring that the Council remains financially sustainable in the long-term, and delivering capacity to respond to unexpected opportunities or unpredictable events such as natural disasters;
- Strategically pursue State and Federal government grant funding opportunities where aligned with the Strategic Community Plan and the Corporate Business Plan requirements;
- Plan rate increases to balance the budget so we can provide for service delivery that meets reasonable community needs;
- Ensure that critical infrastructure asset renewal is funded at the optimum time.
- We are required to undertake a broad review of our Strategic Community Plan every two years and a full review every four years. This LTFP will be reviewed annually in conjunction with the budget process to ensure continued sustainability.

A principle aim of long term financial planning is to ensure that the Shire remains financially sustainable. Whilst there are many definitions of sustainability, the definition of financial sustainability can be found in the report entitled 'National Financial Sustainability Study of Local Government' for the Australian Local Government Association is as follows:

*'The financial sustainability of a council is determined by its ability to manage expected financial requirements and financial risks and shocks over the long term without the use of disruptive revenue or expenditure measures; which is determined by:*

- healthy finances in the current period and long term outlook based on continuation of the council's present spending and funding policies and given likely economic and demographic developments; and*
- ensuring infrastructure renewals/replacement expenditure matches forward looking asset management plan expenditure needs.'*

To ensure we remain financially sustainable, it is important that sound financial strategies and principles are developed and continually reviewed in line with the changing economic and demographic outlook for the community.

## **2.5 Workforce Plan**

Strategic workforce planning is a critical aspect in the long term planning for an organisation. Such a plan helps to ensure that there are sufficient people to carry out the organisation's purpose. It also helps to ensure that there are the right people are in the right place at the right time to build a resilient, cohesive and sustainable organisation.

Workforce planning in Australia, particularly in rural Australia has a number of challenges:

- The workforce is changing within Australia. We are seeing more women in the workforce, there are fewer young people entering the job market each year and the workforce is aging;
- In 2011 more people exited the workforce than entered it;
- Over the next 40 years the proportion of Australians aged over 65 will double; and
- Australia will have shortages of more than 200,000 skilled workers over the next 5 years.

Workforce Planning is the key to forecasting future labour markets, but is also used to:

- Identify staffing problems;
- Monitor and contain workforce costs;
- Develop and highlight existing and new workforce skills; and
- Ensure that there is adequate service delivery into the future.

The Shire of Plantagenet is a significant employer within the Lower Great Southern area of Western Australia. It employs 66 full and part time employees, representing approximately 2.9% of the employment within the area. The Shire of Plantagenet has a strong relationship with its workforce – long term employees, a relatively small workforce number and tight knit community all support the connected, professional and personal approach by management.

The Integrated Planning and Reporting Framework requires all Councils in WA to develop long term Community Strategic Plans and four year Delivery Programs. This Workforce Plan forms part of the Integrated Planning Strategy and outlines how the Shire of Plantagenet will implement the priorities and strategies within its Delivery Program, in line with the Council's budget.

The Shire of Plantagenet faces a number of long term challenges relating to its workforce, and in particular in relation to the implementation of the Delivery Program. These challenges include:

- Ageing labour force;
- Attracting and retaining skilled and qualified staff;
- Meeting community service and infrastructure expectations;
- Funding required positions;
- Changes in technology and machinery; and
- Changing Occupational Safety & Health requirements and the potential impacts on productivity and budget.

This strategy focuses on the context of workforce planning, explores the regional and local challenges, and outlines the responses that the Shire of Plantagenet will take to support the implementation of the Delivery Program.

The Workforce Plan aims to ensure the Shire of Plantagenet's workforce has the right skills, at the right time and in the right quantities to ensure sustainable service delivery in the future.

Key objectives of the Workforce Plan are to identify:

- Gaps between current and future workforce capability;
- Areas of skills shortage;
- Issues arising from an ageing workforce;
- Areas of workforce growth and shrinkage;
- Strategies to address the gaps and mitigate risk; and
- A succession plan for critical positions.

## **3.0 Corporate Business Plan**

### **3.1 Regulatory Requirements**

A Corporate Business Plan:

- (i) Is for a minimum of 4 years.
- (ii) Identifies and prioritises the principal strategies and activities the council will undertake in response to the aspirations and objectives stated in the Strategic Community Plan.
- (iii) States the services, operations and projects that a local government will deliver over the period of the plan, the method for delivering these and the associated cost.
- (iv) References resourcing considerations such as asset management plans, finances and workforce plans.
- (v) Is adopted by council by absolute majority.

Regulations also require that:

- (i) Notice has been given to the public when the Corporate Business Plan is adopted (or modified).
- (ii) The Corporate Business Plan is reviewed annually. This is because it is the main 'driver' for the local government's annual budget.

### **3.2 Plan Preparation**

The process through which the CBP has been developed incorporates:

- Activating the Strategic Community Plan; and
- Operations Planning – including Asset Management, Financial Management and Workforce Management.

These strategies and plans have been influenced by and will continue to be shaped by other documents such as:

- Strategic Community Plan;
- Previous Plan for the Future;
- Council policies and decisions;
- Planning Vision;
- Local Planning Strategy;
- Town Planning Scheme No.3;
- Public open Space Strategy;
- Mount Barker and Kendenup Sport and Recreation Plans;
- Disability Access and Inclusion Plan;
- EEO Management Plan;
- Information Technology Strategic Plan;
- Saleyards Strategic Plan;
- Strategic Marketing Plan;
- Environmental Health Plan;

- Facility Business Plans, Management Plans and Maintenance Schedules;
- Plantagenet Trails Masterplan;
- Asset Management Strategy;
- Asset Register;
- Forward Capital Works Plan;
- Gravel Sheeting Strategy;
- Townsite Drainage Plans;
- Roman Database;
- Five year Plant Replacement Program;
- Five Year Road Construction Program;
- Strategic Public Relations / Marketing Plan (Proposed);
- Economic Development Plan (Proposed);
- Strategic Risk Management Plan (Proposed); and
- Business Continuity / Disaster Recovery Plan (Proposed).

Conversely, such plans (proposed and updated) may also be outputs from this framework.

The Plan incorporates four year priorities set by the Council and a ten year rolling financial plan (by reference to the Long Term Financial Plan). Reviews of this plan will drive the operations of the Shire of Plantagenet within its resourcing capabilities.

In developing this plan, the Council has considered the capacity of its current resources and the anticipated capacity of its future resources. The Council has also considered demographic trends and the ways of measuring the achievement of strategic outcomes by the application of performance indicators. The plan will be reviewed annually to deliver the annual budget, but the software supporting this plan will enable it to be continually updated.

### 3.3 Service Delivery

The Shire of Plantagenet delivers services to its community in line with the Strategic Community Plan 2013 – 2023 under reporting programs defined by the Local Government (Financial Management) Regulations 1996. The services and their associated strategies have been listed under each program.

### **3.5 Detailed Strategies and Actions**

The following tables reflect the future actions to be undertaken for each strategy, which have been divided into the four elements of the Strategic Community Plan framework.

## **Goal 1: Community Pride and Wellbeing**

### **Scope:**

Foster community pride, safety, well-being and involvement through the provision of services

Outcome / Action Ref. Strategy	Action	Operating/Capital	2014/15	2015/16	2016/17	2017/18	2019/20 onwards
